Jeff,

EI-20900

I received the Environmental Assessment for the subject abandonment and appreciate the opportunity to review.

I noticed that the initial scoping documentation as sent to the NY District, US Army Corps of Engineers. Please note that Erie county falls within the jurisdictional boundaries of the Buffalo District. I've enclosed a map showing the District Boundaries for the purposes of Regulatory matters. You can use me as a POC for projects within the Buffalo District.

The Corps concurs that it is unlikely that there will be any permits required for the proposed abandonment, as no work directly in waters is anticipated. In the event that the project scope changes such that the work will result in a discharge of dredged or fill material into waters of the US. I encourage Norfolk Southern to contact this office to discuss potential permitting requirements.

Thanks again for the opportunity to comment.

v/r,

Steve
