NOTICE OF INTENT TO PARTICIPATE BY
ARIZONA ELECTRIC POWER COOPERATIVE, INC.

Pursuant to Interstate Commerce Commission Decision No. 9, served December 27, 1995, Arizona Electric Power Cooperative, Inc. ("AEPCO"), by and through its undersigned counsel, hereby gives notice of its intent to participate in the above-referenced proceeding as an active party, as its interests may appear. In accordance with 49 C.F.R. § 1180.4(a)(2), AEPCO has selected the acronym "AEPC" for identifying all documents and pleadings it submits in this proceeding.

AEPCO is a rural generation and transmission electric power cooperative located in Benson, Arizona, and is a major consumer of western coal transportation service. Applicant, the Southern Pacific Transportation Company ("SP"), currently provides destination rail transportation service under contract

to AEPCO's Apache Generating Station, which is located near Cochise, Arizona. SP is the only rail carrier that serves the Apache Station.

Dear Secretary Williams:

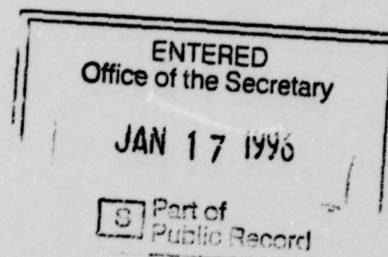

My name is Allan J. Vogel, Acting Director, Office of Railroads and Waterways for the Minnesota Department of Transportation (Mn/DOT). Mn/DOT is the state agency responsible for rail planning and programs in Minnesota. Part of Mn/DOT's responsibility is to comment on mergers, consolidations, acquisitions or other significant transactions involving railroads that do or may affect Minnesota. The transaction proposed in the above docket is a matter falling within the jurisdiction of Mn/DOT. Therefore, on this date, January 16, 1996, Mn/DOT is filing a notice of intent to independently participate in this case and be made a party of record.

Enclosed is the original and 20 copies of the Mn/DOT's intent to participate in finance Docket No. 32760.

Sincerely,

Allan J. Vogel

Re: Surface Transportation Board Finance Docket No. 32760, Union Pacific Corporation, et. al. -- Control and Merger -- Southern Pacific Rail Corporation, et. al.,

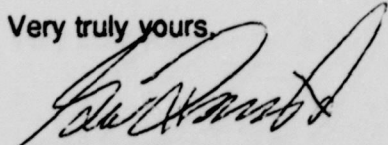

Dear Mr. Williams:

I am an economic consultant specializing in transportation. I am currently assisting the Western Shippers' Coalition (WSC) and individual clients in evaluating the potential economic impact and other aspects associated with the proposed UP/SP merger. As indicated in a letter to you dated January 11, 1996, WSC intends to fully participate in this proceeding and should be listed as a Party of Record (POR).

I am currently listed as a POR and have signed the Protective Order in this case. However, the Interstate Commerce Commission's (ICC) decision in this proceeding served October 19, 1995 established a deadline of today for "Notification of intent to participate in proceeding." Although I am currently listed as a POR, this letter serves as my formal notice of intent to participate on behalf of WSC and formal request to remain listed as a POR.

Please give me a call if you have any questions.

Very truly yours,

Gerald W. Fauth III

Finance Docket No. 32760

NOTICE OF INTENT TO PARTICIPATE
BY THE
CENTRAL POWER & LIGHT COMPANY

Pursuant to Interstate Commerce Commission Decision No. 9, served December 27, 1995 in the captioned proceeding, Central Power & Light Company ("CP&L"), by and through its undersigned counsel, hereby gives notice of its intent to participate as an active party in this proceeding as its interests may appear.

CP&L is a coal-burning electric utility with serious concerns about the anti-competitive effect of the proposed merger on CP&L's Coletto Creek generating station, near Victoria, Texas. CP&L's Coletto Creek station is served only by Applicant Southern Pacific Transportation Company.

In accordance with 49 C.F.R. § 1180.4(a)(2), CP&L selects the acronym "CPL" for identifying all documents and pleadings it submits in this proceeding.

Respectfully submitted,

NOTICE OF INTENT TO PARTICIPATE
BY
ENTERGY SERVICES, INC.
ARKANSAS POWER & LIGHT COMPANY
GULF STATES UTILITIES COMPANY

Pursuant to Interstate Commerce Commission Decision No. 9 served on December 27, 1995, Entergy Services, Inc. ("ESI"), appearing herein and acting as agent for Arkansas Power & Light Company ("AP&L") and Gulf States Utilities Company ("GSU"), by and through its undersigned counsel, hereby gives notice of its intent to participate in the above-referenced proceeding as an active party. In accordance with 49 C.F.R. §1180.4(a)(2), the acronym "ESI" will be used for identifying all documents and pleadings filed by ESI in this proceeding.

ESI, AP&L and GSU are subsidiaries of Entergy Corporation, an investor-owned public utility holding company registered pursuant to the Public Utility Holding Company Act of 1935 and

having its headquarters in New Orleans, LA. ESI, as agent for the public utility operating subsidiaries of Entergy Corporation,¹ is responsible for acquiring fuel and related transportation for coal-fired power plants operated by its electric utility affiliates, which include AP&L and GSU. The area served by AP&L consists of portions of the State of Arkansas; the area served by GSU includes portions of western Louisiana and eastern Texas.

AP&L operates the White Bluff and Independence Steam Electric Stations in Arkansas and GSU operates the Roy S. Nelson Generating Station in Louisiana. All three of these generating stations presently burn coal produced in the Wyoming Powder River Basin and transported by one of the Applicants or Applicants' current competitors. The total volume of coal consumed annually by these plants exceeds 15 million tons. ESI, AP&L, and GSU are concerned about the potential adverse effect of the Applicants' merger application on competition for the transportation of coal to the White Bluff, Independence and Nelson Stations.

ESI requests that the following person be placed on the service list in this proceeding in addition to its undersigned counsel and that copies of all pleadings and decisions be provided to such person:

¹ AP&L, GSU, Louisiana Power & Light Company, Mississippi Power & Light Company, and New Orleans Public Service Inc.

