332 Beverly Rd.
Barrington, IL 60010

What could we do to get this ridiculous thing either eliminated or buried? If the CN has got that much money they could afford to dig a ditch and put the railroads in. Above ground – elevated – or below the surface of the ground. And that's all they did in NYC.

What I'm saying is that I'm totally against surface transportation. You cannot inconvenience regular road traffic which it would do.

How do we find out what the impact to the environment is.

Drive main street from 4:30 to 6pm or 6:30-9A. Just try that with a freight train coming through.

Its mean – it's really mean.
