1 This decision covers the STB Finance Docket No. 33388 lead proceeding and the embraced proceedings listed in Appendix A.
AGENCY: Surface Transportation Board.

ACTION: Decision No. 12; Notice of Acceptance of Primary Application and Related Filings; Notice of related Abandonments Proposed By Applicants.

SUMMARY: The Board is accepting for consideration the primary application and related filings filed June 23, 1997, by CSX Corporation (CSXC), CSX Transportation, Inc. (CSXT), Norfolk Southern Corporation (NSC), Norfolk Southern Railway Company (NSR), Conrail Inc. (CRR), and Consolidated Rail Corporation (CRC). The primary application seeks Board approval and authorization under 49 U.S.C. 11321-25 for (1) the acquisition by CSX and NS of control of Conrail; and (2) the division of the assets of Conrail by and between CSX and NS. The related filings, which include (among other things) two abandonment petitions and three abandonment notices, seek related relief contingent upon approval of the primary application.

DATES: The effective date of this decision is July 23, 1997. Any person who wishes to participate in this proceeding as a party of record must file, no later than August 7, 1997, a notice of intent to participate. Descriptions of responsive (including inconsistent) applications, and petitions for waiver or clarification regarding those applications, must be filed by August 22, 1997. Responsive (including inconsistent) applications, written comments (including comments of the U.S. Secretary of Transportation and the U.S. Attorney General), protests, requests for conditions, and any other opposition evidence and argument must be filed by October 21, 1997. For further information respecting dates, see Appendix B.

1 This decision covers (i) the primary application, which was filed in the STB Finance Docket No. 33388 lead docket, and (ii) the 39 related filings (1 application, 16 petitions and 22 notices), which were filed in the 40 embraced dockets listed in Appendix A (one related filing, respecting the proposed abandonment in Edgar and Vermilion Counties, IL, was filed in two dockets).

2 CSXC and CSXT, and their wholly owned subsidiaries, are referred to collectively as CSX. NSC and NSR, and their wholly owned subsidiaries, are referred to collectively as NS. CRR and CRC, and their wholly owned subsidiaries, are referred to collectively as Conrail. CSX, NS, and Conrail are referred to collectively as applicants.

3 In order for a document to be considered a formal filing, the Board must receive an original and 25 copies of the document, which must show that it has been properly served. Documents transmitted by facsimile (FAX) will not be considered formal filings and are not encouraged because they will result in unnecessarily burdensome, duplicative processing in what we expect to become a voluminous record.
THE APPLICANTS. CSX operates approximately 18,504 route miles and 31,961 track miles of railroad in 20 states east of the Mississippi River and in Ontario, Canada. Of that total, approximately 1,607 miles are operated under trackage rights while the remaining mileage is either owned by CSX or operated by CSX under contract or lease. CSX has principal routes to, and serves, virtually every major metropolitan area east of the Mississippi River, from Chicago, IL, St. Louis, MO, Memphis, TN, and New Orleans, LA, to the West to Miami, FL. Jacksonville, FL, Charleston, SC, Norfolk, VA, Washington, D.C., and Philadelphia, PA, on the East. Other major metropolitan areas served by CSX include Atlanta, GA, Nashville, TN, Cincinnati, OH, Detroit, MI, Pittsburgh, PA, Baltimore, MD, Charlotte, NC, Birmingham, AL, and Louisville, KY. CSX interchanges traffic with other railroads at virtually all of the aforementioned locations and at numerous other points on its railroad system.

NS operates approximately 14,282 route miles and 25,236 track miles of railroad in 20 states, primarily in the South and the Midwest, and in Ontario, Canada. Of that total, approximately 1,520 miles are operated under trackage rights while the remaining mileage is either owned by NS or operated by NS under contract or lease. NS has routes to, and serves, virtually every major market in an area that stretches from Kansas City, MO, in the Midwest to Norfolk, VA, in the East, to Chicago, IL, and Buffalo, NY, in the North, and to New Orleans, LA, and Jacksonville, FL, in the South. These markets include Memphis, Chattanooga and Knoxville, TN; St. Louis, MO; Fort Wayne, IN; Detroit, MI; Toledo, Cincinnati, Columbus, and Cleveland, OH; Louisville and Lexington, KY; Bluefield, WV; Alexandria, Roanoke, Lynchburg, and Richmond, VA; Winston-Salem, Raleigh, Durham, Charlotte, and Morehead City, NC; Greenville, Spartanburg, Columbia, and Charleston, SC; Atlanta, Macon, Valdosta, and Savannah, GA; Bessemer, Birmingham, Montgomery, and Mobile, AL; Des Moines, IA; and Peoria, Springfield, and Decatur, IL. NS interchanges traffic with other railroads at virtually all of the locations mentioned above and at numerous other locations on its railroad system.