Washington DC 20423

Re: Finance Docket No. 32760, Union Pacific Corp., et al
Control and Merger -- Southern Pacific Rail Corp., et al

Dear Mr. Williams:

With this letter, the State of Oregon (Oregon), through its Department of Transportation (ODOT), provides Notice of Participation in Finance Docket No. 32760, the proposed merger of the Union Pacific and Southern Pacific railroads. ODOT has been designated by the Governor of Oregon to review the Application and file comments in the proceeding. ODOT will represent customers of the railroads, Oregon port districts, local governments and the public generally.

Oregon believes that the merger, in combination with the BNSF settlement agreement, offers many benefits to Oregon shippers. ODOT staff is in the process of reviewing the Application and receiving comments from affected Oregon parties. At this point, we have questions about the Operating Plan, some concerns about the over-all affect on competition, and reservations about the proposed abandonment of the Modoc Line. We will carefully review other railroad filings, and may choose to comment on any or all inconsistent applications. Oregon may request conditions and most certainly will file comments.

RUSSELL A. THOMPSON

COUNTY BOARD CHAIRMAN
January 11, 1996

The Honorable Vernon A. Williams
Secretary
Interstate Commerce Commission
12th Street and Constitution Avenue
Washington, D.C. 20423

Dear Secretary Williams:

I have reviewed the proposal by Conrail to purchase the eastern portion of the South Pacific Railroad. I received a memo from our Economic Development Director in this same regard, a copy of which is attached.

Kankakee County is developing rapidly and, as in the past, realizes that a strong and vibrant system of transportation is vital to our economic future. The rail freight community is an integral part of that system.

On behalf of the County Board, I ask that you allow the purchase to occur as proposed by Conrail as expeditiously as possible.

Carrying the local rail network a step farther, I would also suggest that consideration be given to the construction of an intermodal facility in the Kankakee area. Our locational context in relation to the Chicago market area offers Conrail a significant economic opportunity.

I await your reply.

Sincerely,

Russell Thompson
Chairman

TO: Russell Thompson
Kankakee County Board Chairman

FROM: Richard D. Durkin 
President

DATE: January 5, 1996

RE: Conrail Merger Proposal

The proposal by Conrail to purchase the eastern portion of the South Pacific Railroad appears to offer continued and perhaps improved service to the businesses in Kankakee County. It could help contribute or reduce transportation costs, which would help our competitive position in the market place.

I believe it would be appropriate, as part of our endorsement of the proposal, to request an improvement review in track maintenance and equipment and a commitment to bring the construction of an intermodal site to Kankakee County.

On behalf of the Kankakee County Economic Development Council, we would support the proposal as part of a future commitment of service to our county.

RE: UP/SP MERGER

Dear Secretary Williams:

AD

LL

PROCEEDINGS

I, as a Missouri State Representative and Majority Whip, am concerned about the competitive effects on Missouri businesses of the proposed acquisition of the Southern Pacific (SP) Railroad by the Union Pacific (UP) Railroad. While I am familiar with the proposed agreement between UP and the Burlington Northern-Santa Fe (BNSF) which is intended to remedy those effects, I am not persuaded that this arrangement will produce effective competition for Missouri rail traffic.

I have reviewed Conrail's proposal to acquire a significant portion of SP's eastern lines in connection with the merger, especially the lines running from Chicago and St. Louis to Arkansas, Texas and Louisiana. I find this proposal to be more appropriate and far more effective in addressing Missouri's concerns. The Conrail proposal calls for ownership of the lines, whereas the UP-BNSF agreement primarily involves the granting of trackage rights. I believe that trackage rights provide only limited benefits and limited guarantees which easily can be lost if railroads disagree over whose traffic has priority and who is in charge of operations on the line. Further, I believe an owning railroad is in a far better position than a renter to encourage economic development activities on its lines.

JAMES E. RANEY
MAYOR

CITY OF NACOGDOCHES

December 27, 1995

The Honorable Vernon A. Williams
Secretary Interstate Commerce Commission
12th Street and Constitution Avenue
Washington, DC 20423

Dear Secretary Williams:

This letter is written in regard to I.C.C. Finance Docket 32760 which is pending before the Interstate Commerce Commission. The application seeks approval for the acquisition of Southern Pacific Railroad by Union Pacific Railroad and as Mayor of the City of Nacogdoches, I am extremely concerned and opposed to the buyout by Union Pacific. I am particularly concerned that the proposed merger will be particularly disadvantageous to the agricultural industry in Nacogdoches and rail users in Texas.

I am also greatly concerned about the agreement between Union Pacific and Burlington Northern Santa Fe which grants trackage rights on the north-south routes in Texas to Burlington Northern. In effect, the lease of trackage rights to Burlington Northern eliminates competition for rail service and effectively provides Union Pacific a monopoly in East Texas. This is not beneficial to this community or Texas, as rates will surely increase and service most likely decrease without competition.

Please look carefully at the proposed merger, particularly in regard to the north/south corridors in Texas. Certainly other proposals, that might include purchase of these north-south corridors, would be more advantageous to the customers of Southern Pacific in Texas. We must maintain competitive rail service or industry and agriculture will be placed at a competitive disadvantage.

Please feel free to contact me or City Manager Gordon Pierce if you have questions or desire additional information or input.

Sincerely,

James E. Raney
Mayor

Reference: Finance Docket No. 32760, Union Pacific Corporation,
et al. --Control & Merger--Southern Pacific Rail
Corp., et al.

Dear Secretary Williams:

As the Co-Floor Leader of the Nevada Assembly, representing the Henderson area of Southern Nevada, please allow me to express my support for the proposed merger between the Union Pacific and the Southern Pacific Railroads.

A merger of the Union Pacific and Southern Pacific Railroads would be a benefit for all. Both railroads will contribute something to the merger that will ultimately provide better rail service to Nevada businesses.

