Dear Sirs: My family and I are strongly opposed to the GLB Rail line. The proposed path will cut through our family's farm in Gardner, IL. It has been in the Maher family for 150 years. The railroad is unnecessary there are plenty of unused rails around Chicago area. We think eminent domain is unjust and unAmerican. It's some of the best farm land in the entire world. We need to have the wisdom to preserve this land for future generations. It is so important to stop this railroad from covering up more land. Please help us stop this travesty. Thank you -

NOTE: When an individual chooses to submit an Environmental Comment or some Other Submissions, his or her personal contact information is considered public information and is shared within and outside of STB without additional authorization.
