SURFACE TRANSPORTATION BOARD

STB Ex Parte No. 725

PETITION OF NORFOLK SOUTHERN RAILWAY COMPANY AND CSX TRANSPORTATION, INC. TO INSTITUTE A RULEMAKING PROCEEDING TO EXEMPT RAILROADS FROM FILING AGRICULTURAL TRANSPORTATION CONTRACT SUMMARIES

Norfolk Southern Railway Company (“NS”) and CSX Transportation, Inc. (“CSXT”) hereby petition the Surface Transportation Board to initiate a rulemaking to exempt rail carriers from the statutory requirement to file “a summary of each contract for the transportation of agricultural products.” 49 U.S.C. § 10709(d)(1).

In Ex Parte 712, *Improving Regulation and Regulatory Review*, the Board undertook a retrospective review of its existing regulations in accordance with Executive Order 13563, “Improving Regulation and Regulatory Review,” and Executive Order 13579, “Regulation and Independent Regulatory Agencies.” The Board specifically noted that, “a retrospective review implies that there must be enough time for existing regulations to be tested and evaluated by empirical evidence.” *Improving Regulation and Regulatory Review*, Ex Parte 712, slip op. at 2 (STB served Dec. 21, 2011). Parties filed comments and suggestions for regulatory improvements in January 2012.

At that time, the AAR identified the requirement to file summaries of agricultural contracts as a potential target for exemption. “The provision requiring filing of Agricultural

Contract Summaries (49 C.F.R. § 1313.2) is burdensome and unnecessary. The Board should grant an exemption from the underlying statutory provision (49 U.S.C. § 10709(d)), so that carriers and the Board staff no longer need to commit resources to this activity.” *Improving Regulation and Regulatory Review*, Ex Parte 712, Comments of the Association of American Railroads at 14 (Jan. 10, 2012).

NS agreed. “NS agrees with the AAR's suggestion that the Board should exempt railroads from the requirement of 49 U.S.C. § 10709(d) to file summaries of all agricultural contracts with the Board. The burden associated with these filings far outweighs any potential benefit.” *Improving Regulation and Regulatory Review*, Ex Parte 712, Comments of Norfolk Southern Railway Co. at 8 (Jan. 10, 2012).

No action has been taken in the intervening months, and therefore NS and CSXT hereby submit this petition for a rulemaking.

I. The Board Has Statutory Authority to Exempt Railroads From The Requirement to File Summaries of Agricultural Contracts.

Under 49 U.S.C. § 10502(a), the Board “to the maximum extent consistent with this part, shall exempt a person, class of persons, or a transaction or service whenever the Board finds that application in whole or in part of a provision of this part – (1) is not necessary to carry out the transportation policy of section 10101 of this title; and (2) either – (a) the transaction or service is of limited scope; or (b) the application in whole or in part of the provision is not needed to protect shippers from the abuse of market power.” 49 U.S.C. § 10502(a).

As this petition shows, the filing of the contract summaries for the transportation of agricultural products that is required under 49 U.S.C. § 10709(d)(1) is not necessary to carry out the transportation policy nor is it needed to protect shippers from the abuse of market power.

Accordingly, the Board should grant this petition for exemption consistent with its statutory mandate to grant exemptions to the “maximum extent.”

II. The Contract Summaries Are Rarely If Ever Used and Therefore Not Necessary to Carry Out the Transportation Policy.

The contract summaries submitted to the Board pursuant to 49 U.S.C. § 10709(d)(1) are rarely if ever reviewed or used. As the Board is aware, NS filed a request for information pursuant to the Freedom of Information Act (“FOIA”) requesting information on when and who has accessed the contract summaries in the last three years.¹ In response, the Board confirmed that the STB website is the primary source of the contracts that are accessed by the public.² In fact, the STB has no record of anyone attempting to access these contract summaries in any other fashion.³

Indeed, the contract summaries are available on the Board’s website.⁴ In response to the FOIA request, the Board confirmed that it keeps limited information about access to these contract summaries: “Of the information that you seek, the Board only tracks the number of

² Response of STB to Freedom of Information Act Request filed by Norfolk Southern, (email dated April 21, 2014) attached as Exhibit B. NS sought to confirm that the website was the only source because of the language at 49 C.F.R. § 1001.1(a)(1).

³ *Id.* (“Of course, the webpages of the contract summaries are not the only way to obtain these summaries. A person may also request from the agency, electronically or in hard copy form, a copy of a summary. If such a request were received, staff would create a record that would be retained for the appropriate time period. Such a record would likely have information you seek. However, we have searched our records, and we do not have any records of a request for agricultural contract summaries through any of these alternate request methods.”).