As I am sure you are aware, the Southern Pacific's financial health is a concern of their clients and employees. The merger provides the real and perceived security necessary to compete in the current business environment. Without the merger we risk the loss of the Southern Pacific railroad.

Along with my colleagues, I believe that this merger will benefit the public, the employees of both railroads, and the consumers who use the railroads as well. I urge you to approve this merger.

Sincerely,

Richard D. Perkins
Democratic Floor Leader

Re: Finance Docket No. 32760, Union Pacific Corp., et al
Control & Merger--Southern Pacific Rail Corp., et al

Dear Mr. Williams:

Alderman-Cave Feeds operates grain elevators, feed mills, and a commercial cattle feedyard in Texas and New Mexico. We ship and receive substantial volumes of milo, wheat, and corn by rail. I have been the President and majority stockholder for Alderman-Cave Feeds for the past 14 years.

Alderman-Cave Feeds has a strong interest in competitive rail transportation between the United States and Mexico. The Laredo/Nuevo Laredo gateway is the primary route for shipments between the two countries for the majority of international traffic. This gateway possesses the strongest infrastructure of customs brokers. It also provides the shortest routing between major Mexican industrial and population centers and the Midwest and Eastern United States.

Our company depends on competition to keep prices down and to spur improvements in products and services. For many years Union Pacific and Southern Pacific have competed for our traffic via Laredo, resulting in substantial cost savings and a number of service innovations. TexMex has been Southern Pacific's partner in reaching Laredo in competition with Union Pacific, as Southern Pacific does not reach Laredo directly.

A merger of Union Pacific and Southern Pacific will seriously reduce, if not eliminate, our competitive alternatives via the Laredo gateway. Although these railroads have recently agreed to give certain trackage rights to the new Burlington Northern Santa Fe Railroad, we do not believe the BNSF, as the only other major rail system remaining in the Western United States, will be an effective competitive replacement for an independent Southern Pacific on this important route.

ADVISE OF ALL
PROCEEDINGS

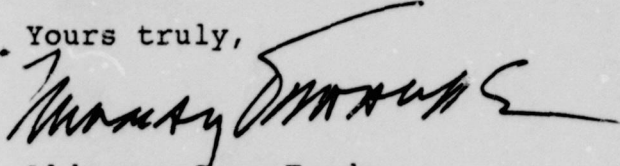

Item No. _____
Page Count 2
#105

I understand there is an alternative that will preserve effective competition for my traffic. TexMex has indicated a willingness to connect with other carriers via trackage rights to provide efficient competitive routes. Trackage rights operating in such a way as to allow TexMex to be truly competitive are essential to maintain the competition at Laredo that would otherwise be lost in the merger. Thus I urge the Commissioners to correct this loss of competition by conditioning this merger with a grant of trackage rights via efficient routes between Corpus Christi and these connecting railroads.

Economical access to international trade routes should not be jeopardized when the future prosperity of our country depends so strongly on international

Yours truly,

Alderman-Cave Feeds

From: John Parker - Traffic Manager
Guardian Industries
3801 South Hwy 287
Corsicana, Texas 75110

Dear Sir,

On behalf of Guardian Industries, I ask that you consider the following comments on the merger of the UP/SP and BN/SF mergers. Because of our location on the BN and our other plant locations throughout the U.S. and Canada, Guardian would benefit from additional competition. This additional competition would come from the ICG being able to enter the new NAFTA markets opening between Canada and Mexico. To enter the NAFTA market means the ICG must be able to purchase trackage from the Southern Pacific and St. Louis/Southwestern. This trackage is highlighted on the attached maps.

Guardian Industries has many plants throughout the U.S. and Canada. (An attached map shows our Canadian and U.S. plants.) As a corporation, we have actively expanded into Mexico for several years. As each year passes our market share into Mexico increases and Guardian wishes to keep all avenues of competition open. To do this, the ICG must be allowed to proceed with the purchase of the fore mentioned trackage so as to keep Guardian Industries and themselves competitive.

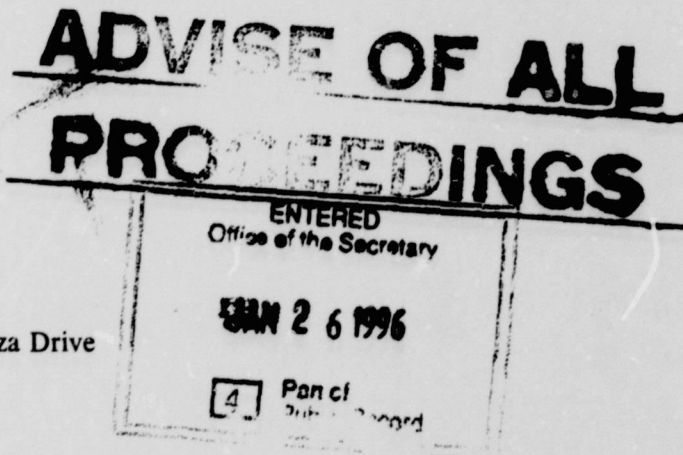

In closing, please realize that the merger of these four (4) mega railroads into two can not be allowed if positive concessions as already mentioned are not allowed to take place. Your help in this matter will be greatly appreciated.

