240 S Valley Road
B, IL 60010

I'd like to know if CN has considered lowering the tracks below grade and along with that if they have joined with the NW railroad to lower their tracks below grade. And I'd like to know if the Village government has the right to restrict rail traffic so that if any additional traffic is contemplated it must be below grade; also if the Village government has the right to require that the CN lower their tracks below grade.

B has an enormous traffic problem and one of the key steps is eliminating rail traffic – and that means putting them below ground.