According to the counters at the bottom of each of those webpages, it is clear that they are not accessed or used very much. For example, NS and CSXT have visited each of those pages to prepare this petition. The following table shows the number of times that the NS and CSXT contract summary pages have been accessed as of April 24, 2014.

* The STB counters on these summary pages apparently reset every day, rendering it impossible to gauge how many times they have been viewed.

In Exhibit C, NS and CSXT provide page printouts for each quarter for each railroad that shows the number of times each of those summaries have also been accessed. Keep in mind that each of those counts is inflated because NS and CSXT had to access those webpages themselves for purposes of preparing this petition and because the same party may have accessed the page multiple times for the same purpose.

Moreover, to NS's and CSXT's knowledge, these contract summaries have never been relied on by the Board in any matter. And NS and CSXT have not been able to locate an instance in which these summaries have been used by a party to a Board proceeding. Given the few times that these contract summaries have ever been accessed by anyone and the lack of reliance on them by the Board or any party in any regulatory matter, they are clearly not necessary to carry out the transportation policy nor are they needed or used to protect shippers from an abuse of market power. Moreover, the burden of preparing these contract summaries overwhelms the extremely limited times they have been accessed at all -- much less for a regulatory purpose.

III. Preparing and Filing the Summaries Is Burdensome.

In Ex Parte 712, NS provided a description of the burdens associated with the contract summaries requirement.

In accordance with the Board's specifications, found in 49 C.F.R. § 1313, NS provides the STB with contract summaries, in searchable PDF format, in the form of Exhibits A and B. Completing and filing the required STB forms is a time-consuming, manual process. Whenever a contract or signatureless contract is amended, the STB form for that document must also be amended.

In 2010, NS made approximately 348 of these filings. Similarly, in 2011, NS made approximately 362 of these filings. NS employees spend approximately six hours every week preparing and filing these forms with the STB. NS respectfully submits that the time and money spent on these agricultural contract summaries far outweigh the limited benefit, if any, of these documents and asks that the Board consider whether to exempt the railroads from this onerous process.

Ex Parte 712, Comments of Norfolk Southern Railway Co. at 8 (Jan. 10, 2012).

NS and CSXT further elaborate on these burdens in the verified statements of Lynn Ferris, Manager Contract Public at NS, attached as Exhibit D, and Eric C. Mack, Sr., Director of Commercial Administration at CSXT, attached as Exhibit E. In particular, Ms. Ferris notes that that NS spends approximately six (6) hours per week to prepare these filings for the STB. Mr.

Mack tallies that CSXT prepared over three thousand (3,000) contract summaries between 2010 and 2012. Both statements document the filing fees that each railroad has paid as part of the filing process. Both NS and CSXT have had to develop unique electronic processes to assist in fulfilling the filing obligation, and maintaining such processes requires ongoing information technology support. Overall, this expenditure of time and resources is substantial – especially compared to the lack of access and use of the contract summaries.

IV. No Harm Arises From Creating the Exemption.

It is difficult to see how any interest could be harmed from adoption of this proposed exemption – especially given that neither any party nor the Board has ever relied on a contract summary for a regulatory purpose. 49 U.S.C. § 10502(a). But even assuming someone could articulate any harm, there is no reason not to grant the exemption.

Even when an exemption takes effect, a party that can show harm in a specific situation is entitled to seek revocation of that exemption. Accordingly, a party with a legitimate interest that could show that the revocation of the exemption was necessary for a regulatory purpose, could always seek to revoke the exemption once approved. Section 10502(d) provides that "the Board may revoke an exemption, to the extent it specifies, when it finds that application of a provision of this subtitle to the person, class or transportation is necessary to carry out the transportation policy of section 10101 of this title." 49 U.S.C. § 10502(d). As with petitions to revoke other exemptions, "a party [seeking revocation] has a burden of showing that [the Board's] prior findings supporting the initial exemption were clearly wrong, or that changed circumstances require us to revisit them."⁷

⁷ *Rail General Exemption Authority – Miscellaneous Agricultural Commodities – Petition of G&T Terminal Packaging Co., Inc., to Revoke Conrail Exemption*, 8 I.C.C.2d 674, 677 (1992)

V. Regulatory Language to Effectuate the Exemption.

Implementation of the proposed exemption is relatively straightforward and requires only minor amendment to 49 C.F.R. § 1313.2. In particular, Section 1313.2 currently reads as follows:

§ 1313.2 Contract summary filing requirement.

