SURFACE TRANSPORTATION BOARD  
WASHINGTON, DC 20423

**ENVIRONMENTAL ASSESSMENT**

DOCKET NO. AB-55 (Sub. No. 574X) - CSX Transportation, Inc.  
Abandonment in Harlan County, Kentucky

**BACKGROUND**

In the above entitled proceeding, CSX Transportation, Inc. (CSXT) has filed a notice of exemption under 49 CFR 1152.50 seeking exemption from the requirements of 49 U.S.C. 10903 in connection with the abandonment of its line of railroad between Milepost OYC-250.40 at Evarts and Milepost OYC-251.45 at Woods, a distance of approximately 1.05 miles in Harlan County, Kentucky. A map depicting the rail line in relationship to the area served is appended to the report. If the notice becomes effective, the railroad will be able to salvage track, ties and other railroad appurtenances and to dispose of the right-of-way.

**DESCRIPTION OF THE LINE**

The right-of-way is situated in a rural coal mining area and was used to ship coal. CSXT states in its application that there has been no originating or terminating traffic on the line since October 1996, and CSXT does not anticipate any future traffic.

**ENVIRONMENTAL REVIEW**

CSXT submitted an environmental report that concludes the quality of the human environment will not be affected significantly as a result of the abandonment or any post-abandonment activities, including salvage and disposition of the right-of-way. CSXT served the environmental and historical reports on a number of appropriate Federal, state, and local agencies as required by the Surface Transportation Board's environmental rules [49 CFR 1105.7(b)]. We have reviewed and investigated the record in this proceeding.

According to the application, there is one structure on the line, Bridge No. 1, that was built in 1915. However, based on CSXT's description of Bridge No. 1 in the application, a deck plate girder bridge that crosses the Clover Fork of the Cumberland River, we conclude that it has no historical significance.

## **CONDITIONS**

We recommend that no environmental conditions be placed on any decision granting abandonment authority.

## **CONCLUSIONS**

Based on the information provided from all sources to date, we conclude that, as currently proposed, abandonment of the line will not significantly affect the quality of the human environment. Therefore, the environmental impact statement process is unnecessary.

Alternatives to the proposed abandonment would include denial (and, therefore, no change in operations), discontinuance of service without abandonment and continued operation by another operator. In any of these cases, the existing quality of the human environment and energy consumption should not be affected.

## **PUBLIC USE**

If abandonment and salvage of the rail line does take place, the right-of-way may be suitable for other public use. A request containing the requisite four-part showing for imposition of a public use condition (49 CFR 1152.28) must be filed with the Surface Transportation Board and served on the railroad within the time specified in the Federal Register notice.

## **TRAILS USE**

A request for a notice of interim trail use (NITU) is due to the Surface Transportation Board, with a copy to the railroad, within 10 days of publication of the notice of exemption in the Federal Register. However, the Board will accept late-filed requests as long as it retains jurisdiction to do so. This request must comply with the Board's rules for use of rights-of-way as trails (49 CFR 1152.29).

## **PUBLIC ASSISTANCE**

The Board's Office of Public Services (OPS) responds to questions regarding interim trail use, public use, and other reuse alternatives. You may contact OPS directly at (202) 565-1592 or mail inquiries to the Surface Transportation Board, Office of Public Services, Washington, DC 20423.

**ENVIRONMENTAL COMMENTS**

If you wish to file comments regarding this environmental assessment, send an **original and two copies** to Vernon A. Williams, Office of the Secretary, Washington, DC 20423, to the attention of Dana White, who prepared this environmental assessment. **Please refer to Docket No. AB-55 (Sub No. 574X) in all correspondence addressed to the Board. Questions regarding this environmental assessment should be referred to Dana White at (202) 565-1552.**

Date made available to the public: May 28, 1999.

Comment due date: **June 11, 1999 (15 days).**

By the Surface Transportation Board, Elaine K. Kaiser,  
Chief, Section of Environmental Analysis.

Vernon A. Williams  
Secretary
