RE: STB Docket No. EP 431; Request for Information

Dear Dr. Huneke:

Pursuant to the Board's decision served in the above-referenced proceeding on April 25, 2013, this letter hereby requests access to the following materials:

- The uncosted 2011 Waybill Sample.
- The source code used to cost the 2011 Waybill Sample.
- The intermediate outputs that result from using the source code when costing the 2011 Waybill Sample.
- The costed 2011 Waybill Sample.
- A spreadsheet of a small record set that demonstrates how the make-whole adjustment is calculated.

In its April 25 decision, the Board stated that it would release these items to commenters upon request, subject to a protective order. I am seeking these items on behalf of the American Chemistry Council, The Chlorine Institute, and The Fertilizer Institute, for the purpose of preparing comments in the Ex Parte 431 proceeding. If I need to execute an undertaking related to the protective order that covers these items, please send a copy of the undertaking to me via fax or e-mail.