Sincerely,

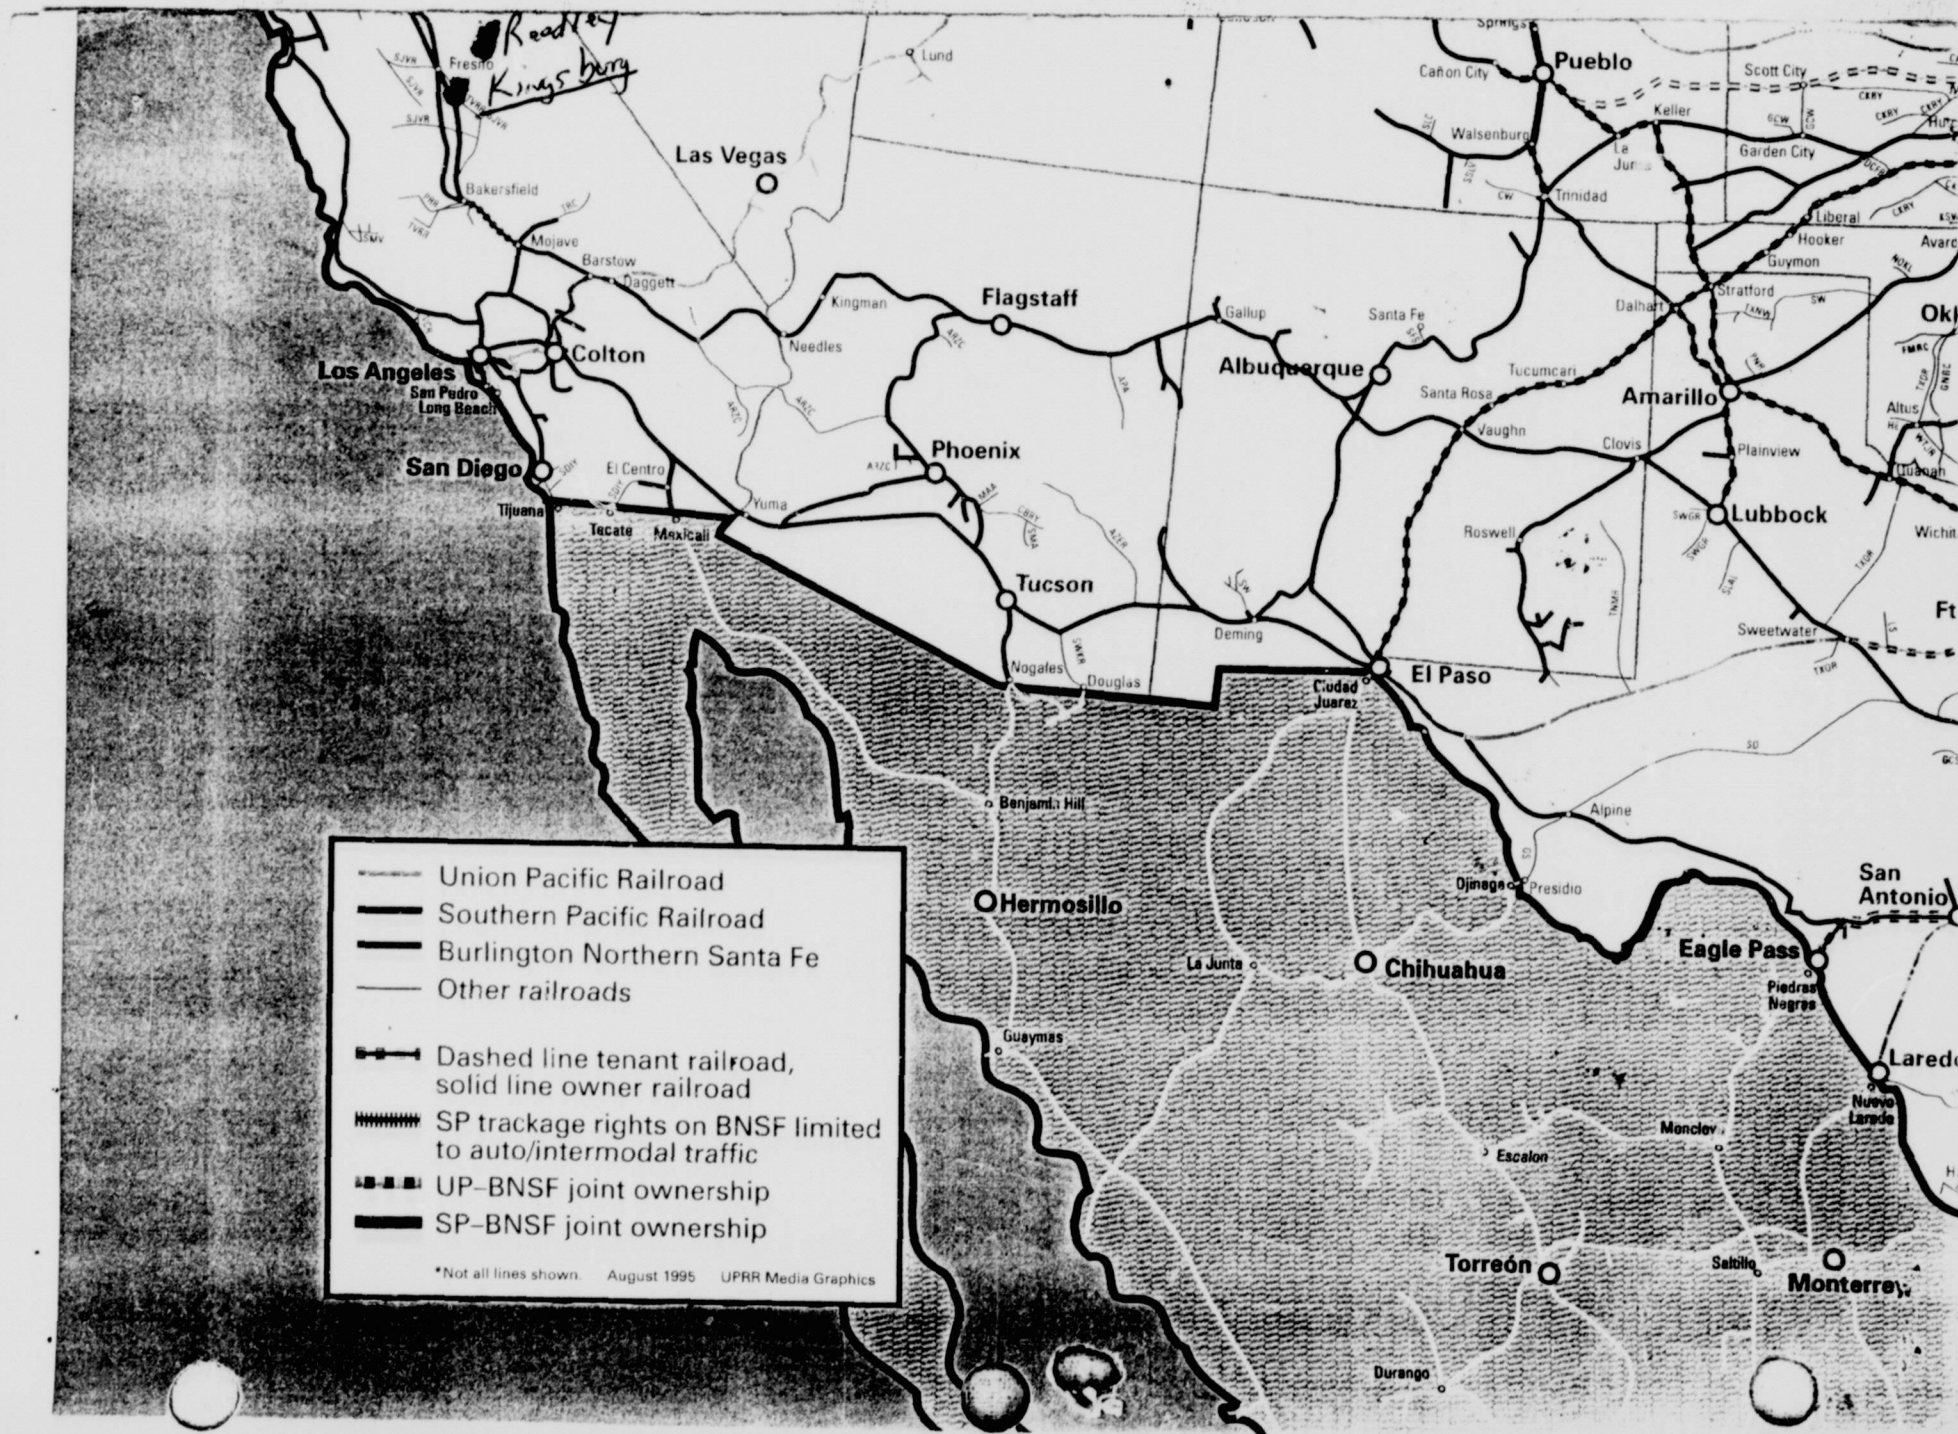

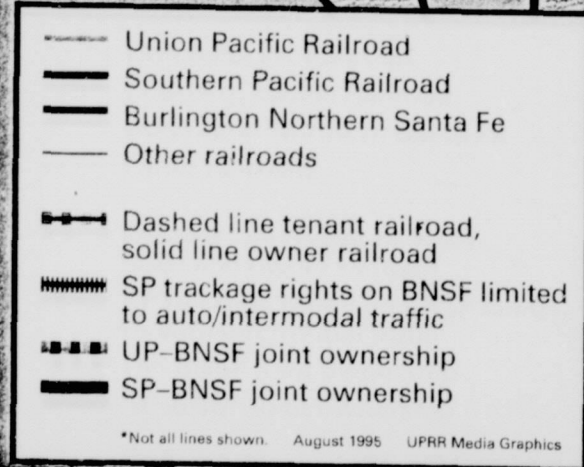

John Parker

3 Part of

Dear Secretary Williams:

The Rio Linda-Elverta Chamber of Commerce supports the merger of the Union Pacific Railroad with the Southern Pacific Railroad.

The Union Pacific Railroad has a long history with the communities of Rio Linda and Elverta that extends back over the eighty plus years of both communities. The Union Pacific Railroad line runs on the west side of both communities and is where, in years past, agriculture packing sheds were located for convenience in shipping produce raised in the area. Presently there are industrial users in Rio Linda that use the rail line for shipping and receiving of products.

The Southern Pacific Railroad has also been an integral element of the Rio Linda and Elverta communities. Mostly through the many Southern Pacific employees who live in both areas. These people, as have Union Pacific employees, have made important contributions to our communities through their support of community activities, businesses, and the local schools.

We would like to see this relationship with the Union Pacific Railroad and the Southern Pacific Railroad continue. And, we feel that through the proposed merger it will.

cc: Union Pacific Railroad

Sincerely

Mel Griffin, Vice President
Rio Linda-Elverta Chamber of Commerce.

