BEECH CREEK BRANCH LINE

Comment Form for Public Scoping Meeting
February 10, 2009

Thank you for joining us tonight to learn about environmental studies for the proposed reactivation of the Beech Creek Branch Line. An important component of the environmental clearance process is to gather and consider comments from the interested public. Please complete the information below and deposit this form in one of the collection boxes marked "Comment Forms".

1. In which municipality and county is your residence located?

Snow Shoe Boro, Centre County

2. How did you learn about the meeting tonight?

E-mail from People Protecting Communities.

3. Please tell us your comments about the information presented here tonight. (How well was the information presented; was it informative and understandable; were the consultants helpful in answering your questions; etc.)

Not exactly what I was expecting, thought there would be a presentation to the group.
Consultants were knowledgable and helpful.

4. What additional comments about the proposed rail reactivation would you like to add?

The reactivation to serve as land fill, which appears to be the major reason for the request for reactivation, is not a good fit for the area. Locally the only municipality which would benefit from the land fill is Rush Twp. and ~~there~~ their township would incur very little impact. The townships of Cooper, Morris and Decatur will have to deal with the train traffic and any other impacts due to the possible reactivation of this line.
