February 22, 2016
Part of
Public Record

As a long-time and frequent Amtrak customer and US taxpayer, I respectfully request that this Policy Statement be withdrawn.

On-Time Performance is the Number One determining factor when passengers decide whether or not to use passenger rail services, and anything which interferes with Amtrak's ability to ensure that the freight railroads deliver Amtrak's trains on time is not in the best interest of the millions of us who depend on Amtrak for meetings and vacations.