Consolidated Rail Corporation
Two Commerce Square
2001 Market Street
Philadelphia, PA 19101

NOV # 196

FD-32760

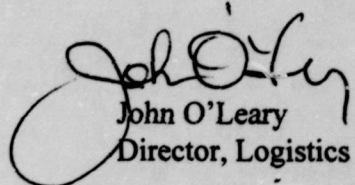

Dear Mr. LeVan:

Elf Atochem North America is concerned about the competitive effects that the proposed acquisition of the Southern Pacific Transportation Company by the Union Pacific Railroad would have on our Company. We have reviewed the proposed agreement between Union Pacific and Burlington Northern/Santa Fe which is intended to insure that meaningful rail competition will be maintained when the Southern Pacific is absorbed. We are not convinced that the agreement will provide this competition, especially in the state of Texas where our company has three plants that will be directly effected by the merger.

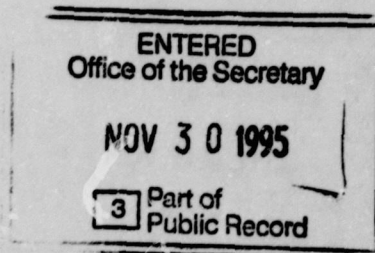

We have reviewed the proposal that Conrail has prepared to purchase Southern Pacific trackage from Chicago and East St. Louis to Texas and Louisiana as a condition to approval of the UP/SP merger. Our company finds this proposal to be a realistic and viable alternative to UP/SP, as it addresses our concerns regarding maintaining rail competition to our plants and the facilities of our customers.

Elf Atochem North America supports the efforts by carriers such as Conrail to maintain and enhance the competitive environment in the railroad industry.

