ENVIRONMENTAL ASSESSMENT

**DOCKET NO. AB-103 (Sub. No. 13X) - The Kansas City Southern
Railway Company -
Notice of Exemption for Abandonment
Near Springhill, Webster Parish, Louisiana**

BACKGROUND

In the above entitled proceeding, The Kansas City Southern Railway Company (KCS) has filed a notice of exemption under 49 CFR 1152.50 seeking exemption from the requirements of 49 U.S.C. 10903 in connection with the abandonment of its line of railroad between Milepost 46.78 at the Arkansas-Louisiana State Line and Milepost 48.48 approximately 200 feet south of Vine Street in Springhill, a distance of 1.70 miles in Webster Parish, LA. A map depicting the rail line in relationship to the area served is appended to the report. If the notice becomes effective, the railroad will be able to salvage track, ties and other railroad appurtenances and to dispose of the right-of-way.

DESCRIPTION OF THE LINE

The right-of-way passes through the town of Springhill and through a small adjacent rural area. Springhill may be interested in acquiring the right-of-way for recreational trails use.

ENVIRONMENTAL REVIEW

KCS submitted an environmental report that concludes the quality of the human environment will not be affected significantly as a result of the abandonment or any post-abandonment activities, including salvage and disposition of the right-of-way. KCS served the environmental and historical reports on a number of appropriate Federal, state, and local agencies as required by the Surface Transportation Board's environmental rules [49 CFR 1105.7(b)]. We have reviewed and investigated the record in this proceeding.

The National Geodetic Survey has informed us that 6 geodetic station markers may be affected by the proposed abandonment. NGS requests that it receive not less than 90 days' notification in

advance of any salvage activities that may affect the markers in order to plan for their relocation. NGS also sent a copy of the list and location of the markers to KCS. We will recommend NGS's request as a condition to any abandonment authority.

CONDITIONS

We recommend the following environmental condition be placed on any decision granting abandonment authority:

The National Geodetic Survey (NGS) has identified 6 geodetic station markers that may be affected by the proposed abandonment. Therefore, KCS shall notify NGS at least 90 days prior to any salvage activities that may disturb or destroy these markers to that plans can be made for their relocation.

CONCLUSIONS

Based on the information provided from all sources to date, we conclude that, as currently proposed, abandonment of the line will not significantly affect the quality of the human environment. Therefore, the environmental impact statement process is unnecessary.

Alternatives to the proposed abandonment would include denial (and, therefore, no change in operations), discontinuance of service without abandonment and continued operation by another operator. In any of these cases, the existing quality of the human environment and energy consumption should not be affected.

PUBLIC USE

If abandonment and salvage of the rail line does take place, the right-of-way may be suitable for other public use. A request containing the requisite four-part showing for imposition of a public use condition (49 CFR 1152.28) must be filed with the Surface Transportation Board and served on the railroad within the time specified in the Federal Register notice.

TRAILS USE

A request for a notice of interim trail use (NITU) is due to the Surface Transportation Board, with a copy to the railroad, within 10 days of publication of the notice of exemption in the Federal Register. However, the Board will accept late-filed requests as long as it retains jurisdiction to do so. This

request must comply with the Board's rules for use of rights-of-way as trails (49 CFR 1152.29).

PUBLIC ASSISTANCE

The Board's Office of Public Services (OPS) responds to questions regarding interim trail use, public use, and other reuse alternatives. You may contact OPS directly at (202) 565-1592 or mail inquiries to the Surface Transportation Board, Office of Public Services, Washington, DC 20423.

ENVIRONMENTAL COMMENTS

If you wish to file comments regarding this environmental assessment, send an **original and two copies** to Vernon A. Williams, Office of the Secretary, Washington, DC 20423, to the attention of Dana White, who prepared this environmental assessment. **Please refer to Docket No. AB-103 (Sub No. 13X) in all correspondence addressed to the Board. Questions regarding this environmental assessment should be referred to Dana White at (202) 565-1552.**

Date made available to the public: May 22, 1998.

Comment due date: **June 5, 1998 (15 days).**

By the Surface Transportation Board, Elaine K. Kaiser, Chief, Section of Environmental Analysis.

Vernon A. Williams
Secretary