(a) Rail carriers subject to the jurisdiction of the Surface Transportation Board under 49 U.S.C. 10501 must promptly file with the Board a summary of each contract entered into for the transportation of agricultural products.

(b) Contract summaries not in compliance with this part may be rejected by the Board. If a contract summary is rejected, it will be considered as not filed, and the carrier must promptly file a corrected contract summary to replace the rejected summary.

That Section would be amended to read as follows:

§ 1313.2 Contract summary filing requirement.

(a) Rail carriers subject to the jurisdiction of the Surface Transportation Board under 49 U.S.C. 10501 are exempt from the requirement to file a summary of each contract entered into for the transportation of agricultural products.

(b) Whenever the exemption in 1313.2(a) is revoked by the Board, the rail carrier to whom the revocation is applicable must promptly file with the Board a summary of each contract entered into for the transportation of agricultural products to the extent required by the Board's revocation.

(c) Contract summaries not in compliance with this part may be rejected by the Board. If a contract summary is rejected, it will be considered as not filed, and the carrier must promptly file a corrected contract summary to replace the rejected summary.

VI. CONCLUSION

The Board should institute a rulemaking pursuant to this petition to exempt rail carriers from the requirement to provide summaries of agricultural transportation contracts. The burdens of complying with this requirement are substantial. And the lack of use of these summaries for

(declining petition for revocation), *aff'd, Mr. Sprout, Inc. v. United States*, 8 F.3d 118 (2d Cir. 1993).

any regulatory purpose confirms that the requirement is not necessary to carry out the transportation policy nor are they needed to protect shippers from the abuse of market power.

Re: Freedom of Information Act Request

Dear FOIA Officer:

I hereby submit this request pursuant to the Freedom of Information Act, 5 U.S.C. § 552, for information regarding access to the summaries of contracts for transportation of agricultural commodities.

The Board maintains contract summaries submitted by railroads on its website. See <http://www.stb.dot.gov/econdata.nsf/d070d08538a6996d852574340045c88f?OpenView&Start=1&Count=300&Expand=1.1#1.1>. For each year from 2014 back through 2008 and for each railroad, contract summaries are available by quarter. Under each quarter is a .pdf file containing the contract summaries for the quarter for that specific railroad.

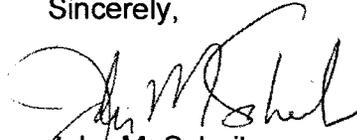

For each file for each railroad, NS requests the following information: (1) the number of times that webpage has been accessed; (2) each date on which that page of the webpage was accessed; and (3) any and all information (actual or metadata) sufficient to identify each party that accessed that webpage.

In addition, NS requests all information (whether electronic or otherwise) in the STB's possession that indicates: (1) the number of times that any contract summary for any railroad has been accessed by any means (whether electronically or in person); (2) the dates on which any contract summary for any railroad has been accessed by any means; and (3) any and all information (actual or metadata) sufficient to identify each party that accessed any contract summary for any railroad by any means.

If you have any questions about this request, please do not hesitate to contact me. To the extent fees are involved with this request, please feel free to contact me so that NS can arrange for payment.

Dear Mr. Scheib,

We received your Freedom of Information Act request on April 9, 2014, seeking webpage-access information concerning agricultural contract summaries. Of the information that you seek, the Board only tracks the number of times each agricultural contract summary has been accessed. This information is publicly available on the Board's website at the bottom of each summary's webpage.

You may access this information starting on the webpage located at:

[http://www.stb.dot.gov/econdata.nsf/d070d08538a6996d852574340045c88f?OpenView&Star

. This webpage lists all summaries by quarter since 2008. Once you choose the year and quarter and then railroad you seek, you will see the following message at the bottom of each webpage populated with the information you seek:

This page has been accessed [#] times since [Date] [Time].

The Board does not record any additional information about webpage access. Therefore, as related to your request, the Board does not record any information about when a webpage is accessed or who accessed it.

You may appeal this determination that some of the records you seek cannot be found to the Chairman of the Surface Transportation Board within 30 days of receipt of this letter. 5 U.S.C. §552(a)(6)(A)(i); 49 C.F.R. §1001.3.

There will be no charge to you, as our search costs did not exceed the minimum amount before we charge requesters.

Thank you for this response. Just to be clear, am I correctly interpreting this response to mean there is either no other way to access this information other than the webpage or that if another means is available the Board does not track access to those other materials, such as hard copies? If so, which of these two is correct.

If I am incorrect and there are other sources other than the website that persons can access at the Board, please confirm that the Board's response is equally applicable to those other sources such as hard copies. Thanks.

