

STB Story

FD35380

Dear Members of the Federal Surface Transportation Board,

Concerned Citizens for Nuclear Safety (CCNS) is a non-governmental 501(c)(3) organization based in Santa Fe, New Mexico. CCNS formed in 1988 to address community concerns about the transportation of nuclear waste from Los Alamos National Laboratory (LANL) to the then proposed Waste Isolation Pilot Plant (WIPP) through the center of the city. The mission of CCNS is to protect all living beings and the environment from the effects of radioactive and other hazardous materials now and in the future.

CCNS supports and is in full agreement with the formal comments submitted today by the Conejos County Clean Water, Inc. to the Surface Transportation Board.

Thank you for your full consideration of our comments.

Respectfully,

Joni Arends

I certify that I have emailed one copy of this comment to John D. Heffner, Esq. at j.heffner@verizon.net today the 12th day of October, 2010.
