Kathleen Crissie:

I am concerned about how this increase rail traffic will affect traffic in the area. I cross tracks to get to and from work everyday including husband and daughter. Increase delays concern. I live not that far from the rail, concerned by increase noise, vibrations and air quality, what is going to be hauled on these lines. Once there are there and going who controls the products that are being hauled. In our neighborhood, safety concerns and hit hard by death and rail road crossings. Concerned devaluated home even more. Very much opposed. It saddens me. We moved to our neighborhood because it was close to a school. And to have that now effect our neighborhood it saddens me.
