I live in the village of Barrington. Currently the traffic is congested with the several trains per day. - Additional trains will increase congestion. I have children in school - Increase congestion will slow down bus transportation which will affect school learning times - extra activities, etc. - Also increase congestion will also affect emergency vehicles trying to save lives!!!

The increase in trains will make Barrington a very undesirable place to live which will then affect our property value. - The trains will affect parks, village + shopping - Added stress! Increase trains in Barrington are not desired! Increase of trains will affect overall quality of life - the normal 10hr. 71 work day will turn into 12 to 14!!

What scoping meeting did you attend? (Please circle): Mundelein, Barrington, Joliet, Matteson, Gary, West Chicago, Chicago.
