Draft Implementation CL to SHPO STB ACHP 030112c .pdf

Hello,

The Alaska Railroad recently completed the Port MacKenzie Rail Extension (PMRE) Iditarod Dog Sledding Historic District (IDSHD) Workshop series. In accordance with the PMRE Project Programmatic Agreement (PA; Stipulation V) and Mitigation Measures 92 and 93 of the final decision issued by the Surface Transportation Board in November 2011 (Docket No. FD 35095), we are pleased to provide a copy of the Draft Iditarod Dog Sledding Historic District Workshop Summary and Implementation Plan to initiate the required 30 day review and comment period. We will also send a hard copy of the draft report.

Separate e-mails will be sent to the individuals and organizations that participated in the IDSHD workshops and the remaining Concurring Parties to the PA to notify them of the availability of the draft plan on the project website. Materials will be posted on the Project website (<http://www.portmacrail.com/library.html>) by tomorrow.

If you have questions or comments on the draft plan, please contact Brian Lindamood at (907) 265-3095, or by email at lindamood@akrr.com. You may also contact Barbara Hotchkin at (907) 265-2313 or hotchkinb@akrr.com. Please provide your comments by April 2, 2012.

Thank you,
Barb
