I'm ~~very~~ concerned about the impact on the environment as our environment is over stressed now. This also will <sup>be matter</sup> disrupt countless lives by uprooting because of need for land for the railroad and the decrease of farmland in the area. Also this will affect the rock creek which is suffering from the drought of 15 yrs ago. There is no wildlife in the creek and with the sewage plant and irrigation draining this creek. This would be the total end of the creek.

NOTE: When an individual chooses to submit an Environmental Comment or some Other Submissions, his or her personal contact information is considered public information and is shared within and outside of STB without additional authorization.