Conrail operates approximately 10,500 miles of railroad in the Northeast and Midwest, and its primary network forms an "X" connecting Chicago (via the Chicago Line) and East St. Louis (via the St. Louis and Indianapolis Lines) in the West, with Boston, MA, New York, NY, and Northern New Jersey (via the Chicago Line and other main lines), and with Pittsburgh, Harrisburg, PA, Philadelphia, Baltimore, and Washington, DC (via the Pittsburgh Line and other main lines) in the East. The "hub" of the "X" is located in, and about, Cleveland, OH.

Conrail's Chicago Line extends between Chicago and the Albany, NY, area and connects there (through the Seltirk Branch) with the River Line (serving North Jersey via the west shore of the Hudson River), the Hudson Line (through which Conrail reaches New York City and Long Island), and the Boston Line (which extends to Boston and via which Conrail serves New England). Other important routes contiguous to the Chicago Line include the Detroit Line (between Detroit and a connection with the Chicago Line at Toledo), the Michigan Line (the portion between Detroit and Kalamazoo), and the Kalamazoo Secondary and Branch (between Kalamazoo, MI, and Elkhart, IN, on the Chicago Line), the Montreal Secondary (between Sylva, NY, and Adirondack Junction, Quebec), and the Southern Tier (between Buffalo, NY, and Croxton, NJ).

Conrail's St. Louis Line extends between East St. Louis, IL, and Indianapolis, IN, connecting there with the Indianapolis Line which, in turn, extends between Indianapolis and the Cleveland area (connection with the Chicago Line). Conrail's Cincinnati Line (between Cincinnati and Columbus, OH) and its Columbus Line (between Columbus and Galion, OH, on the Indianapolis Line) and the Scottsawn Secondary Track (between Columbus and Ridgeway, OH, on the Indianapolis Line) all accommodate traffic flows between other parts of the Conrail system and Cincinnati, Columbus and/or Conrail points served via the West Virginia Secondary Track between Columbus and the Kanawha Valley of West Virginia.
Conrail's principal interchange points are in Chicago, East St. Louis and Salem, IL. via Union Pacific Railroad Company (UPPR) trackage rights between Salem and St. Elmo on the St. Louis Line; Streator, IL; Cincinnati; Hagerstown, MD; and Washington, D.C. Other important interchange points include Effingham, IL; Fort Wayne, IN; Toledo and Columbus, OH; Buffalo and Niagara Falls, NY; Montreal, Quebec; Rotterdam Junction, NY; and Worcester (including Barbers), MA.

THE PROPOSED TRANSACTION. The transaction for which approval is sought in the primary application involves the joint acquisition of control by CSX and NS of CRR and its subsidiaries (the Control Transaction), and the division between CSX and NS of the operation and use of Conrail's assets (the Division). The Control Transaction and the Division are governed principally by an agreement (the Transaction Agreement) dated as of June 10, 1997, between CSXC, CSXT, NSC, NSR, CRR, CRC, and CRR Holdings LLC (CRR Holdings, a recently created limited liability company jointly owned by CSXC and NSC). See CSX/NS-25, Volumes 8B & 8C (the Transaction Agreement, including various schedules and exhibits). The Control Transaction and the Division are also governed by a letter agreement (the CSX/NS Letter Agreement) dated as of April 8, 1997, between CSXC and NSC, but only to the extent such CSX/NS Letter Agreement has not been superseded either by the Transaction Agreement or by the agreement (the CRR Holdings Agreement) that governs CRR Holdings. See CSX/NS-25, Volume 8A at 350-99 (the CSX/NS Letter Agreement) and at 400-36 (the CRR Holdings Agreement).

