**JOINT SUBMISSION OF OPERATING CHARACTERISTICS**

TOTAL PETROCHEMICALS USA, INC. (“TPI”) and CSX Transportation, Inc. (“CSXT”), pursuant to the procedural schedule adopted by the Board in a decision served on June 23, 2010, and amended by decision served November 19, 2010, hereby file their Joint Submission of Operating Characteristics. The parties have agreed upon seven of the nine operating characteristics for each issue movement. Although the parties have not been able to reach agreement upon “Railroad Miles” and “Tons per Car,” they will continue to attempt to resolve these differences for as many issue movements as possible prior to the submission of

evidence. The operating characteristics upon which the parties have agreed are presented in Exhibit A.

Exhibit A also contains statistics for the short line segments of various issue movements. Those statistics do not reflect any agreement between TPI, CSXT, or any short lines, and will need to be updated as the short lines become engaged in this proceeding.

Respectfully submitted,

---
