If this goes through I feel that it will kill the town of B. The downtown area. People are already going to alternative areas to shop due to the current problems we have with all the freight and passenger trains we have now.

In this day and age, I feel it is unconscionable that a for-profit entity should be able to have such a devastating effect on the lives of an entire community.

If this is unavoidable, at the very least, the rr should be forced to put in capital improvements to the city so as not to disrupt the quality of life – underpasses, overpasses, etc.
