Appendix R Hazardous Waste Sites	R-1
R.1 Introduction.....	R-1
R.2 Databases Search by EDR	R-1
R.3 Databases with Identified Records.....	R-4
R.4 Orphan Sites	R-7

Tables

Table R-1. Databases Searched by EDR	R-1
Table R-2. Databases with Identified Records.....	R-4
Table R-3. Orphan Sites	R-7

R.1 Introduction

OEA conducted a search of available environmental records as directed by Environmental Data Resources (EDR). EDR uses proprietary techniques to search federal, state, local, and other databases to obtain information on facilities that use, store, transport, or generate regulated substances.

This appendix includes the following summaries.¹

- Databases searched by Environmental Data Resources (EDR) (Table R-1).
- Databases searched by EDR (identified in Table R-1) with identified hazardous waste records (Table R-2).
- Known orphan sites² (Table R-3).

R.2 Databases Search by EDR

Table R-1. Databases Searched by EDR

Database Source	Database Name
Federal	NPL - National Priority List
Federal	Proposed NPL - Proposed National Priority List Sites
Federal	Delisted NPL - National Priority List Deletions
Federal	NPL LIENS - Federal Superfund Liens
Federal	CERCLIS - Comprehensive Environmental Response, Compensation, and Liability Information System
Federal	CERC-NFRAP - CERCLIS No Further Remedial Action Planned
Federal	LIENS 2 - CERCLA Lien Information
Federal	CORRACTS - Corrective Action Report
Federal	RCRA-TSDF - RCRA - Treatment, Storage and Disposal
Federal	RCRA-LQG - RCRA Large Quantity Generators
Federal	RCRA-SQG - RCRA Small Quantity Generators
Federal	RCRA-CESQG – RCRA Conditionally Exempt Small Quantity Generators
Federal	RCRA NonGen / NLR – RCRA Non Generators
Federal	US ENG CONTROLS - Engineering Controls Sites List

¹ This appendix provides supporting information for Chapter 12, Section 12.5, *Hazardous Waste Sites*, of this *Draft Environmental Impact Statement for the Tongue River Railroad*. This information should not be interpreted as stand-alone information and must be read in combination with the associated section.

² “Orphan” sites are sites that are listed in one or more databases and have incomplete address/location information. Accordingly, EDR was unable to map the location of the business or entity listed in the database.

Database Source	Database Name
Federal	US INST CONTROL - Sites with Institutional Controls
Federal	ERNS – Emergency Response Notification System
Federal	HMIRS - Hazardous Materials Information Reporting System
Federal	DOT OPS - Incident and Accident Data
Federal	US CDL - Clandestine Drug Labs
Federal	US BROWNFIELDS – Properties from the Cleanups in My Community program
Federal	DOD - Department of Defense Sites
Federal	FUDS - Formerly Used Defense Sites
Federal	LUCIS - Land Use Control Information System
Federal	CONSENT - Superfund (CERCLA) Consent Decrees
Federal	ROD - Records Of Decision
Federal	UMTRA - Uranium Mill Tailings Sites
Federal	DEBRIS REGION 9 - Torres Martinez Reservation Illegal Dump Site Locations
Federal	ODI - Open Dump Inventory
Federal	US MINES - Mines Master Index File
Federal	TRIS - Toxic Chemical Release Inventory System
Federal	TSCA - Toxic Substances Control Act
Federal	FTTS - FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act) / TSCA (Toxic Substances Control Act)
Federal	HIST FTTS - FIFRA/TSCA Tracking System Administrative Case Listing
Federal	SSTS – Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act
Federal	ICIS - Integrated Compliance Information System
Federal	PADS - PCB Activity Database System
Federal	MLTS – Material Licensing Tracking System
Federal	RADINFO - Radiation Information Database
Federal	FINDS – Facility Index System
Federal	RAATS - RCRA Administrative Action Tracking System
Federal	RMP - Risk Management Plans
Federal	EPA WATCH LIST - EPA WATCH LIST
Federal	PCB TRANSFORMER - PCB Transformer Registration Database
Federal	US HIST CDL - National Clandestine Laboratory Register
Federal	FEDERAL FACILITY - Federal Facility Site Information listing
Federal	COAL ASH EPA - Coal Combustion Residues Surface Impoundments List
Federal	SCRD DRYCLEANERS - State Coalition for Remediation of Drycleaners Listing
Federal	FEMA UST - Underground Storage Tank Listing
Federal	US FIN ASSUR - Financial Assurance Information
Federal	PRP - Potentially Responsible Parties
Federal	US AIRS – Sub-system of Aerometric Information Retrieval System
Federal	COAL ASH DOE - Steam-Electric Plant Operation Data
Federal	LEAD SMELTERS - Lead Smelter Sites
Federal	2020 COR ACTION - 2020 Corrective Action Program List
State & Local	MT WQA – Montana Water Quality Act
State & Local	MT SHWS - CECRA (Non-NPL) Priority Sites List
State & Local	MT DEL SHWS - Delisted List of CECRA Sites
State & Local	MT SWF/LF - Solid Waste Management Facilities List
State & Local	MT SWRCY – Recycling Center Locations

