My family and I have great concern about this proposed acquisition, from many perspectives safety, congestion, and impact on the overall value of our community.

There are 7000 children who ride buses everyday to and from school, the impact on the safety of those children most certainly will be compromised.

This wonderful community that we call home will be forever changed to its detriment by allowing this to move forward.

It is my greatest concern that this will be approved and CNR will only have to promise to reduce what it has currently stated as its proposal only to see that increase as "people aren't looking."

That this situation has even been permitted to go this far is a travesty — you will ruin a wonderful community if you let this move forward.