Sincerely,

John O'Leary
Director, Logistics

November 27, 1995

Honorable Vernon A. Williams, Secretary
Interstate Commerce Commission
12th St. & Constitution Ave.
Washington, DC 20423

Dear Secretary Williams:

FD-32760

We believe the proposed Union Pacific-Southern Pacific merger is missing an important component, without which it is not in the public interest of our region. That component is UP-SP's sale of its eastern lines to Conrail, a major carrier here in Lake County.

Many of the nearly 4,000 miles of trackage rights that UP-SP plans to "rent" to the Burlington Northern-Santa Fe could be sold to Conrail. Conrail in fact seeks that purchase. It is committed to making that corridor more efficient on the highest quality of track.

This would give Northern Ohio's industries better access to the Gulf and Mexico's important petrochemical, raw materials, manufacturing and commercial markets -- a key public interest argument in favor of an ICC decision that the UP-SP's eastern routes be sold to Conrail.

Our industries need direct service south through Cleveland, Chicago, and St. Louis on the lines Conrail wants to purchase from the UP-SP. As an owner-carrier rather than a "renter", Conrail is the best long range choice.

A second public interest argument is that we want to keep Conrail and the other railroads that serve Northern Ohio strong. Transportation competition means better service and better prices for our companies. It helps us keep our manufacturers, and add new ones.

For those reasons, we in Lake County believe the proposed UP-SP merger as it stands is not in the public interest for Northern Ohio, and needs the sale of the eastern UP-SP lines to Conrail to meet that test.

Thank you for your consideration.

Sincerely,

Catherine C. Haworth

Finance Docket No. 32760, Union Pacific Corporation., et al
Control & Merger--Southern Pacific Rail Corporation, et al

Dear Mr. Williams:

The Houston area depends heavily on the availability of strong rail service for our local businesses. This letter is to advise the Commission of my view that the proposed merger of the Union Pacific and Southern Pacific railroads will serve the area's interests by strengthening rail service and improving competition.

Houston area shippers will enjoy improved service on many routes following a UP/SP merger. Many Houston area businesses ship to and from the West Coast. A UP/SP merger will allow shippers to use efficient combinations of lines to reach SP's Southern Corridor route. Current service on that route suffers from serious congestion and SP's inability to devote the capital resources to upgrade the facilities on its lines. Following the merger, UP/SP plan to invest capital to expand capacity on the Southern Corridor route. Coordination of rail movements and integration of terminal operations will also help relieve congestion. As a result, Houston, shippers will gain an efficient alternative to the BN/Santa Fe route to Southern California.

Service for north-south traffic through Houston should also improve significantly as a result of the merger. To the north, service on the Memphis-St. Louis -Chicago corridor will be faster and more reliable, due to the UP/SP plans for coordinating terminals, using alternative routes, and creation of more run-through trains. Houston shippers should also gain more direct routes to Denver and the Pacific Northwest through use of a combination of UP and SP lines. To the south, Houston shippers will have more flexible access to all Mexican gateways. Shippers currently served by SP will be able to take advantage of UP's efficient border-crossing procedures, eliminating delays for Mexican traffic. Also as a result of the merger, BN/Sante Fe will gain access to the important Laredo gateway (through interchange with the Texas Mexican Railway at Corp. to the Brownsville gateway.

We also expect better service for movements to the east, along the Gulf Coast toward New Orleans and other Louisiana points. SP shippers will be able to use UP's line east of Lake Charles, Louisiana. Moreover, under an agreement with UP and SP, BN/Sante Fe will gain a new competitive route between Houston and New Orleans through trackage rights and purchase of much of SP's mainline through Louisiana. BN/Sante Fe will also gain access to chemical plants at several points in the Houston area, including Baytown and Mont Belvieu. The agreement will allow BN/Sante Fe to provide an important new service alternative for Houston shippers on movements along the Gulf Coast and to and from the Southeast.

A merger of the UP and SP should improve equipment supply for our shippers, due to the shorter routes and other operating efficiencies that will result from the merger. The

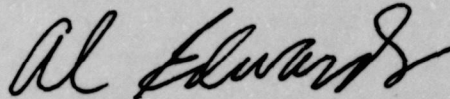

combined UP/SP system will have more opportunities to reposition equipment and take advantage of backhaul and triangulation opportunities and different seasonal patterns of the UP and SP traffic. Yard consolidations should provide some additional storage-in-transit opportunities for chemical shippers.

The merger will preserve competition, and actually increase it. The new operating rights for BN/Sante Fe ensure that points now served only by UP and SP will continue to receive service from two railroads. In addition, they provide Houston shippers with new competitive options for movements through Texas and Louisiana. Especially with new BN/Sante Fe access to points in the Houston area, competition for chemicals and petrochemical traffic will be strengthened. Moreover, a UP/SP merger will allow UP/SP to provide more effective competition with BN/Sante Fe than UP and SP could provide separately. Today, SP's service problems and its financial constraints make it a particularly weak competitor. UP/SP and BN/Sante Fe will both be efficient carriers with extensive route systems, capable of providing a high level of service to Houston shippers. We expect that these two systems will be vigorous competitors. Houston will also continue to have service from other rail carriers, barge operators, and other transportation alternatives, including trucks.

The economy of Houston will benefit from the UP/SP merger. Improved service for our shippers and the availability of strong competitive transportation alternatives will help Houston retain its status as a key business hub and will increase employment opportunities in the Houston area. This will benefit all Houston area citizens and the entire State as well.

In summary, the UP/SF merger should bring Houston area shippers many service benefits and new competitive options. We encourage the Commission to consider these benefits to Houston and to comment favorably on the merger.

Sincerely,

The Honorable Vernon A. Williams
Secretary, Interstate Commerce Commission
Twelfth Street and Constitutions Avenue, N.W.
Room 2215
Washington DC. 20423

RE: Finance Docket No. 32760
Union Pacific and Southern Pacific Railroad Merger

Dear Secretary Williams:

On behalf of the California Manufacturers Association, I am writing to urge the Interstate Commerce Commission to approve the merger of the Union Pacific and Southern Pacific railroads. This merger will dramatically improve shipping services for California manufacturers and increase the efficiency of California's rail transportation services.

