Re: APE Concur

Dear Ms. Clark:

We have reviewed the materials forwarded to our office for the above referenced project. Thank you for your description of the area of potential effect (APE) for the project. Although the cover letter incorrectly identified the affected stations of Kennydale and Wilburton as Woodinville and Redmond, we concur with the definition of the APE as described in Section 1 of the environmental report. We look forward to the review of your cultural resources survey efforts by the Surface Transportation Board concerning the findings of eligibility and effect. We would appreciate receiving any correspondence or comments from concerned tribes or other parties that you receive as you consult under the requirements of 36CFR800.4(a)(4).

These comments are based on the information available at the time of this review and on behalf of the State Historic Preservation Officer in conformance with Section 106 of the National Historic Preservation Act and its implementing regulations 36CFR800. Should additional information become available, our assessment may be revised. Thank you for the opportunity to review and comment. If you have any questions, please feel free to contact me.

Sincerely,

Russell Holter
Project Compliance Reviewer
