A) Upon expiration or any earlier termination of the Lease, all Equipment shall be returned to the location(s) designated by Lessor in the same condition as when first accepted by Lessee, less ordinary wear and tear resulting from the normal and proper use common to vehicles being utilized to transport waste thereof, and in compliance with the following: (i) free of any special advertising, lettering or other marking, washed (interior and exterior) and generally free of any liquid or product residue, silt, sludge or other debris, and otherwise in the condition in which it is required to be maintained hereunder; (ii) all wheels shall have a minimum thickness and contour that meets or exceeds AAR Interchange standards; (iii) all air brake components not meeting minimum requirements must be repaired or replaced as required under applicable AAR rules; (iv) brake shoes shall have a minimum of the usable wear remaining that meets or exceeds AAR standards; (v) Ordinary wear and tear, for the purpose of this agreement, is defined as follows: dents, bulges, bowing, minor interior and exterior surface rust, scratches, sheet steel patches, and typical wear on mechanical components that do not affect the structural integrity of the Railcar(s) or cause the Railcar(s) to be unsuitable for normal revenue service and interchange (as outlined by the Federal Railroad Administration (FRA), the Association of American Railroads (AAR), and the National Transportation Agency (NTA), or their successors with jurisdiction over the operations of Railcars in the geographic areas where the subject Railcars operate).

Sub-surface corrosion shall not be considered ordinary wear and tear, and every effort will be made to stop its progression before any damage or deterioration occurs. To the extent that damage or deterioration does occur, corrective repairs and replacements will be made in accordance with standard industry practice.

-Bowling that causes the car width to exceed the original design width of the car, as indicated in the Plate F diagram, by four inches (4") or more shall not be considered ordinary wear and tear; If bowing is found to have caused deviation of 4 inches or more from the original specifications, the Lessee will bring the car back into compliance with the original Plate F dimensions.

B) Lessee shall make no repair, alteration, modification, addition or attachment (collectively "Modification") with respect to any item of Equipment which (i) interferes with the normal and satisfactory operation or maintenance thereof; (ii) creates a safety hazard, (iii) violates any provision of this Annex or the Master Lease, (iv) results in the creation of a mechanic's or materialmen's lien with respect thereto, (v) impairs the originally intended function, use or value of such item as it existed immediately prior to the Modification or (vi) decreases the residual value, remaining useful life or utility of such item of Equipment;

C) Lessee must notify Lessor in writing not less than 180 days prior to expiration of the Base Term and of any extension or renewal thereof of Lessee's intent to return the Equipment or to exercise any purchase or renewal option set forth in the Schedule.

D) Return location(s) will be determined by Lessor on CSX lines within the Continental United States.

- 6) Lessee has not received any notice of, nor has Lessee caused or participated in, any sale, transfer, assignment, hypothecation or pledge of the Cars, the Designated Schedule or the rents reserved thereunder.