ACQUISITION OF CONTROL OF CONRAIL. CSX and NS have already acquired 100% of the common stock of CRR in a series of transactions that included a CSX tender offer that was consummated on November 20, 1996, a NS tender offer that was consummated on February 4, 1997, a joint CSX/NS tender offer that was consummated on May 23, 1997, and a merger that was consummated on June 2, 1997. In the aftermath of these series of transactions, CRC remains a direct wholly owned subsidiary of CRR; CRR has become a direct wholly owned subsidiary of Green Acquisition Corp. (Tender Sub); Tender Sub is now a direct wholly owned subsidiary of CRR Holdings; and CRR Holdings is jointly owned by CSXC and NSC (CSXC holds a direct 50% voting interest and a 42% equity interest in CRR Holdings; NSC holds a direct 50% voting interest and a 58% equity interest in CRR Holdings). The merger that was consummated on June 2, 1997 (the Merger), involved the merger of Green Merger Corp. (Merger Sub, a direct wholly owned subsidiary of Tender Sub) into CRR, with CRR being the surviving corporation; and, in connection with the Merger: (i) each remaining outstanding share of CRR common stock not held by CSXC, NSC, or their affiliates was converted into the right to receive $115 in cash, without interest; and (ii) the shares of Merger Sub, all of which were then owned by Tender Sub, were converted into 100 newly issued shares of CRR, all of which were placed into a voting trust (the CSX/NS Voting Trust) to prevent CSXC and NSC, and their respective affiliates, from exercising control of CRC and its carrier subsidiaries pending review by the Board of the primary application. See CSX/NS-25, Volume 8A at 323-49 (the agreement that governs the CSX/NS Voting Trust).

At the present time, the affairs of CRR and CRC are under the control of their independent boards of directors. The Transaction Agreement provides that, following the effective date of the Board's approval of the primary application (the Control Date), CRR and CRC will each be managed by a board of directors consisting of six directors divided into two classes, each class having three directors. On each board, CSXC will have the right to designate three directors and NSC will likewise have the right to designate three directors; and actions that require the approval of either board will require approval both by a majority of the directors on that board designated by CSXC and by a majority of the directors on that board designated by NSC.

DIVISION OF CONRAIL. The Transaction Agreement provides that, if the primary application is approved, the division of the operation and use of Conrail's assets will be effected on the Closing Date, which is defined as the third business day following the date on which certain conditions precedent (including the effectiveness of a final Board order and, where necessary, sufficient labor implementing agreements) shall have been satisfied or waived, or such other date as may be agreed upon. See CSX/NS-18 at 11; CSX/NS-25, Volume 8B at 45. It is anticipated that, during the period beginning on the Control Date and ending on the Closing Date, CSX and NS will exercise joint control of Conrail as a separately functioning rail system.

Formation of NYC and PRR. To effect the Division, CRC will form two wholly owned subsidiaries (referred to collectively as the Subsidiaries): New York Central Lines LLC (NYC) and Pennsylvania Lines LLC (PRR). CSXC will have exclusive authority to appoint the officers and directors of NYC; NSC will likewise have exclusive authority to appoint the officers and directors of PRR.

- 3 -
directors of PRR; and CRC, as the sole member of the Subsidiaries, will (with certain exceptions) follow CSXC's and NSC's directions with respect to the management and operation of NYC and PRR, respectively.

**Allocation of Conrail Assets and Liabilities.** On the date of the Division, CRC will assign to NYC and PRR certain of CRC's assets. NYC will be assigned those CRC assets designated to be operated as part of CSX's rail system (the NYC-Allocated Assets), and PRR will be assigned those CRC assets designated to be operated as part of NS's rail system (the PRR-Allocated Assets). These assets will include, among other things, certain lines and facilities currently operated by CRC, whether owned by CRC or operated by CRC under trackage rights. Certain additional assets (referred to as the Retained Assets) will continue to be held by CRC and CRC (or their subsidiaries other than NYC and PRR) and will be operated by them for the benefit of CSX and NS. In addition, on the date of the Division: the former Conrail line now owned by NS that runs from Fort Wayne, IN, to Chicago, IL (the Fort Wayne Line), will be transferred to CRC in a like-kind exchange for CRC's Chicago South/Illinois Lines (the Streator Line); and CRC will assign the Fort Wayne line to NYC, to be operated together with the other Conrail lines to be assigned to NYC and used by CSX as part of CSX's rail system.

