ENVIRONMENTAL ASSESSMENT

NO. AB-55 (SUB-NO. 550X)
ABANDONMENT EXEMPTION - IN CLINTON COUNTY, MICHIGAN

BACKGROUND

In this proceeding, the CSX Transportation, Inc. (CSXT) has filed a notice of exemption under 49 CFR 1152.50 seeking exemption from the requirements of 49 U.S.C. 10903 in connection with the abandonment of its railroad line located between Milepost CHC-2.11 near Grand Ledge and Milepost CHC-3.43 at the end of track at Eagle, a distance of 1.32 miles in Clinton County, Michigan. A map depicting the rail line in relationship to the area served is appended to the report. If the notice becomes effective, the railroad will be able to salvage track, ties and other railroad appurtenances and to dispose of the right-of-way.

ENVIRONMENTAL REVIEW

The railroad has submitted an environmental report that concludes the quality of the human environment will not be affected significantly as a result of the abandonment or any post-abandonment activities, including salvage and disposition of the right-of-way. The railroad has served the environmental report on a number of appropriate Federal, state, and local agencies as required by the Board's environmental rules at 49 CFR 1105.7(b). We have investigated the record in this proceeding. Also, we have contacted appropriate agencies and individuals to verify the railroad's report and to obtain additional information and comments regarding the potential environmental effects of the proposed abandonment. Contacts have included the Natural Resources Conservation Service; the Fish and Wildlife Service; U.S. Environmental Protection Agency, Region 5; Michigan Department of Environmental Quality; and the Clinton County Planning Commission.

CONDITIONS

We recommend that no environmental conditions be placed on any decision granting abandonment authority.

CONCLUSIONS

Based on the information provided from all sources to date, we conclude that, as currently proposed, abandonment of the line will not significantly affect the quality of the human environment. Therefore, the environmental impact statement process is unnecessary.

Alternatives to the proposed abandonment would include denial (and, therefore, no change in operations), discontinuance of service without abandonment and continued operation by another operator. In any of these cases, the existing quality of the human environment and energy consumption should not be affected.

PUBLIC USE

If abandonment and salvage of the rail line does take place, the right-of-way may be suitable for other public use. A request containing the requisite four-part showing for imposition of a public use condition (49 CFR 1152.28) must be filed with the Board and served on the railroad within the time specified in the Federal Register notice.

TRAILS USE

A request for a notice of interim trail use (NITU) is due to the Board, with a copy to the railroad, within 10 days of publication of the notice of exemption in the Federal Register. However, the Board will accept late-filed requests as long as it retains jurisdiction to do so. This request must comply with the Board's rules for use of rights-of-way as trails (49 CFR 1152.29).

PUBLIC ASSISTANCE

The Board's Office of Public Services (OPS) responds to questions regarding interim trail use, public use, and other reuse alternatives. You may contact OPS directly at (202) 565-1592, or mail inquiries to Surface Transportation Board, Office of Public Services, Suite 800, Washington, DC 20423.

ENVIRONMENTAL COMMENTS

If you wish to file comments regarding this environmental

assessment, send an **original and two copies** to Vernon A. Williams, Office of the Secretary, Room 2215, Washington, DC 20423, to the attention of Victoria Rutson, who prepared this environmental assessment. **Please refer to Docket No. AB-55 (Sub-No. 550X) in all correspondence addressed to the Board.** If you

have questions regarding this environmental assessment, you should contact Ms. Rutson at (202) 565-1545.

Date made available to the public: June 27, 1997.

Comment due date: July 14, 1997.

By the Board, Elaine K. Kaiser, Chief, Section of Environmental Analysis.
