1. Review of the General Purpose Costing System

Popular Title: Review of the General Purpose Costing System

RIN 2140-AB14

Stage: Proposed Rule

Previous Stage: NPRM served 02/04/2013; End of Comment Period 09/05/2013; SNPRM served 08/04/2016 (published in Fed. Reg. 08/10/2016); End of Comment Period 11/07/2016.

Abstract: The Board proposes certain changes to its general purpose costing system—the Uniform Railroad Costing System (URCS). Specifically, the Board proposes in a Supplemental Notice of Proposed Rulemaking to modify certain inputs into Phase II of URCS and to modify certain cost calculations in Phase III of URCS in order to eliminate the “make-whole adjustment” in Phase III. The Board proposes certain other related changes to URCS, including proposals for locomotive unit-miles and train miles allocations, that would result in more appropriate rail movement costs.

Rate relief was prescribed under the SAC constraint. In a subsequent decision, the Board (1) confirmed its finding that the rate challenged was shown to be unreasonably high under the SAC constraint; (2) confirmed its finding that the complaining shipper did not show that the defendant railroad is revenue adequate under the revenue adequacy constraint; and (3) modified the maximum reasonable rates prescribed in the underlying decision to account for changes made to resolve petitions for technical corrections and petitions for reconsideration.</p>
