DECISION

STB Docket No. AB-441 (Sub-No. 2X)

SWKR OPERATING CO.--ABANDONMENT EXEMPTION--  
IN COCHISE COUNTY, AZ

EXEMPTION PURSUANT TO 49 U.S.C. 10502  
FROM THE PROVISIONS OF 49 U.S.C. 10904(e) and 49 CFR 1152.27(g)

Decided: April 28, 1997

By notice served and published in the *Federal Register* on February 14, 1997 (62 FR 7086), the Board exempted the abandonment by SWKR Operating Co. (SWKR) of its 41.5-mile line of railroad in Cochise County, AZ. Before the exemption became effective, Chemical Lime Company (CLC) timely filed an offer of financial assistance (OFA) under 49 U.S.C. 10904 and 49 CFR 1152.27(c) to subsidize the line.

By decision served April 4, 1997, CLC was found financially responsible and the effective date of the decision authorizing the abandonment was postponed to permit the OFA process to proceed. Also, as set out in that decision, the parties were given until April 30, 1997, to reach an agreement on the amount and other terms of the subsidy or purchase, or to file a request for the Board to establish the conditions and the amount of compensation. The decision also indicated that, if no agreement was reached and no request to set terms and conditions was made by that date, a decision would be issued vacating the prior decision and allowing the abandonment authorization to become effective.

By joint petition filed April 23, 1997, SWKR and CLC seek an exemption pursuant to 49 U.S.C. 10502 from the provisions of 49 U.S.C. 10904(e) and 49 CFR 1152.27(g). Petitioners indicate that the parties' representatives have met and have had fruitful, but inconclusive, discussions concerning the continued operation of the line, and are optimistic that they may be able to arrive at a negotiated settlement. The parties would like to be able to continue their negotiations, in the hope that they may be able to reach an agreement for the line's continued operation. SWKR and CLC request a 90-day extension, until July 30, 1997, to attempt to arrive at a mutually satisfactory settlement.

DISCUSSION

In order to extend the 30-day statutory deadline here, the parties seek an exemption under 49 U.S.C. 10502. Under that section, we must exempt a transaction or service from a provision of law when we find that: (1) regulation is not necessary to carry out the rail transportation policy of 49 U.S.C. 10101; and (2) either (a) the transaction or service is of limited scope, or (b) regulation is not needed to protect shippers from the abuse of market power.

Granting the sought exemption will enable the parties to continue to negotiate the terms of financial assistance here in an attempt to avoid abandonment of this line. As such, exemption here would further the rail transportation policy by minimizing the need for Federal regulatory control over the rail transportation system, promoting a safe and efficient rail transportation system, and fostering sound economic conditions in transportation. 49 U.S.C. 10101(2),(3), and (5). Other aspects of the rail transportation policy would not be adversely affected.

Regulation is clearly not needed to protect shippers from the abuse of market power in this instance. The request for the exemption has been jointly filed by the serving railroad and the only active shipper on the line. Indeed, permitting additional time for negotiations while operations continue would be beneficial for the shipper here and for shippers generally. Because there is no need to protect shippers from the abuse of market power, there is no need to make a limited scope finding.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

*It is ordered:*

1. Under 49 U.S.C. 10502, we exempt this proceeding from the requirements of 49 U.S.C. 10904(e) and 49 CFR 1152.27(g) and extend the deadline to July 30, 1997, for the parties to reach an agreement or for a party to request the Board to establish the conditions and amount of compensation.

2. This decision is effective on its date of service.

By the Board, Chairman Morgan and Vice Chairman Owen.
