On the macro level I favor better, more efficient use of our nation's rail network. I would like to favor CN's proposal. However, I can not support anything that would worsen auto congestion in and around Barrington. With so many at grade crossings, any additional trains on the EJ&E would cause havoc with our already severe auto traffic congestion. If the EJ&E could be sunk below grade as it goes through Barrington, I might support CN's proposal. Otherwise my wife and I are very strongly opposed.

What scoping meeting did you attend? (Please circle): Mundelein, Barrington, Joliet, Matteson, Gary, West Chicago, Chicago.
