

January 9, 2008

Dear STB,

Allowing CN Rail to run 20+ freight trains on a daily basis through Barrington would devastate our town. This rail line affects every main road in our village. Traffic would be at a standstill for a huge portion of the day. Emergency vehicles could be trapped within the rail lines and lives could very possibly be lost. Traffic already backs up through our town during rush hours causing pollution and noise to neighbors. Loud train whistles in the wee hours of the morning already wake our children. Allowing at least 15 more freighters each day would ruin our small, simple community. Please do not allow this increase in freight congestion.

Thank you,

Julie, David, Grace & Olivia Camel