The proposed merger will create faster, more reliable and efficient shipping services needed to meet the growing demand for products produced here in the state. The merger could also reduce the cost of shipping which will help our manufacturers compete more effectively over time.

While California continues to grow as an economic power on the Pacific Rim transportation and shipping infrastructure is a critical element of our economic growth and ability to compete with the rest of the nation. The merger will indeed help meet the growing demand for these important services.

For these reasons and more, the California Manufacturers Association urges your quick approval of the merger between Union Pacific and Southern Pacific railroads.

Sincerely,

A handwritten signature in dark ink, appearing to read "Mark Timmerman", written over a horizontal line.

Re: Finance Docket 32760

Secretary Williams:

I am opposed to the Union Pacific - Southern Pacific merger. As I understand the agreement between UP and the Burlington Northern-Santa Fe, this would involve the renting of rail rights to Burlington Northern. This arrangement does not auger well for the economic wellbeing of the communities (several of which are in my district) these tracks serve in Arkansas. These communities depend on the railroad for shipping agricultural commodities, and a rental arrangement does not imply the longstanding commitment these communities need for their long term development.

It seems to me that the Conrail proposal has greater benefits for this area. Their proposal would insure long lasting commitment to rail service to the agricultural communities of the Arkansas Delta and would promise greater competition among rail carriers for the shippers of the area.

Please inform me of further proceedings in this matter and of any possibility of input I might have on the issue.

Yours truly,

Mike Everett

Re: Finance Docket 32760

3 P...f
P

Dear Secretary Williams:

The Toledo Metropolitan Area Council of Governments (TMACOG) supports the purchase by Conrail of certain Southern Pacific Eastern lines as part of the proposed Union Pacific/Southern Pacific merger, and without the Conrail purchase being a part of the ICC's approval of the Union Pacific/Southern Pacific merger, it should not be consummated. Attached is a copy of TMACOG Resolution No. 1995-43 adopted by our Board of Trustees on November 15, 1995 supporting this position.

TMACOG is a voluntary association of local governments in Northwest Ohio and Southeast Michigan serving 800,000 people in a 2,240 square mile area. It is established under Chapter 167 of the Ohio Revised Code and Michigan Public Act No. 7 (Ex. Sess.). The TMACOG Board of Trustees is designated as the Metropolitan Planning Organization (MPO), pursuant to 23 United States Code 134 and 49, by the Governor of Ohio in cooperation with local elected officials to carry out the continuing, comprehensive, and coordinated transportation planning process for the Toledo area. As part of this planning process and because Toledo and Northwest Ohio are a major transportation hub, TMACOG has been working with the five railroads serving our region, business and industry, economic development agencies, and the public sector since 1981 in a rail transportation planning process. Rail and multimodal transportation planning are a solid part of our ongoing activities.

The Union Pacific and Southern Pacific are considering merging. TMACOG has carefully evaluated the proposed merger. Its effects on our region and the State of Ohio are important to us. While there may be benefits to the consolidation between these two railroads, it is important from an economic development standpoint that other options and proposals be weighed and considered before any merger approval is given by the Interstate Commerce Commission (ICC). TMACOG is not satisfied that the proposed agreement between the Union Pacific and the Burlington Northern/Santa Fe alone, and unto itself, will satisfy our concerns over competition.

CAWPDOCS\WLK\CONRAIL.LTR 3425

CHAIRMAN:

Mayor Charles Duck, Jr.
Village of Waterville

VICE-CHAIRMAN:

Mayor James Seney
City of Sylvania

2ND VICE-CHAIRMAN:

Commissioner Mark Pietrykowski
Lucas County

EXECUTIVE DIRECTOR:

William L. Knight

Conrail has approached TMACOG with its proposal for acquiring some of the Southern Pacific Eastern lines from Chicago and St. Louis to Texas and Louisiana. This proposal has great benefit for those Midwest cities, such as Toledo, and states like Ohio eager to encourage economic growth through the North American Free Trade Agreement (NAFTA). Conrail has been and continues to be a good corporate resident of Toledo and northwest Ohio, and its level of service has greatly benefited the manufacturers and shippers in our community. This proposed acquisition by Conrail will only enhance the current service being provided. Economic expansion opportunities will be available to the businesses and industries in our community. In addition, with direct shipments of Midwest-made products to new markets in Mexico, the mid-south and Gulf Coast regions, areas currently not easily accessed by Midwest shippers, will be opened.

For these reasons, TMACOG is recommending support of Conrail's purchase of the Southern Pacific Eastern lines. Without the Conrail proposal being a part of the ICC's approval, the Union Pacific/Southern Pacific merger should not be consummated. Conrail's ownership of the Southern Pacific Eastern lines is good business sense and brings more corporate responsibility than the lease arrangement as proposed by Burlington Northern/Santa Fe.

Sincerely,

William L. Knight, AICP

Washington, DC 20423

Dear Secretary Williams:

FD-32760

Recently, I became aware of a proposal by the Union Pacific to acquire the Southern Pacific railroad.

As a legislator who represents a number of Illinois shippers and rail communities, I have some concerns about the merger and its effect on competition in Illinois. In short, a merger of the UP and SP gives the UP control of the two major lines running between Chicago and St. Louis. This could impair competitive pricing for local and national freight rail customers, and ultimately affect the transportation of goods along the eastern lines of the SP.

I understand that Conrail has proposed a solution for preserving competition along the SP-East line by offering to purchase the lines from the UP. I also understand the UP has tried to address the competition issue by establishing a partnership with Burlington Northern-Santa Fe.

Communities with strong transportation and freight rail alternatives are attractive to businesses, which in turn fuel local economies. I encourage you to take the time to thoroughly review both the Conrail and UP proposals and make a decision that ensures fair competition and provides the higher level of quality and service for the shippers, customers and communities we represent.

