I am a resident of Rock County.  
I learned from my parents, farmers in  
the area, and a college professor of Wisconsin  
geography, about the unique quality of the  
soil in this area of the United States.  
I challenge you to study this soil and  
research its importance to our economy  
before you allow a rail road to destroy any  
of it. Residents have worked for generations to  
protect it by their agriculture practices and  
spring. Please consider this before making a  
decision.

NOTE: When an individual chooses to submit an Environmental Comment or some Other Submissions, his or her personal contact information is considered public information and is shared within and outside of STB without additional authorization.