Subject: FOIA Request No. 14-026 (follow-up response)

Dear Mr. Scheib,

Thank you for your follow up questions. Let me attempt to clarify my previous response.

The Board has no other way to track electronic access to the agricultural-contract-summary webpages on the Board's website. The Board's IT system and website can only track how many times a particular webpage has been accessed since it was posted. It does this automatically. Our system currently is incapable of tracking when or who is accessing webpages posted on our website.

Of course, the webpages of the contract summaries are not the only way to obtain these summaries. A person may also request from the agency, electronically or in hard copy form, a copy of a summary. If such a request were received, staff would create a record that would be retained for the appropriate time period. Such a record would likely have information you seek. However, we have searched our records, and we do not have any records of a request for agricultural contract summaries through any of these alternate request methods. Therefore, as you suggest, my previous response is equally applicable to any other available method of requesting contract summaries.

Again, you may appeal our determination that some of the records you seek cannot be found to the Chairman of the Surface Transportation Board within 30 days of receipt of this letter. 5 U.S.C. §552(a)(6)(A)(i); 49 C.F.R. §1001.3.

Please let me know if I need to further clarify our response to your FOIA request.

Agricultural Contract Summaries

In accordance with 49 U.S.C. 10709(d) and 49 CFR Part 1313, rail carriers must file with the Board a summary of each contract entered into for the transportation of agricultural products. Beginning with the first (calendar) quarter of 2008, all contract summaries filed during a quarter are now available in searchable PDF format. The contract summaries are grouped by railroad.

Questions should be emailed to congressional.public.services@stb.dot.gov

Agricultural Contract Summaries

In accordance with 49 U.S.C. 10709(d) and 49 CFR Part 1313, rail carriers must file with the Board a summary of each contract entered into for the transportation of agricultural products. Beginning with the first (calendar) quarter of 2008, all contract summaries filed during a quarter are now available in searchable PDF format. The contract summaries are grouped by railroad.

Questions should be emailed to congressional.public.services@stb.dot.gov

Agricultural Contract Summaries

In accordance with 49 U.S.C. 10709(d) and 49 CFR Part 1313, rail carriers must file with the Board a summary of each contract entered into for the transportation of agricultural products. Beginning with the first (calendar) quarter of 2008, all contract summaries filed during a quarter are now available in searchable PDF format. The contract summaries are grouped by railroad.

Questions should be emailed to congressional.public.services@stb.dot.gov

Agricultural Contract Summaries

In accordance with 49 U.S.C. 10709(d) and 49 CFR Part 1313, rail carriers must file with the Board a summary of each contract entered into for the transportation of agricultural products. Beginning with the first (calendar) quarter of 2008, all contract summaries filed during a quarter are now available in searchable PDF format. The contract summaries are grouped by railroad.

Questions should be emailed to congressional.public.services@stb.dot.gov

Agricultural Contract Summaries

In accordance with 49 U.S.C. 10709(d) and 49 CFR Part 1313, rail carriers must file with the Board a summary of each contract entered into for the transportation of agricultural products. Beginning with the first (calendar) quarter of 2008, all contract summaries filed during a quarter are now available in searchable PDF format. The contract summaries are grouped by railroad.

Questions should be emailed to congressional.public.services@stb.dot.gov

EXHIBIT D

Verified Statement of Lynn Ferris

VERIFIED STATEMENT OF LYNN FERRIS

1. My name is Lynn Ferris, and I am Manager Contract Publications at Norfolk Southern Railway Company (“NS”) holding this position since 2001.
2. Contract Publications prepares and submits grain and agricultural products transportation contract summaries to the United States Surface Transportation Board.
3. To prepare contract summaries, NS starts with blank STB forms that were developed in accordance with specific requirements spelled out in 49 CFR Part 1313.
4. Completing the STB forms and executing this procedure is a time-consuming manual process, especially for our signatureless contracts, known as NSSCs.
5. NSSCs are managed and issued by Market Managers in the Agricultural Products Business Group as part of the ordinary course of dealing with NS’s customers. However, NS’s Contract Publishing Group prepares the STB filings for the “01” and “20” STCC commodities.
6. In order to complete the STB filings related to grain and agricultural products NSSCs, contract details are extracted from our rate authority database, known as the 9255 rate database. A retrieval program is run from the 9255 rate database to determine NSSC authorities issued that contain “01” and “20” STCCs during a certain timeframe. From that list, a Rate Authority is printed from the database and reviewed to determine if it is a new rate contract or an amendment to an existing signatureless contract. Newly issued NSSCs require that a new STB number be assigned to that contract. We use the existing STB contract number for an amendment to an existing

NSSC, but we still must manually compare that publication to previous publications to determine the changes and prepare the STB form accordingly.

