Re: STB Finance Docket No. 35087

I hereby vehemently oppose the planned acquisition of EJE Railway by CN for the purpose of diverting trains around Chicago through Barrington and its surrounding area. Increased railway activity of this measure would tragically impact these towns and their residents. Increased train activity would seriously prevent emergency vehicles from reaching injured or ill people desperately needing assistance.

What liability will be provided by CN + STB should a train blocking the path of emergency vehicles contribute to the death of a human? If this issue is ignored and it occurs it could be deemed willful negligence or disregard for human life. Who will be held responsible and go to jail?

What scoping meeting did you attend? (Please circle): Mundelein, Barrington, Joliet, Matteson, Gary, West Chicago, Chicago.
