Lynn Fergus:

Environmental issues are very important and key as far as hazardous materials, cars sitting. One thing is the downtown businesses. Work at a business by the hospital, people avoid our city because of the traffic now and will want avoid it more be detrimental for the businesses downtown. Route 59 can't go east or west because of the tracks. Concerned about property values. A new road would be beneficial. Freight trains increasing will not be any benefit to our community and will not attract new home buyers. It will interrupt high school traffic.