Database Source	Database Name
State & Local	MT LUST – Leaking Underground Storage Tank System
State & Local	MT UST – Underground Storage Tank Database
State & Local	MT SPILLS – Reported Spills or Hazardous Material Spills or Releases
State & Local	MT INST CONTROL - Response Action List
State & Local	MT VCP - Voluntary Cleanup & Redevelopment Act Registry
State & Local	MT DRYCLEANERS – Drycleaner Facility Locations
State & Local	MT BROWNFIELDS – EPA Defined Brownfield Sites
State & Local	MT CDL – Clandestine Drug Lab Locations
State & Local	CA HAZNET – Hazardous Waste Manifest Received Each Year by the DTSC
State & Local	MT AIRS – Emissions Inventory
State & Local	MT REM RPROGRAM – Remediation Response Site Database
State & Local	MT HIST CDL – Clandestine Drug Lab Locations
State & Local	MT MINES – Montana Bureau of Mines & Geology Abandoned and Inactive Mines Database
State & Local	MT COAL ASH - Coal Ash Disposal Site Listing
State & Local	MT RGA LUST - EDR Recovered Government Archive Leaking Underground Storage Tank database
Tribal	INDIAN RESERV - Indian administered lands of the United States that have any area equal to or greater than 640 acres
Tribal	INDIAN ODI - Report on the Status of Open Dumps on Indian Lands
Tribal	INDIAN LUST - Leaking Underground Storage Tanks on Indian Land
Tribal	INDIAN UST - Underground Storage Tanks on Indian Land
Tribal	INDIAN VCP - Voluntary Cleanup Priority Listing
EDR Proprietary	EDR MGP - EDR Proprietary Manufactured Gas Plants
EDR Proprietary	EDR US Hist Auto Stat - selected national collections of business directories and collected listings of potential gas station/filling station/service station sites that were available to EDR researchers
EDR Proprietary	EDR US Hist Cleaners - selected national collections of business directories and collected listings of potential dry cleaner sites that were available to EDR researchers