Allocated Assets: Other Aspects Certain equipment will be included in the NYC-Allocated Assets and the PRR-Allocated Assets and will be made available to CSXT and NSR pursuant to a CSXT Equipment Agreement and a NSR Equipment Agreement, respectively. Much of the locomotive equipment and rolling stock equipment, however, will not be included in the NYC- and PRR-Allocated Assets but will be included, instead, in the Retained Assets (discussed below), and will be leased by CRC or its affiliates to NYC or PRR pursuant to equipment agreements to be negotiated by the parties.

CRC currently holds certain trackage rights over CSXT and NSR. In general (though there are exceptions), CRC will assign the trackage rights that it holds over CSXT to PRR (to be operated by NSR), and it will assign the trackage rights that it holds over NSR to NYC (to be operated by CSXT).

The shares currently owned by Conrail in TTX Company (TTX, formerly known as Trailer Train) will be allocated to NYC and PRR. Applicants' current ownership interest in TTX is: CSX, 9.345%; NS, 7.788%; CRC, 21.807%. Following approval of the primary application, the ownership of TTX by applicants and their subsidiaries will be as follows: CSX, 9.345%; NYC, 10.125%; NS, 7.788%; PRR, 11.682%.

Conrail's 50% interest in Triple Crown Services Company will be allocated to PRR.

Certain additional special treatments are provided in particular areas within the allocated assets. A description of the areas in which special arrangements are made is set forth below under the caption "Other Areas with Special Treatments."

Applicants indicate that they have taken steps to ensure that all of the existing contractual commitments of Conrail to its shippers will be fulfilled. The Transaction Agreement provides that all transportation contracts of CRC in effect as of the Closing Date (referred to as Existing Transportation Contracts) will remain in effect through their respective stated terms and will be allocated as NYC-Allocated Assets and PRR-Allocated Assets, and that the obligations under them shall be carried out after the Closing Date by CSXT, utilizing NYC-Allocated Assets, and by NSR, using PRR-Allocated Assets, or pursuant to the Shared Assets Areas Agreements, as the case may be. The Transaction Agreement further provides, with respect to the Existing Transportation Contracts: that CSXT and NSR will allocate the responsibilities to serve customers under these contracts; and that CSXT and NSR shall cooperate as necessary to assure shippers under these contracts all benefits, such as volume pricing, volume refunds, and the like, to which they are contractually entitled.

Retained Assets. The Retained Assets include assets contained within three Shared Assets Areas (the Detroit Shared Assets Area, the North Jersey Shared Assets Area, and the South Jersey/Philadelphia Shared Assets Area) that are more fully described below.

4 The Transaction Agreement also contemplates that certain CRC facilities currently used for the benefit of the entire Conrail system: will be operated, during a transition period following the Closing Date, for the joint benefit of CSX and NS; and will be operated, after such transition period, for the party to whom they have been allocated. See CSX/NS-18 at 11 (lines 14-18) and 12 (line 1 & n.3).
The Retained Assets also include Conrail's System Support Operations (SSO) facilities, including equipment and other assets associated with such facilities, currently used by Conrail to provide support functions benefiting its system as a whole, including Conrail's: (1) customer service center in Pittsburgh, PA; (2) crew management facility in Dearborn, MI; (3) system maintenance-of-way equipment center in Canton, OH; (4) signal repair center in Columbus, OH; (5) system freight claims facility in Buffalo, NY; (6) system non-revenue billing facility at Bethlehem, PA; (7) system rail welding plant at Lucknow (Harrisburg), PA; (8) system road foreman/engineer training center at Philadelphia and Conway, PA; (9) police operations center at Mt. Laurel, NJ; (10) the Philadelphia Division headquarters building and offices located at Mt. Laurel, NJ; and (11) other SSO facilities identified by CSX and NS prior to the Closing Date. Each SSO Facility will be operated by Conrail for the benefit of CSXT/NYC and NS/PRR, and the costs of operating each SSO Facility will be retained by Conrail as "Corporate Level Liabilities" and will be shared between CSX and NS.5

Liabilities. In general: NYC will assume all liabilities arising on or after the Closing Date that relate predominantly to the NYC-Allocated Assets; PRR will assume all such liabilities that relate predominantly to the PRR-Allocated Assets; CRC will be responsible for all such liabilities that do not relate predominantly to the NYC- or PRR-Allocated Assets; and CRC will also be responsible for certain liabilities arising prior to the Closing Date.

