SURFACE TRANSPORTATION BOARD

NOTICE

Docket No. NOR 42121

TOTAL PETROCHEMICALS & REFINING USA, INC.

v.

CSX TRANSPORTATION, INC.

August 16, 2013

In the decision in this proceeding served on May 31, 2013, the Board explained that its analysis of the record in the highly confidential version of the appendix was initially provided only to the parties' outside counsel due to the prevalence of competitively sensitive information contained therein. The decision indicated that a public version of the appendix would be released after the parties were given an opportunity to propose redactions of any confidential and highly confidential information contained in the highly confidential version of the appendix.

Pursuant to this notice, the Board's prior decision is being updated to include the public version of the appendix submitted by the parties on July 1, 2013. The public version of the appendix should replace page 32 of the decision served on May 31, 2013. An updated version of the decision will be available on the Board's website.

By the Board, Rachel D. Campbell, Director, Office of Proceedings.
