UNION PACIFIC RAILROAD COMPANY
-- ABANDONMENT EXEMPTION --
IN UTAH COUNTY, UTAH
(A PORTION OF THE PROVO INDUSTRIAL LEAD)

NOTICE OF EXEMPTION

Union Pacific Railroad Company ("UP") submits this verified Notice of Exemption pursuant to 49 § C.F.R. 1152, Subpart F -- Exempt Abandonments and Discontinuances of Service and Trackage Rights, for an exempt abandonment of a portion of the Provo Industrial Lead from milepost 753.27 near Provo, Utah to milepost 756.10 near Gatex, Utah, a distance of 2.83 miles in Utah County, Utah, (the "Line").

Proposed Consummation Date: 49 C.F.R. § 1152.50 (d)(2)

The abandonment is proposed to be consummated on or after January 1, 2003 (at least 50 days after filing the Notice of Exemption).

Certification: 49 C.F.R. 1152.50(b)

UP certifies that no local traffic has moved over the Line for at least two years; and that no formal complaint filed by a user of rail service on the Line (or filed by a state or local governmental entity acting on behalf of such user) regarding cessation of service over the Line either is pending with this Board or any U.S. District Court or

has been decided in favor of the complainant within the two-year period. The Line has not been used as an overhead route for the past two (2) years.

Additional Information Required: 49 C.F.R. 1152.22(a)(1)-(4), (7)-(8) and (e)(4)

(a) General.

(a)(1) The railroads' exact name is Union Pacific Railroad Company.

(a)(2) UP is a common carrier by railroad subject to 49 U.S.C. Subtitle IV, Chapter 105.

(a)(3) UP intends to abandon the Line from milepost 753.27 near Provo, Utah to milepost 756.10 near Gatex, Utah, a distance of 2.83 miles. The Line is located in Utah County, Utah.

(a)(4) A map showing the location of the Line in conjunction with other rail lines, highways and major roads in the area is attached hereto as **Exhibit A** and hereby made a part hereof.

(a)(7) The representative to whom correspondence regarding this abandonment should be sent is:

Mack H. Shumate, Jr., Senior General Attorney
Union Pacific Railroad Company
101 North Wacker Drive, Room 1920
Chicago, Illinois 60606
(312) 777-2055
(312) 777-2065 FAX

(a)(8) ZIP Code. The Line traverses U.S. Postal Service Zip Code 84116.

(e)(4) Rural and Community Impact. The Line was constructed in 1873 by the Utah Southern Railroad, ("Utah Southern"). The Line is laid primarily with 133-pound welded rail. There appears to be no reasonable alternative to the abandonment.

The physical assets of the Line, including the real property interests and track structure thereon, have been sold to the Utah Transit Authority, ("UTA"), in connection with UTA's corridor preservation project. The STB by decision in F.D. No. 34170, dated February 14, 2002, accepted the UTA's verified notice of exemption under 49 C.F.R. 1150.30 to acquire the Line. By subsequent decision by the STB in F.D. No. 34170, dated May 17, 2002, the STB granted UTA's motion to dismiss the notice of exemption, it being found by the STB that the line sale transaction, as crafted, was not subject to the jurisdiction of the STB. The UP has retained an exclusive, perpetual easement on the Line to conduct freight rail operations. Upon consummation of the abandonment, this retained easement will expire in accordance with the terms of the Line Sale Contract between UP and UTA. No local traffic has moved over the Line in the past two years, and there is no overhead traffic on the Line.

There will be no effect on regional or local transportation systems and patterns and no diversion of traffic to other transportation systems or modes. The subject Line has not been used for freight traffic for at least two years. The Line was used for overhead traffic more than two (2) years ago, but such overhead traffic can be diverted to a parallel UP Line. Rail service will continue to be available at Provo and Gatex, Utah on either end of this abandonment. Interstate 15 runs in close proximity to the Line. The right-of-way is suitable for continued use as a public transportation corridor, including as a highway, trail, and all forms of mass transportation. The right-of-way is also suitable for energy transmission facilities. The surrounding area is highly developed with an extensive network of public streets and highways.

Based on information in the UP's possession, the Line proposed for abandonment does contain federally granted right-of-way. Portions of the right-of-way are subject to reversionary interests. Any documentation so related to the Line, including real estate documentation, in UP's possession regarding UP's real property interests in the Line will be made available upon request.

Labor Protection

The interests of railroad employees will be protected by the conditions discussed in Oregon Short Line Railroad Co. -- Abandonment -- Goshen , 360 ICC 91 (1979).

Certifications

Attached hereto as **Exhibit B** and hereby made a part hereof is a Certificate of Service and Publication pursuant to the notice requirements of 49 C.F.R. §§ 1152.50(d)(1), 1105.11 and 1105.12.

Environmental and Historic Report

A copy of the Transmittal Letter of UP's Combined Environmental and Historic report containing the information required by 49 C.F.R. §§ 1105.7 (e) and 1105.8, and delivered in accordance with 49 C.F.R. 1105.11, is attached hereto as **Exhibit C** and hereby made a part hereof. The original and ten (10) copies were sent to Ms. Victoria Rutson, Section of Environmental Analysis (SEA), on October 14, 2002. A subsequent letter from the Utah State Historical Society dated October 21, 2002 is attached hereto as **Exhibit D** and hereby made a part hereof.
