[STB Finance Docket No. 33711]

Salt Lake City Southern Railroad Company, Inc.--Operation Exemption--Union Pacific
Railroad Company

Salt Lake City Southern Railroad Company, Inc. (SLS), a Class III rail carrier, has filed a verified notice of exemption under 49 CFR 1150.41 to operate under an operating easement over a .26-mile rail line, owned by Union Pacific Railroad Company (UP), between milepost 798.74 and milepost 799.0 in Salt Lake City, UT.¹

The transaction was scheduled to be consummated on or shortly after January 31, 1999.

If this notice contains false or misleading information, the exemption is void ab initio. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke does not automatically stay the transaction.

¹ SLS certifies that its annual revenues will not exceed those that would qualify it as a Class III rail carrier and that its revenues are not projected to exceed \$5 million.

SLS currently has the right to operate over certain trackage in Salt Lake City which now is owned by the Utah Transit Authority (UTA). SLS will operate over the additional trackage which is the subject of this notice as part of the Gateway Redevelopment Project in Salt Lake City. UP plans ultimately to convey this .26-mile segment of trackage to UTA. This trackage is an extension of the Provo Subdivision which is now owned by UTA and which was formerly owned by UP.
