Dear Chairman Thune, Ranking Member Nelson, Subcommittee Chairman Fischer, and Subcommittee Ranking Member Booker:

On behalf of the Surface Transportation Board (STB or Board), I am pleased to provide the Board's second quarter 2017 reports in accordance with the Surface Transportation Board Reauthorization Act of 2015 (STB Reauthorization Act or Act). I also want to provide an update on several matters that may be of interest to you.

The Board is continuing its efforts to fulfill the requirements of the STB Reauthorization Act. As I mentioned in my April 3, 2017 letter, the Board had just issued a notice of proposed rulemaking (NPRM) in Expediting Rate Cases, Docket No. EP 733, pursuant to Section 11 of the Act, which requires the agency to consider how procedures for expediting court litigation might be applied to rate cases. The comment period for the NPRM closed on June 14, and the Board expects to issue a decision no later than November 2017.

Two regulatory proceedings were finalized in June, as projected in the April 3, 2017 quarterly report on Pending STB Regulatory Proceedings. In Offers of Financial Assistance (OFA), Docket No. EP 729, the Board issued a final rule updating twenty-year-old regulations to improve OFA procedures and protect the OFA process against abuse. This final rule was served on June 29, 2017, and will become effective after 30 days. In Publication Requirements for Agricultural Products, Docket No. EP 528 (Sub No. 1), the Board issued a final rule updating the publication requirements of pricing and service terms for the transportation of agricultural products and fertilizer. The amended regulations require Class I carriers to post these terms on their websites, reflecting the fact that railroads often use their company websites to provide information to customers and the public. This final rule was served on June 30, 2017, and will also become effective after 30 days. Finally, I had hoped that the Board would take action on Expanding Access to Rate Relief, Docket No. EP 665 (Sub-No. 2), recognizing that the January 3, 2017 quarterly report on Pending STB Regulatory Proceedings provided

June 2017 as the next date for Board action. Although a consensus was not reached for a June action, please be assured that improving the rate review processes for all shippers, including grain shippers who believe that the current processes are not useable to test the reasonableness of rail rates for their commodities, remains a priority.

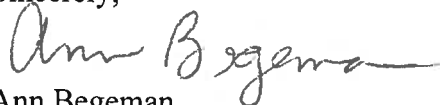

Board action on our large docket of cases, including one pending rate case, is proceeding well. You may recall that the Board initiated a process in March establishing target deadlines for each pending case, as soon as possible after the record closes. The Board's four months of experience with this initiative have been very positive, and I commend my colleagues and Board staff for their collective efforts to help resolve cases as quickly as possible. While it remains appropriate for the Board's larger regulatory proceedings to be considered by a full complement of members before taking major action (the Board is currently comprised of two Democrats and one Republican, and there are two vacancies), stakeholders and members are nevertheless continuing to hold ex parte meetings on Competitive Switching Rules, Docket No. EP 711 (Sub- No. 1).

I want to inform you about one annual proceeding that has been delayed far longer than the Board anticipated, Railroad Cost Recovery Procedures—Productivity Adjustment, Docket No. EP 290 (Sub-No. 4). This proceeding involves the calculation of changes in railroad productivity, which is normally a routine matter. However, this year's productivity adjustment (for the 2011-2015 five-year period) has been affected by a change in the way distances are measured in the Board's 2015 Waybill Sample, which is processed for the Board under a contract between the Federal Railroad Administration and a federal contractor, Railinc Corp. Efforts to resolve technical issues are ongoing, and I anticipate that the Board will provide timing information to our stakeholders later this month. Once a final 2015 waybill is available, it may be appropriate for the Board to hold a technical conference to further address the matter with stakeholders. Resolution of the waybill issue is a high priority for the Board, as it not only impacts our stakeholders who use the waybill, but it also delays other work by the Board.

Finally, the Board has established a Regulatory Reform Task Force (Task Force) to comply with the spirit of the Presidential Executive Order on Enforcing the Regulatory Reform Agenda, EO 13,777. The Task Force is working to identify rules and practices that are burdensome, unnecessary, or outdated, and to recommend how they should be modified. The Task Force will host a public listening session on July 25, 2017, to hear stakeholders' views on streamlining the agency's regulations. The listening session will begin at 10:00 a.m. in the Board's Hearing Room. The session will be on-the-record, and a transcript will be available to the public following the session.

Again, thank you for your strong interest in the Board and its work. If you have any questions, I can be reached at 202-245-0204.

Sincerely,

Ann Begeman
Acting Chairman

Popular Title: Review of the General Purpose Costing System

RIN 2140-AB14

Stage: Proposed Rule

Previous Stage: NPRM: Publication Date 02/04/2013; End of Comment Period 09/05/2013; SNPRM served 08/04/2016 (published in Fed. Reg. 08/10/2016); End of Comment Period 11/07/2016.

Abstract: The Board proposes certain changes to its general purpose costing system—the Uniform Railroad Costing System (URCS). Specifically, the Board proposes in a Supplemental Notice of Proposed Rulemaking to modify certain inputs into Phase II of URCS and to modify certain cost calculations in Phase III of URCS in order to eliminate the “make-whole adjustment” in Phase III. The Board proposes certain other related changes to URCS, including proposals for locomotive unit-miles and train miles allocations, that would result in more appropriate rail movement costs.
