

## 22. FINAL EIS CIRCULATION

Surface Transportation Board (STB) regulations identify the types of agencies and officials to receive environmental documentation (49 Code of Federal Regulations [C.F.R.] § 1105.7). In addition, National Environmental Policy Act (NEPA) regulations identify appropriate distribution (40 C.F.R. parts 1500 to 1508). This chapter lists the agencies, officials, and other interested persons receiving this Final Environmental Impact Statement (EIS) for the proposed Port MacKenzie Rail Extension. The STB's Office of Environmental Analysis (OEA) also provided specific information about how to comment on this Final EIS to those on the notification list.

The U.S. Environmental Protection Agency (USEPA) is expected to publish a Notice Availability of the Final EIS in the *Federal Register* on April 1, 2011. OEA distributed this Final EIS through hard copy and CD-ROM mailing to maximize public awareness of the availability of the document.

OEA maintains an environmental distribution list composed of individuals potentially affected by the project, individuals with a specific role in the environmental process, and individuals who have expressed an interest in the proposed action. Following publication of the Draft EIS, OEA continued to update the distribution list as individuals request inclusion. The list included approximately 6,600 contacts at the time OEA distributed the Final EIS.

Sections 22.1 through 22.5 list the Federal, state, and local agencies; tribes; Federal, state, and local elected officials; and other organizations who have been invited to participate in the environmental review process and have received this Final EIS. This chapter does not list the approximately 5,300 individuals on the distribution list who do not fall into any of these categories but did receive this Final EIS.