Separation Costs (as defined in the Transaction Agreement, see CSX/NS-25, Volume 8B at 20) incurred following the Control Date in connection with Conrail agreement employees now working jobs at or in respect of NYC-Allocated Assets will be the sole responsibility of CSX, while Separation Costs incurred in connection with Conrail agreement employees now working jobs at or in respect of PRR-Allocated Assets will be the sole responsibility of NS. Separation Costs incurred in connection with Conrail agreement employees working jobs at or in respect of Retained Assets will be shared by CSX and NS. Separation Costs incurred following the Control Date for Conrail agreement employees at Conrail's Altoona and Hollidaysburg shops will be the responsibility of NS, and Separation Costs incurred following the Control Date in connection with agreement employees at Conrail's Philadelphia headquarters and technology center and Conrail's Pittsburgh customer service center will be the responsibility of CSX. Separation Costs for eligible Conrail non-agreement employees will be shared by CSX and NS.

After the Closing Date, compensation and other expenses (excluding Separation Costs) for agreement employees (other than certain Conrail employees performing general and administrative functions) working jobs at or in respect of NYC-Allocated Assets will be the sole responsibility of CSX, while such expenses for such agreement employees working jobs at or in respect of PRR-Allocated Assets will be the sole responsibility of NS.

Operation of Assets. Applicants indicate: that CSXT and NYC will enter into the CSXT Operating Agreement, which provides for CSXT's use and operation of the NYC-Allocated Assets; that NSR and PRR will enter into the NSR Operating Agreement, which provides for NSR's use and operation of the PRR-Allocated Assets; and that CRC, NYC, PRR, CSXT and/or NSR will enter into Shared Assets Areas Operating Agreements, which provide for the operation of certain Shared Assets Areas for the benefit of both CSXT and NSR.

CSXT and NSR Operating Agreements. The CSXT Operating Agreement and the NSR Operating Agreement (collectively, the Allocated Assets Operating Agreements) provide that CSXT and NSR will each have the right, for an initial term of 25 years, to use and operate, as part of their respective systems, the NYC-Allocated Assets and the PRR-Allocated Assets. Those agreements will require CSXT and NSR each to bear the responsibility for and the cost of operating and maintaining their respective Allocated Assets. CSXT and NSR will each receive for its own benefit and in its own name all revenues and profits arising from or associated with the operation of its Allocated Assets.

CSXT and NSR Operating Agreements. The CSXT Operating Agreement and the NSR Operating Agreement (collectively, the Allocated Assets Operating Agreements) provide that CSXT and NSR will each have the right, for an initial term of 25 years, to use and operate, as part of their respective systems, the NYC-Allocated Assets and the PRR-Allocated Assets. Those agreements will require CSXT and NSR each to bear the responsibility for and the cost of operating and maintaining their respective Allocated Assets. CSXT and NSR will each receive for its own benefit and in its own name all revenues and profits arising from or associated with the operation of its Allocated Assets.

CSXT will pay NYC an operating fee based on the fair market rental value of the NYC-Allocated Assets. NSR will similarly pay PRR an operating fee based on the fair market rental value of the PRR-Allocated Assets. CSXT and NSR will have the right to receive the benefits of NYC and PRR, respectively, under any contract or agreement included in the NYC-Allocated Assets or the PRR-Allocated Asssts, respectively, and, with the consent of NYC and PRR, respectively, to modify or amend any such contract or agreement on behalf of NYC and PRR.

5 At least some of the SSO Facilities will apparently be operated for the joint benefit of CSX and NS "for a short period" only. See CSX/NS-18 at 12 (lines 2-5).
CSXT and NSR will each have the right to renew its Allocated Assets Operating Agreement for two additional terms of ten years each. The Allocated Assets Operating Agreements contemplate that, upon termination of the agreements, CSXT and NSR will be deemed to have returned their Allocated Assets to NYC or PRR, subject to any regulatory requirements.