Thank you for your attention.

Sincerely,

Ron

JOSEPH JABLONSKI
VILLAGE CLERK

The Honorable Vernon A. Williams, Secretary
Interstate Commerce Commission
12th Street and Constitution Avenue
Washington, DC 20423

RE: Finance Docket 32760

Dear Secretary Williams:

The Village of Fairmont City is extremely concerned about the competitive aspects on area businesses as a result of the proposed acquisition of the Southern Pacific Lines (SP) by the Union Pacific Railroad (UP). While we are familiar with the proposed agreement between UP and the Burlington Northern-Sante Fe (BNSF), intended to remedy those effects, we are not persuaded that this arrangement will produce effective competition for rail traffic in the Mid-South region of the United States. This is of concern to our community.

We also have reviewed Conrail's proposal to acquire a significant portion of the SP's eastern lines in connection with the merger, especially the lines running from St. Louis, to Arkansas, Texas, and Louisiana. We believe this proposal to be more appropriate and far more effective in addressing the above stated concerns. The Conrail proposal calls for ownership of the lines, whereas the UP-BNSF agreement mainly involves the granting of trackage right. We believe that trackage rights provide only limited benefits and limited guarantees which can be easily lost if railroads disagree over whose traffic has priority and who is in charge of operations of the line. Further, we believe an owning railroad is in a far better position than a renter to encourage economic development activities on its lines.

Another reason the Village favors Conrail's proposal is that it would provide efficient service for rail customers in our area for movement of good and raw materials to and from the Mid-South and Texas Gulf. Conrail's proposed one-line service to these markets would be the fastest, most direct and involve the fewest car handlings.

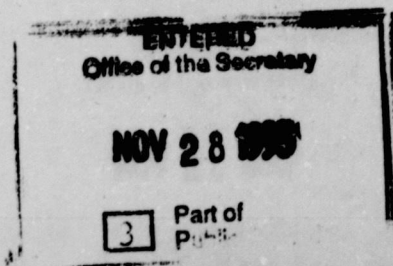

We are extremely concerned about the recent railroad merger trend in the United States. This trend seems to be leading our nation toward a few giant railroads. Clearly, mega-railroads will further limit competition and reduce productivity.

For all of the reasons above, We are actively opposing the UP-SP merger at the ICC unless it is conditioned upon acceptance of Conrail's proposal.

Sincerely,

Alex J. Bregen, President,
Village of Fairmont City, Illinois.

RE: Finance Docket 32760

Dear Secretary Williams:

I am extremely concerned about the competitive aspects on area businesses as a result of the proposed acquisition of the Southern Pacific Lines (SP) by the Union Pacific Railroad (UP). While I am familiar with the proposed agreement between UP and the Burlington Northern-Santa Fe (BNSF), intended to remedy those effects, I am not persuaded that this arrangement will produce effective competition for rail traffic in the Mid-South region of the United States. This is of concern to my community.

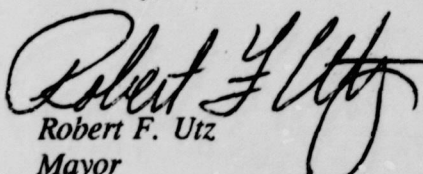

I also have reviewed Conrail's proposal to acquire a significant portion of the SP's eastern lines in connection with the merger, especially the lines running from Chicago and St. Louis to Arkansas, Texas, and Louisiana. I find this proposal to be more appropriate and far more effective in addressing the above stated concerns. The Conrail proposal calls for ownership of the lines, whereas the UP-BNSF agreement mainly involves the granting of trackage right. I believe that trackage rights provide only limited benefits and limited guarantees which can be easily lost if railroads disagree over whose traffic has priority and who is in charge of operations of the line. Further, I believe an owning railroad is in a far better position than a renter to encourage economic development activities on its lines.

Another reason I favor Conrail's proposal is that it would provide efficient service for rail customers in our area for movement of goods and raw materials to and from the Mid-South and Texas Gulf. Conrail's proposed one-line service to these markets would be the fastest, most direct and involve the fewest car handlings.

I am extremely concerned about the recent railroad merger trend in the United States. This trend seems to be leading our nation toward a few giant railroads. Clearly, mega-railroads will further limit competition and reduce productivity.

For all of the reasons above, I am actively opposing the UP-SP merger at the ICC unless it is conditioned upon acceptance of Conrail's proposal.

Sincerely,

Robert F. Utz

Reference: Finance Docket No. 32760 Union Pacific Corp. et. al.
- Control & Merger - Southern Pacific Rail Corp., et. al.

Dear Secretary Williams:

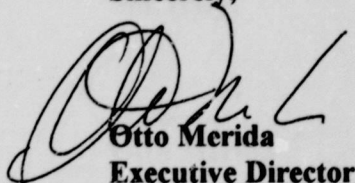

The Latin Chamber of Commerce is happy to endorse the proposed merger of one of its members, the Union Pacific Railroad, with the Southern Pacific Railroad.

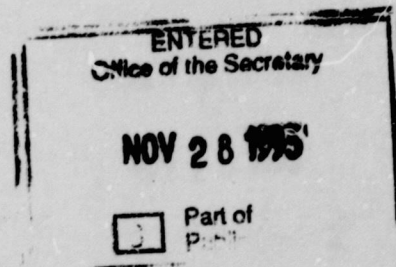

Our Officers and Board of Directors acknowledge the significant of Union Pacific in the Silver State, and in particular Southern Nevada. This merger will help with the tremendous task that this Chamber and other economic development organizations are involved at the present time in diversifying the state economy, and catering to the tremendous growth of the State for the last few years. Rail service, and in particular Union Pacific, has become an essential component of this growth and of our success in bringing new developments and firms into Southern Nevada.

Also by allowing this merger Union Pacific will be in a much better position of evenly compete with the BN-Santa Fe Railroad, to the benefit of Nevada businesses and hotel properties.

Again, we totally support this merger.

Sincerely,

Otto Merida
Executive Director
