I am very concerned about the anticipated amount of freight train traffic that will be going through key intersections in my community (Barrington).

I have a toddler and another on the way and I worry about how we would get to the hospital if an emergency occurred. ~~The~~ If a train were going by it could take us much longer to get to Wood Shepard which could potentially cost a life.

I am also concerned about the amount of time it would take for a fire truck to get to my house if there was a fire. What if a train breaks down? It would take forever for emergency services to reach me. I am very worried about this.

What scoping meeting did you attend? (Please circle): Mundelein, Barrington, Joliet, Matteson, Gary, West Chicago, Chicago.
