Declined to provide names:

Two train buffs- residents of Mundelein/Lake Zurich-retired from supply and transportation industries

They are concerned about the presence of double track -> single track-> double track near Diamond Lake Rd. (in the Rte.60 + W. Diamond Lake area)

They have experienced extensive traffic delays on both Route 60 and Diamond Lake Road and worry about the predicted increase.

They also predicted intense and negative reaction from the residents of Barrington.
