Hon Anne K Quinlan  
Acting Secretary  
Surface Transportation Board  
395 F Street SW  
Washington, DC 20024

November 6, 2008

Re BNSF Railway Company – Petition for Declaratory Order  
STB Finance Docket No 35164

Dear Secretary Quinlan

I am enclosing on behalf of the Oklahoma Department of Transportation (“ODOT”), (1) a form of letter sent to all cities and towns in Oklahoma, and (2) a list of the recipients of the letter. Parties opposed to the proposed I-40 highway project, including Edwin Kessler, On Trac, and Tom Elmore (of both the North American Transportation Institute and On Trac), in addition to seeking to delay and prevent BNSF Railway Company (“BNSF”) from relocating its tracks and service, have approached cities and towns outside of Oklahoma City to have them attempt politically to pressure ODOT to modify plans for the highway, although they are not directly affected by the highway project, nor by the proposed relocation. These parties seek to use the Board’s jurisdiction as their latest weapon in their attempts to push their own agenda on transit and highway issues. ODOT sent the attached letter to explain how the plans for the project were developed, and the potential adverse impacts of the changes in highway alignment being proposed.

The submission by the City of Norman is indicative of the opposition to the highway project and vague notions of its impact on passenger transit services, which drive the protests in this proceeding. There is no mention of any adverse effects on shippers or the effects of the proposed relocations on freight rail service. The Board should note that this opposition comes from approximately 20 miles outside of Oklahoma City, while both the Mayor of Oklahoma City and the Greater Oklahoma City Chamber have previously submitted letters in support of the highway project, and BNSF’s proposed relocation.

Although the plans for the highway project, and how transit can be accommodated within the scope of the current project, are outside the scope of the Board’s jurisdiction and of this proceeding, ODOT believes it is important for the Board

to fully understand the issues that are behind the opposition to BNSF's proposed relocation Shippers of freight by rail are not opposing the relocations<sup>1</sup>

As required by the Board's decision served October 2, 2008, copies of this letter are being served on BNSF's representative and on Edwin Kessler

Respectfully,

Eric M Hocky  
Attorney for Oklahoma  
Department of Transportation

Enclosures

cc Kristy D Clark, BNSF Railway (w/encls , by email)  
Edwin Kessler (w/encls , by US mail)

EMH/e

---

<sup>1</sup> Edwin Kessler has filed documents claiming that Boardman opposes the relocations However, Boardman has not participated directly Further, Boardman is located on, and according to BNSF Railway, would be served from, the "western segment" which is not the subject of this proceeding

## OKLAHOMA DEPARTMENT OF TRANSPORTATION

GENERAL COUNSEL

Re "OnTrac" Proposal Concerning the I-40 Crosstown Expressway in Oklahoma City

Dear Mayor Rosenthal

The Department is aware that a group called "OnTrac" has solicited many city governments across Oklahoma to make a presentation concerning future transit, the former Union Station railyard, and the on-going construction of I 40 through downtown Oklahoma City. It is our understanding that "OnTrac" desires each city to adopt a resolution to Governor Brad Henry to support stopping construction of the I-40 Crosstown Expressway and investigate shifting the alignment 300 to 400 feet to the south. Before passing any resolution, we would respectfully request that the Department be allowed an opportunity to present pertinent information concerning this important matter so that your City can have the best understanding of all of the implications surrounding both the current dilapidated Crosstown Expressway and the new highway under construction.

The Department truly recognizes the need for Oklahoma to plan for transportation in the future and certainly supports investigating transit opportunities through a collaborative planning effort. The development of the 25 year transportation plan for Oklahoma has just begun and most certainly the recent surges in fuel prices has brought a much greater commitment to perform a much stronger transit element in this 2035 Transportation Plan. In addition, the Department stands ready to assist the major metropolitan areas as they move forward with dialogue and plans for their regional transit systems.

It is imperative to understand that all possible future I-40 alternates from the current I-40 south to the Oklahoma River were evaluated during the Environmental Impact Statement (EIS) process from 1996 through 2002. These alternates included a complete open public participation evaluation of all possibilities that avoided critical properties and resources to include the Union Station, Little Flower Church, Latino Community Development Agency, and Neighborhood Services Organization buildings as well as Wheeler Park. Any shift of the alignment under construction 300 to 400 feet to the south would have adverse impacts and will probably destroy the Little Flower Church, Latino Community Development Agency, Neighborhood Services Organization and Wheeler Park. In summary, the Department has already conducted a thorough process that was supported through community consensus for the best future I-40 that was approved at the federal level.

The I-40 Crosstown Expressway is the largest transportation project in Oklahoma history and it contains tremendous engineering complexities and it is more than halfway complete with construction. Current construction will open the new I-40 in 2012. This highway carries nearly 120,000 vehicles every day. It is estimated that any shift in alignment would result in a 5 to 8 year delay in the project with an added cost of \$240 to \$340 million. It will be extremely difficult for the Department to guarantee the safe operation of this fracture critical bridge to the year 2020.

The Department is charged with ensuring the safety of Oklahoma's traveling public on our highway system, and that responsibility is taken very seriously. We truly appreciate working with you to develop the safest and most efficient transportation system for the citizens of Oklahoma and are willing to meet at any time to discuss this critical project. We look forward to hearing from you before a resolution is considered so that your decision can be an informed one. Should you have any questions or need further information please contact me at 405/522-1800.

Sincerely,

  
Gary M. Ridley  
Director

*"The mission of the Oklahoma Department of Transportation is to provide a safe, economical, and effective transportation network for the people, commerce and communities of Oklahoma."*
