VERIFIED NOTICE OF EXEMPTION

Pan Am Southern, LLC ("PAS") and Springfield Terminal Railway Company ("ST") (collectively the "applicants") files this Verified Notice of Exemption pursuant to the Board's regulations at 49 C.F.R. §1152.50. **ENVIRONMENTAL/HISTORICAL REPORT**

**Docket Nos. AB 1098X and AB 355 (Sub. No. 41X)**

**I. ENVIRONMENTAL REPORT**

The following information is provided in accordance with 49 C.F.R. § 1105.7 (e):

**(1) Proposed Action and Alternatives**

The Pan Am Southern, LLC and Springfield Terminal Railway Company (the “Applicants”) propose to abandon and discontinue service over an approximate .31 mile portion of the so-called “Heywood Branch” line of railroad (the “Line”) located in Gardner, Worcester County, Massachusetts. A map of the proposed abandonment and discontinuance has previously been provided to all parties receiving this report, and is attached as Exhibit A hereto.

Due to the inability to generate traffic over the Line, there is no reasonable alternative to abandonment and discontinuance.

**(2) Transportation System**

There will be no substantial effect on existing regional or local transportation systems or patterns.

There is no passenger or freight traffic on the Line. Any traffic previously moving over the Line was rerouted well more than two years ago.

(3) **Land Use**<sup>1</sup>

- (i) The Applicants believe that the proposed action is consistent with and in furtherance of local land use plans.
- (ii) The Applicants believe the proposed action will have no effect or adverse impact on any prime agricultural land.
- (iii) This action is outside the boundary of the Massachusetts coastal zone.
- (iv) Applicants are unsure whether the right-of-way is suitable for alternative public use under 49 U.S.C. 10906.

(4) **Energy**

- (i) The transportation of energy resources will not be effected by the proposed action.
- (ii) The proposed action will have no effect on the movement and/or recovery of recyclable commodities.
- (iii) The proposed action will increase overall energy efficiency in that it will allow Applicants to eliminate their potential responsibility for costly and energy-consuming maintenance operations for this unused portion of line.
- (iv) The proposed action will not cause a diversion from rail to motor carrier in excess of the threshold levels set forth at § 1105.7 (e)(4)(iv)(A) or (B).

(5) **Air**

The proposed action will not result in any of the increases set forth at § 1105.7 (e)(5).

---

<sup>1</sup> The Applicants attach to this Environmental/Historical Report as an Appendix, all correspondence received from federal, state, and local authorities and agencies in response to the Applicants' request for comments regarding the proposed abandonment/discontinuance of service.

(6) **Noise**

The proposed action will not result in or exceed any of the thresholds set forth at § 1105.7 (e) (6).

(7) **Safety**

(i) The proposed action will have no adverse effect on public health and safety.

(ii) No hazardous materials will be diverted to highway transportation.

(iii) No known hazardous waste sites or spills exist on the Line.

(8) **Biological Resources**

(i) Applicants know of no endangered or threatened species or critical habitats that will be affected by the proposed action. The Applicants previously requested comments from the New England Region, U.S. Fish and Wildlife Service in this regard. The Service has responded to Applicants with "... no federally-listed or proposed, threatened or endangered species or critical habitat under the jurisdiction of the U.S. Fish and Wildlife Service as being known in the project area".

(ii) Applicants believe no national or state parks or forests will be affected by the proposed action.

(9) **Water**

(i) The Applicants contemplate no action inconsistent with federal, state and/or local water quality standards.

(ii) The Applicants do not believe the proposed action will require any permits under § 404 of the Clean Water Act. Salvage operations are expected to be undertaken. There are no known swampy conditions located in the area of Mile Post 26.98 & Mile Post 27.29. There are no indications of environmental contamination. No designated

wetlands or 100-year flood plains will be affected by the proposed action.

(iii) It is not expected that permits under § 402 of the Clean Water Act will be required for the proposed action. However, rail salvage operations may be undertaken if feasible.

(10) **Proposed Mitigation**

Whereas no adverse environmental impacts are expected to result from the proposed action, no mitigation will be needed or is planned.

(11) **Additional Information for Rail Constructions**

The proposed action is not a rail construction proposal, therefore this section does not apply.

II. **HISTORIC REPORT**

The following information is provided in accordance with 49 C.F.R. § 1105.8 (d):

(1) **Maps**

A map of the line is attached hereto as Exhibit A.

(2) **Description of Right-of-Way**

The portion of Line at issue is approximately .31 miles in length. The width of the right-of-way varies from 30+/- feet to 82.50+/- feet in width. The attached topographic map indicates the Line's topography.

(3) **Photographs of Railroad Structures**

The Applicants know of no sites or structures on the Line that are 50 years or older or that are listed in the National Register of Historic Places. The Applicants have requested comments from the Massachusetts Historic Commission in regard to the anticipated effect of the proposed action on historical resources. The Historical Commission has responded by letter (attached) and has indicated that

their Inventory of Historic and Archaeological Assets of the Commonwealth identified no recorded historic properties in this project location. The MHC further recommended that the Applicant provide the project information to the City of Gardner Historical Commission (“GHC”) for comment. The GHC has not provided any response to Applicants request for comments at this time.

Additionally, the City of Gardner Department of Community Development & Planning has responded stating that the City knows of no adverse effect that the project would have and the City does not object thereto.

(4) **Construction Dates**

The Applicants know of no sites or structures on the Line that are 50 years or older or that are listed in the National Register of Historic Places.

(5) **History of Operations**

No local or overhead traffic has moved over the Line for well over two years. The proposed abandonment will not effect carrier operations in the area.

(6) **Summary of Useful Documents**

The Applicants know of no sites or structures on the Line that are 50 years or older or that are listed on the National Register of Historic Places.

(7) **Opinion as to Historical Significance**

The Applicants know of no sites or structures on the Line that are 50 years or older or that are listed in the National Register of Historic Places. The Applicants have requested comments from the Massachusetts Historic Commission in regard to the anticipated effect of the proposed action on historical resources. The Historical Commission has responded by letter (attached) and has indicated that their Inventory of Historic and Archaeological Assets of the Commonwealth

identified no recorded historic properties in this project location. The MHC further recommended that the Applicant provide the project information to the GHC for comment. The GHC has not provided any response to Applicants request for comments at this time. To obtain updated lists of federally listed or proposed threatened or endangered species and critical habitats, it is not necessary to contact this office. Instead, please visit the Endangered Species Consultation page on the New England Field Office's website:

[www.fws.gov/newengland/endangeredspec-consultation.htm](http://www.fws.gov/newengland/endangeredspec-consultation.htm)

On the website, there is also a link to procedures that may allow you to conclude if habitat for a listed species is present in the project area. If no such habitat exists, then no federally listed species are present in the project area and there is no need to contact us for further consultation. If the above conclusion cannot be reached, further consultation with this office is advised. Information describing the nature and location of the proposed activity that should be provided to us for further informal consultation can be found at the above-referenced site.
