NOTICE TO THE PARTIES

AB-564

Camas Prairie RailNet, Incorporated - Abandonment and Discontinuance of Operations - Idaho,
Lewis, and New Perce Counties, ID

Correction to the Environmental Assessment

The Section of Environmental Analysis (SEA) served the environmental assessment (EA) in this abandonment proceeding on September 13, 2000. The State of Idaho, Public Utilities Commission informed SEA that the Idaho Department of Environmental Quality designation on page 14, Condition 6 (a) is incorrect. Condition 6 (a) should have referenced the Idaho Department of Fish and Game.

Environmental Condition 6 (a) has been corrected to read as follows:

Consult with the Idaho Department of Fish and Game (ID-DFG) and the Nez Perce Tribe regarding development of a Track Salvage and Stream Restoration Work Plan (Work Plan); submit the Work Plan to ID-DFG and the Nez Perce Tribe for their review; design the Work Plan to protect stream habitats during any salvage activities to restore in-stream habitats; including the use of best management practices; and address in the Work Plan disposal of cross ties and timbers which may have been treated with creosote or Pentachlorophenol, both of which are considered toxic.

By the Board, Elaine K. Kaiser, Chief, Section of Environmental Analysis.

Vernon A. Williams
Secretary
