BEECH CREEK BRANCH LINE

Comment Form for Public Scoping Meeting
February 10, 2009

Thank you for joining us tonight to learn about environmental studies for the proposed reactivation of the Beech Creek Branch Line. An important component of the environmental clearance process is to gather and consider comments from the interested public. Please complete the information below and deposit this form in one of the collection boxes marked "Comment Forms".

1. In which municipality and county is your residence located?

   Rush Twp. Centre County

2. How did you learn about the meeting tonight?

   Progress Newspaper

3. Please tell us your comments about the information presented here tonight. (How well was the information presented; was it informative and understandable; were the consultants helpful in answering your questions; etc.)

   It was informative, understandable and the Consultants were helpful

4. What additional comments about the proposed rail reactivation would you like to add?

   If the Rail Activation leads to the development of a LandFill (Governmentally Regulated) and also brings service to a Quarry, Biodiesel Facility and ~~an~~ an Industrial PARK That would be a Good Thing. Even if it leads to the closing of an Illegal Dump that is unregulated and disease spreading.
