BEECH CREEK BRANCH LINE

Comment Form for Public Scoping Meeting
February 10, 2009

Thank you for joining us tonight to learn about environmental studies for the proposed reactivation of the Beech Creek Branch Line. An important component of the environmental clearance process is to gather and consider comments from the interested public. Please complete the information below and deposit this form in one of the collection boxes marked "Comment Forms".

1. In which municipality and county is your residence located?

   STATE COLLEGE

2. How did you learn about the meeting tonight?

   SIERRA CLUB NEWSLETTER, PPC

3. Please tell us your comments about the information presented here tonight. (How well was the information presented; was it informative and understandable; were the consultants helpful in answering your questions; etc.)

   Consultants were knowledgeable / displays easy to follow / flow diagrams clear. Few commenters question why the Railroads need to Restore existing Rails. Most had an issue with Carman's Connection with RRLLC.

4. What additional comments about the proposed rail reactivation would you like to add?

   I would like to ask Carman + Co to hold public hearing where citizens from throughout the County can question the purpose of this project.
