## ENVIRONMENTAL ASSESSMENT

NO. AB- 33 (SUB-NO. 134X)

Union Pacific Railroad Company  
-- Abandonment and Discontinuance Exemption --  
In Los Angeles County, CA

### BACKGROUND

In this proceeding, the Union Pacific Railroad Company (UP) has filed a notice of exemption under 49 CFR 1152.50 seeking exemption from the requirements of 49 U.S.C. 10903 in connection with the abandonment of its Lincoln Park Drill railroad line located between MP 486.30 near State Street and MP 487.74 near Lincoln Park, and to discontinue operations on trackage rights over Southern California Regional Rail Authority's San Gabriel Subdivision from MP 485.30 to MP 486.10 near State Street, a combined total distance of 2.24 miles in Los Angeles County, CA. A map depicting the rail line in relationship to the area served is appended to the report. If the notice becomes effective, the railroad will be able to salvage track, ties and other railroad appurtenances and to dispose of the right-of-way.

### ENVIRONMENTAL REVIEW

The railroad has submitted an environmental report that concludes the quality of the human environment will not be affected significantly as a result of the abandonment or any post-abandonment activities, including salvage and disposition of the right-of-way. The railroad has served the environmental report on a number of appropriate Federal, state, and local agencies as required by the Board's environmental rules at 49 CFR 1105.7(b). We have investigated the record in this proceeding. Also, we have contacted appropriate agencies and individuals to verify the railroad's report and to obtain additional information and comments regarding the potential environmental effects of the proposed abandonment. Contacts have included U.S. Environmental Protection Agency, and National Geodetic Survey.

### CONDITIONS

UP indicates that there is one bridge on the line at MP 487.17, which is a deck plate girder ballast deck bridge, 208 feet in length, dated 1906. We have reviewed the photographs of

the bridge and UP's opinion that it is unaware of any historic features of the line, and conclude that the transaction will not adversely effect any historic resources.

The National Geodetic Survey (NGS) identified one geodetic station marker along the rail line that may be affected by the proposed abandonment and requests 90 days notice to plan relocation of any markers which may be disturbed or destroyed. Therefore, we recommend that the following condition be imposed on any decision granting abandonment authority: **Union Pacific Railroad Company shall consult with the National Geodetic Survey and provide NGS with 90 days notice prior to disturbing or destroying any geodetic markers.**

#### **CONCLUSIONS**

Based on the information provided from all sources to date and subject to the recommended condition, we conclude that, as currently proposed, abandonment of the line will not significantly affect the quality of the human environment. Therefore, the environmental impact statement process is unnecessary.

Alternatives to the proposed abandonment would include denial (and, therefore, no change in operations), discontinuance of service without abandonment and continued operation by another operator. In any of these cases, the existing quality of the human environment and energy consumption should not be affected.

#### **PUBLIC USE**

If abandonment and salvage of the rail line does take place, the right-of-way may be suitable for other public use. A request containing the requisite four-part showing for imposition of a public use condition (49 CFR 1152.28) must be filed with the Board and served on the railroad within the time specified in the Federal Register notice.

#### **TRAILS USE**

A request for a notice of interim trail use (NITU) is due to the Board, with a copy to the railroad, within 10 days of publication of the notice of exemption in the Federal Register. However, the Board will accept late-filed requests as long as it retains jurisdiction to do so. This request must comply with the Board's rules for use of rights-of-way as trails (49 CFR 1152.29).

**PUBLIC ASSISTANCE**

The Board's Office of Public Services (OPS) responds to questions regarding interim trail use, public use, and other reuse alternatives. You may contact OPS directly at (202) 565-1592, or mail inquiries to Surface Transportation Board, Office of Public Services, Room 848, Washington, DC 20423.

**ENVIRONMENTAL COMMENTS**

If you wish to file comments regarding this environmental assessment, send an **original and two copies** to Vernon A. Williams, Office of the Secretary, Room 711, Washington, DC 20423, to the attention of Mike Dalton, who prepared this environmental assessment. **Please refer to Docket No. AB-33 (Sub-No. 134X) in all correspondence addressed to the Board.** If you have questions regarding this environmental assessment, you should contact Mr. Dalton at (202) 565-1530.

Date made available to the public: April 12, 1999.

**Comment due date: April 27, 1999.**

By the Board, Elaine K. Kaiser, Chief, Section of Environmental Analysis.

Vernon A. Williams  
Secretary