R.3 Databases with Identified Records

Table R-2. Databases with Identified Records

Database Source	Database Name and Significance	# of Records
Federal	<u>RCRA-CESQG</u> : This database includes selective information on sites, which generate, transport, store, treat, and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.	5
Federal	<u>RCRA NonGen/NLR</u> : This database includes selective information on sites, which generate, transport, store, treat, and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.	15
Federal	<u>ERNS</u> : The Emergency Response Notification System records and stores information on reported releases of oil and hazardous substances. The source of this database is the U.S. Environmental Protection Agency (USEPA).	2
Federal	<u>US Brownfields</u> : The USEPA's listing of Brownfields properties from the Cleanups in My Community program, which provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.	1
Federal	<u>SSTS</u> : Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (92 Stat. 829) requires all registered pesticide-producing establishments to submit a report to the Environmental Protection Agency by March 1st each year. Each establishment must report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed in the past year.	5
Federal	<u>MLTS</u> : The Material Licensing Tracking System is maintained by the Nuclear Regulatory Commission and contains a list of approximately 8,100 sites, which possess or use radioactive materials and are subject to NRC licensing requirements.	2
Federal	<u>FINDS</u> : The Facility Index System contains both facility information and "pointers" to other sources of information that contain more detail. These include: RCRIS; Permit Compliance System (PCS); Aerometric Information Retrieval System (AIRS); FATES (FIFRA [Federal Insecticide Fungicide Rodenticide Act] and TSCA Enforcement System, FTTS [FIFRA/TSCA Tracking System]; CERCLIS; DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes); Federal Underground Injection Control (FURS); Federal Reporting Data System (FRDS); Surface Impoundments (SIA); TSCA Chemicals in Commerce Information System (CICS); PADS; RCRA-J (medical waste transporters/disposers); TRIS; and TSCA. The source of this database is the U.S. EPA/NTIS.	113
Federal	<u>US AIRS</u> : The database is a subsystem of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the USEPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.	1

Database Source	Database Name and Significance	# of Records
State & Local	<u>MT WQA</u> : Sites regulated under the Montana Water Quality Act (WQA) are addressed by the Groundwater Remediation Program. These sites typically require long-term soil, surface water, and/or groundwater remediation and monitoring. This program addresses sites that are not addressed by the Leaking Underground Storage Tank Program, CECRA Program, Permitting and Compliance Division, or other state authorities.	1
State & Local	<u>MT SWRCY</u> : A listing of recycling center locations.	2
State & Local	<u>MT LUST</u> : The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the Department of Environmental Quality's Leaking Underground Storage Tank List for Montana.	27
State & Local	<u>MT UST</u> : The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the Department of Environmental Quality's Statewide UST List.	53
State & Local	<u>MT SPILLS</u> : Reported spills or hazardous material spills or releases.	14
State & Local	<u>MT Drycleaners</u> : A listing of drycleaner facility locations.	1
State & Local	<u>MT Brownfields</u> : The Environmental Protection Agency (EPA) defines brownfields as real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant.	1
State & Local	<u>MT CDL</u> : Clandestine drug lab locations.	3
State & Local	<u>CA HAZNET</u> : The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000-1,000,000 annually, representing approximately 350,000-500,000 shipments. Data from non-California manifests & continuation sheets are not included at the present time. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, & disposal method. The source is the Department of Toxic Substance Control is the agency.	1
State & Local	<u>MT AIRS</u> : Emissions inventory information.	1
State & Local	<u>MT REMR Program</u> : A listing of sites included in the Remediation Response Site Database.	2
State & Local	<u>MT Hist CDL</u> : A listing of clandestine drug lab locations. This listing includes fields and records that the CDL listing does not. It is no longer updated by the state.	4
State & Local	<u>MT Mines</u> : Mine locations and attributes from the Montana Bureau of Mines and Geology (MBMG) Abandoned and Inactive Mines database. This data was compiled by MBMG using the U.S. Bureau of Mines MILS database as a basis. The information was updated during the USDA Forest Service (Region 1) and U.S. Bureau of Land Management mine inventory (conducted from 1992 to 2002). The coordinates and legal descriptions come from sources of varying accuracy. The attributes included here are a subset of those available from the MBMG database.	23
State & Local	<u>MT RGA LUST</u> : The EDR Recovered Government Archive Leaking Underground Storage Tank database provides a list of LUST incidents derived from historical databases and includes many records that no longer appear in current government lists.	35
Tribal	<u>Indian Reservation</u> : This map layer portrays Indian administered lands of the United States that have any area equal to or greater than 640 acres.	1

Database Source	Database Name and Significance	# of Records
EDR Proprietary	<u>EDR US Hist Auto Stat</u> : EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.	19
EDR Proprietary	<u>EDR US Hist Cleaners</u> : EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.	6

Notes: Many sites are listed in more than one database.

R.4 Orphan Sites
