I have been driving truck for over 40 years. I've see alot of things that shouldn't happen on the road. Up until about 10 years ago or so there were good drivers that were trained by the older more experienced drivers. Now you have to go to driving school to be a driver. This is a big problem. they are not trained long enough or shown enough. Its all in how much money they can get for the training. The EOBR is not going to change this or make it any safer on the road. Also the person in the car that pulled out in front of a truck because he didn't want to be behind him should be retrained. I am against the EOBE for those and alot of other reasons.
