WASHINGTON, DC 20423**

ENVIRONMENTAL ASSESSMENT

NO. AB-33 (SUB-NO. 118X)

**Union Pacific Railroad Company
Abandonment Exemption
In Colorado Springs, El Paso County, Colorado**

BACKGROUND

In this proceeding, the Union Pacific Railroad Company (UP) has filed a petition under 49 U.S.C. 10502 seeking exemption from the requirements of 49 U.S.C. 10903 in connection with the abandonment of its railroad line known as the Templeton Gap Spur extending from the end of the line at milepost 602.70 (near North Academy Boulevard) to milepost 605.77 (near Templeton Gap Road), a distance of 3.07 miles in Colorado Springs, El Paso County, Colorado. A map depicting the rail line in relationship to the area served is appended to the report. If the exemption becomes effective, the railroad will be able to salvage track, ties and other railroad appurtenances, and to dispose of the right-of-way.

DESCRIPTION OF THE LINE

In its application, UP states that the City of Colorado Springs agrees with the proposed abandonment and that the only shipper on the line, Pacific Coast Builders Supply, will not oppose the abandonment.

ENVIRONMENTAL REVIEW

The railroad has submitted an environmental report that concludes the quality of the human environment will not be affected significantly as a result of the abandonment or any post-abandonment activities, including salvage and disposition of the right-of-way. The railroad has served the environmental report on a number of appropriate Federal, state, and local agencies as required by the Board's environmental rules at 49 CFR 1105.7(b). We have investigated and reviewed the record in this proceeding.

The National Geodetic Survey has informed us that 2 geodetic

station markers may be affected by the proposed abandonment. NGS requests that it receive not less than 90 days' notification in advance of any salvage activities that may affect the markers in order to plan for their relocation. NGS also sent a copy of the list and location of the markers to UP. We will recommend NGS's request as a condition to any abandonment authority.

CONDITIONS

We recommend the following environmental condition be placed on any decision granting abandonment authority:

The National Geodetic Survey (NGS) has identified 2 geodetic station markers that may be affected by the proposed abandonment. Therefore, UP shall notify NGS at least 90 days prior to any salvage activities that may disturb or destroy these markers so that plans can be made for their relocation.

CONCLUSIONS

Based on the information provided from all sources to date, and subject to the recommended conditions, we conclude that, as currently proposed, abandonment of the line will not significantly affect the quality of the human environment. Therefore, the environmental impact statement process is unnecessary.

Alternatives to the proposed abandonment would include denial (and therefore no change in operations), discontinuance of service without abandonment, and continued operation by another operator. In any of these cases, the existing quality of the human environment and energy consumption should not be affected.

PUBLIC USE

Following abandonment and salvage of the rail line, the right-of-way may be suitable for other public use. A request containing the requisite four-part showing for imposition of a public use condition (49 CFR 1152.28) must be filed with the Board and served on the railroad within the time specified in the Federal Register notice.

TRAILS USE

A request for a notice of interim trail use (NITU) is due to the Board, with a copy to the railroad, within 10 days of publication of the notice of the petition for exemption in the Federal Register. Nevertheless, the Board will accept late-filed requests as long as it retains jurisdiction to do so in a

particular case. This request must comply with the Board's rules for use of rights-of-way as trails (49 CFR 1152.29).

PUBLIC ASSISTANCE

The Board's Office of Public Services responds to questions regarding interim trail use, public use, and other reuse alternatives. You may contact the Office of Public Services directly at (202) 565-1592, or mail inquiries to Surface Transportation Board, Office of Public Services, Washington, DC 20423.

COMMENTS

If you wish to file comments regarding this environmental assessment, you should send an **original and two copies** to Vernon A. Williams, Office of the Secretary, Washington, DC 20423, to the attention of Dana White, who prepared this environmental assessment. **Please refer to Docket No. AB- 33 (Sub No. 118X) in all correspondence addressed to the Board.** If you have questions regarding this environmental assessment, you should contact Dana White at (202) 565-1552.

Date made available to the public: April 17, 1998.

Comment due date: May 15, 1998. (30 Days)

By the Board, Elaine K. Kaiser, Chief, Section of Environmental Analysis.

Vernon A. Williams
Secretary
