As a member of a quiet community I am very disturbed by the amount of noise pollution the CN train will present to Barrington area. As well, the safety of our community is a serious problem as this train line goes behind many backyards & beautiful public parks, which our children will no longer have easy access to due to 2 crossings near the entrances of the parks.

The traffic will be at a standstill - recently I was stopped at 59 for 11 minutes during a train crossing @ E&E, the traffic was backed up for over a mile in each direction. With the increase of 15-27 trains no traffic will be able to get through or into the Village of Barrington, which could decimate our community as we know it.

→ The Old EJ & E rattles our home as it passes - The 9 will truly disturb our life and our community as a whole

This acquisition must STOP!
