SURFACE TRANSPORTATION BOARD

DECISION AND NOTICE OF INTERIM TRAIL USE OR ABANDONMENT

STB Docket No. AB-471 (Sub-No. 6X)

SOUTH KANSAS AND OKLAHOMA RAILROAD COMPANY–
ABANDONMENT EXEMPTION–IN CRAWFORD COUNTY, KS

Decided: November 14, 2002

South Kansas and Oklahoma Railroad Company (SKO) filed a notice of exemption under 49 CFR 1152 Subpart F–Exempt Abandonments to abandon a 0.4-mile line of railroad between milepost 134.3 and milepost 134.7, within the city of Pittsburg, in Crawford County, KS. Notice of the exemption was served and published in the Federal Register on October 16, 2002 (67 FR 63963-64). The exemption is scheduled to become effective on November 15, 2002.

On November 4, 2002, the City of Pittsburg (City) filed a request for issuance of a notice of interim trail use (NITU) for the entire line under the National Trails System Act, 16 U.S.C. 1247(d) (Trails Act), and for a public use condition under 49 U.S.C. 10905, so that it can negotiate with SKO for acquisition of the right-of-way for use as a recreational trail.¹ The City requests that SKO be prohibited from disposing of the corridor, other than the tracks, ties, and signal equipment, except for public use on reasonable terms, and that SKO be barred from removing or destroying any trail-related structures, such as bridges, trestles, culverts and tunnels for a 180-day period from the effective date of the abandonment exemption. The City states that the time period is needed because it has not had an opportunity to complete a trail plan with SKO. The City has submitted a statement of willingness to assume financial responsibility for the management of, for any legal liability arising out of the transfer of or use of (unless the user is immune from liability, in which case it need only indemnify the railroad against any potential liability), and for payment of any and all taxes that may be levied or assessed against, the right-of-way, as required at 49 CFR 1152.29, and has acknowledged that the use of the

¹ The October 16 notice provided that trail use/rail banking requests had to be filed by October 28, 2002. In revising its abandonment rules Aban. and Discon. of R. Lines and Transp. Under 49 U.S.C. 10903, 1 S.T.B. 894 (1996) and 2 S.T.B. 311 (1997), the Board retained the policy of accepting filings after the due date when good cause is shown. Because there is no indication that the City's late-filed request will prejudice any party, it will be accepted. See Wheeling & Lake Erie Railway Company–Abandonment Exemption–In Starke County, OH, STB Docket No. AB-227 (Sub-No. 10X), slip op. at 1 n.1 (STB served Nov. 7, 1997).

right-of-way for trail purposes is subject to future reactivation for rail service. In a response submitted by facsimile on November 7, 2002, SKO indicated its willingness to negotiate with the City.

Because the City's request complies with the requirements of 49 CFR 1152.29 and SKO is willing to negotiate for trail use, a NITU will be issued. The parties may negotiate an agreement during the 180-day period prescribed below. If the parties reach a mutually acceptable final agreement, no further Board action is necessary. If no agreement is reached within 180 days, SKO may fully abandon the line. See 49 CFR 1152.29(d)(1). Use of the right-of-way for trail purposes is subject to restoration for railroad purposes.

As an alternative to interim trail use under the Trails Act, the right-of-way may be acquired for public use as a trail under 49 U.S.C. 10905. See Rail Abandonments—Use of Rights-of-Way As Trails, 2 I.C.C.2d 591, 609 (1986). Under section 10905, the Board may prohibit the disposal of rail properties that are proposed to be abandoned and are appropriate for public purposes for a period of not more than 180 days after the effective date of the decision approving or exempting the abandonment.

To justify a public use condition, a party must set forth: (i) the condition sought; (ii) the public importance of the condition; (iii) the period of time for which the condition would be effective; and (iv) justification for the imposition of the period of time requested.² See 49 CFR 1152.28(a)(2). Because the City has satisfied these requirements, a 180-day public use condition will be imposed, commencing with the effective date of the exemption.

When the need for interim trail use/rail banking and public use is shown, it is the Board's policy to impose both conditions concurrently, subject to the execution of a trail use agreement. If a trail use agreement is reached on a portion of the right-of-way, SKO must keep the remaining right-of-way intact for the remainder of the 180-day period to permit public use negotiations. Also, a public use condition is not imposed for the benefit of any one potential purchaser, but rather to provide an opportunity for any interested person to acquire the right-of-way that has been found suitable for public purposes, including trail use. Therefore, with respect to the public use condition, SKO is not required to deal exclusively with the City, but may engage in negotiations with other interested parties.

As conditioned, this decision will not significantly affect either the quality of the human environment or the conservation of energy resources.

² The City states that the justification for the public use condition is that the rail corridor will be a City Park, as well as a portion of a citywide pedestrian/bicycle trail, and would make an excellent recreational trail.

It is ordered:

1. This proceeding is reopened.
2. Upon reconsideration, the notice served and published in the Federal Register on October 16, 2002, exempting the abandonment of the line described above is modified to the extent necessary to implement interim trail use/rail banking as set forth below, subject to the conditions that SKO keep intact the right-of-way underlying the tracks, including bridges, trestles, culverts and tunnels, for a period of 180 days from November 15, 2002 (until May 14, 2003), to enable any state or local government agency or other interested person to negotiate the acquisition of the line for public use.
3. If an interim trail use/rail banking agreement is executed before expiration of the 180-day period specified above, the public use condition will expire to the extent that the trail use/rail banking agreement covers the same line.
4. If an interim trail use/rail banking agreement is reached, it must require the trail user to assume for the term of the agreement, full responsibility for management of, any legal liability arising out of the transfer or use of (unless the user is immune from liability, in which case it need only indemnify the railroad against any potential liability), and for the payment of any and all taxes that may be levied or assessed against, the right-of-way.
5. Interim trail use/rail banking is subject to the future restoration of rail service and to the user's continuing to meet the financial obligations for the right-of-way.
6. If interim trail use is implemented, and subsequently the user intends to terminate trail use, it must send the Board a copy of this decision and notice and request that it be vacated on a specified date.
7. If an agreement for interim trail use/rail banking is reached by May 14, 2003, interim trail use may be implemented. If no agreement is reached by that time, SKO may fully abandon the line.

8. This decision is effective on its service date.

By the Board, David M. Konschnik, Director, Office of Proceedings.

Vernon A. Williams
Secretary