7. For signature contracts and amendments to contracts, NS gathers information from both 9255 and the contract itself.

8. For both the NSSCs and signature contracts, NS maintains a separate Access database to assign a unique STB filing number to each contract.

9. NS provides the STB with contract summaries in searchable PDF format, which are made available on the STB's website.

10. STB forms for signature Contracts are prepared when the contract is drafted and held until NS signs the contract. At that time the form is added to the weekly STB filing.

11. When an NSSC or a contract is amended, the STB form for that NSSC or contract is likewise amended.

12. To give you an idea of how many of these filings NS makes:

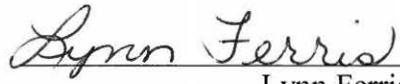

- In 2010, NS made approximately 349 filings and paid a filing fee of \$1,052.00.
- In 2011, NS made approximately 367 filings and paid a filing fee of \$1,339.50.
- In 2012, NS made approximately 338 filings and paid a filing fee of \$1,218.00.
- In 2013, NS made approximately 438 filings and paid a filing fee of \$1,126.00.

13. NS spends approximately six (6) hours per week preparing and submitting the STB grain and agricultural products transportation summaries. We spend about four (4) hours per week on the STB filings for NSSCs, and we spend about two (2) hours per week to prepare the STB filings for hard-copy contracts.

14. In conclusion, this is a burdensome task that takes time away from getting contracts into Customer's hands for signature.

I, Lynn Ferris, verify under penalty of perjury that I have read the foregoing document and know its contents, and that the same is true and correct to the best of my knowledge and belief.

Verified Statement of Eric C. Mack, Sr.

VERIFIED STATEMENT OF ERIC C. MACK, SR.

1. My name is Eric C. Mack, Sr., and I am Director of Commercial Administration at CSX Transportation, Inc. (“CSXT”).

2. Our group is responsible for the administration of all commercial documents related to customers. This includes, but is not limited to, contracts and public price publication administration. This also includes preparing and submitting grain transportation contract summaries to the United States Surface Transportation Board (the “STB”).

3. I have held my current position, and have had the responsibility of preparing and submitting the STB documents, for five (5) years. I have been with CSXT for six (6) years.

4. To prepare contract summaries, CSXT starts with STB forms that were developed in accordance with specific requirements in 49 CFR Part 1313. Completing the STB forms and executing this procedure is a time-consuming process.

5. Contracts are negotiated by Market Managers in the Agricultural Products Business Group as part of the ordinary course of doing business with CSXT’s customers. CSXT’s Commercial Administration System then prepares the STB contract summary filings for the agricultural STCCs two-digit “01” and “20” commodities, as appropriate.

6. In order to complete the STB filings related to grain transportation contracts, contract details are extracted from our Prism Database, in which reside all CSXT prices. A retrieval program is run from the rate database to determine prices issued that contain regulated agricultural commodity STCCs. From that list, a Contract Summary is created. The Contract Summary is manually reviewed to determine if it is a new rate contract or an amendment to an existing contract. Newly issued contracts require that a STB number is assigned to that contract.

We would use the existing STB contract number for an amendment to an existing contract, but we still must manually compare that publication to previous publications to determine the changes and prepare the STB contract summary form accordingly.

7. When a contract is amended, the STB contract summary form for that contract is likewise amended.

8. The STB forms for contracts are filed with the STB when the contract is signed and activated in Prism.

9. CSXT provides the STB with contract summaries by email in a searchable PDF format which are made available on the STB's website.

10. CSXT created and filed the following STB summary contracts from 2010 to 2012:

	<u>2010</u>	<u>2011</u>	<u>2012</u>
STB summary contracts:	894	1119	1125

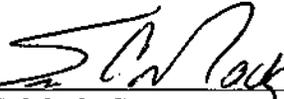

11. CSXT spent approximately \$11,640.33 in filing fees for the years 2010-2012. In addition, CSXT has spent considerable time and expense in developing data systems to make compliance with STB standards possible. CSXT also incurs substantial information technology maintenance costs and employees' time to administer and maintain the compliance system.

12. In conclusion, preparing and submitting grain transportation contract summaries according to STB standards is a burdensome task that does not appear to provide a benefit to our customers.

VERIFICATION

I, Eric C. Mack, Sr., declare under penalty of perjury that the foregoing is true and correct.
