VIA E-FILING

Chairman Daniel R. Elliott, III
Surface Transportation Board
395 E. Street, S.W.
Washington, D.C. 20423-0001

RE: Docket No. EP 722

Dear Chairman Elliott:

The E.I. du Pont de Nemours and Company ("DuPont") writes in support of the comments submitted to the Surface Transportation Board (the "Board") by the Concerned Shipper Associations.

DuPont is a member of the American Chemistry Association ("ACC") and the Chlorine Institute ("CI"). ACC and CI, together with The Fertilizer Institute and The National Industrial Transportation League have filed reply comments to the Board regarding railroad revenue adequacy in Docket No. EP 722.

DuPont endorses the comments by the Concerned Shipper Associations and urges the Board to consult the Concerned Shipper Associations comments and supporting documentation in developing standards and procedures in a Notice of Proposed Rulemaking.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark H. Christman", written over a large, stylized flourish.

Mark H. Christman