**Shared Assets Areas and Operating Agreements.** Both CSXT and NSR will be permitted to serve shipper facilities located within the three Shared Assets Areas (North Jersey, South Jersey/Philadelphia, and Detroit), which will be owned, operated, and maintained by CRC for the exclusive benefit of CSX and NS. CSXT and NSR will enter into a Shared Assets Area Operating Agreement with CRC in connection with each of the Shared Assets Areas, and CRC will grant to CSXT and NSR the right to operate their respective trains, with their own crews and equipment and at their own expense, over any tracks included in the Shared Assets Areas. CSXT and NSR will each have exclusive and independent authority to establish all rates, charges, service terms, routes, and divisions, and to collect all freight revenues, relating to freight traffic transported for its account within the Shared Assets Areas. Other carriers that previously had access to points within the Shared Assets Areas will continue to have the same access as before.

1. **The North Jersey Shared Assets Area** encompasses all northern New Jersey trackage east of and including the NEC, and also (a) certain line segments north of the NEC as it turns East to enter the tunnel under the Hudson River, (b) the CRC Lehigh line west to Port Reading Junction, (c) the rights of CRC on the New Jersey Transit Raritan line, (d) the CRC Port Reading Secondary line west to Bound Brook, (e) the CRC Perth Amboy Secondary line west to South Plainfield, and (f) the NEC local service south to the Trenton area.

2. **The South Jersey/Philadelphia Shared Assets Area** encompasses all CRC "Philadelphia" stations and stations within the Philadelphia City limits, industries located on the CRC Chester Industrial and Chester Secondary tracks, all CRC trackage in Southern New Jersey, CRC's rights on the NEC north from Zoo Tower in Philadelphia to Trenton, NJ, and the Ameriport intermodal terminal and any replacement of such terminal built substantially through public funding.

3. **The Detroit Shared Assets Area** encompasses all CRC trackage and access rights east of the CP-Townline (Michigan Line MP 7.5) and south to and including Trenton (Detroit Line MP 20).*

**Other Areas with Special Treatments.** A number of other areas, though not referred to as Shared Assets Areas, are nevertheless subject to special arrangements that provide for a sharing of routes or facilities to a certain extent.

1. **Monongahela Area:** Although the CRC lines formerly a part of the Monongahela Railway will be operated by NSR, CSXT will have equal access for 25 years, subject to renewal, to all current and future facilities located on or accessed from the former Monongahela Railway, including the Waynesburg Southern.

2. **Chicago Area:** Both CSXT and NSR will have access to CRC's rights concerning access to and use of the Willow Springs Yard of The Burlington Northern and Santa Fe Railway Company (BNSF); applicants will enter into an agreement concerning their respective rights as successors to Conrail and as parties controlling the controlling shareholder in the Indiana Harbor Belt Railway (IHB), a 51%-owned subsidiary of CRC (the stock of IHB will be a CRC-retained asset); certain trackage rights of CRC over IHB will be assigned or made available to NYC to be operated by CSXT or to PRR to be operated by NSR. CSXT and NSR will enter into an agreement to permit each of them to maintain current access and trackage rights enjoyed by them over terminal railroads in the Chicago area; and CSX will be granted an option, exercisable if CSXT and BNSF come under common control, to purchase the Streator Line from Osborne, IN, to Streator, IL.

3. **Ashtabula Harbor Area:** NSR will have the right to operate and control CRC's Ashtabula Harbor facilities, with CSXT receiving use and access, up to a proportion of the total ground storage, throughput, and tonnage capacity of 42%.

* For a more complete description of the three Shared Assets Areas, see CSX/NS-18 at 46-49 (and references there cited).
(4) Buffalo Area: CSXT will operate Seneca Yard, and NSR will receive access to yard tracks in that yard.

(5) Cleveland Area: CRC's switching yard at Collinwood will be operated by CSXT and its Rockport Yard will be operated by NSR.

(6) Columbus, OH: NSR will operate CRC's Buckeye Hump Yard, and CSXT will operate the former Local Yard and intermodal terminal at Buckeye.

(7) Erie, PA: Norfolk and Western Railway Company (NW, a wholly owned NSR subsidiary) will have a permanent easement and the right to build a track on the easement along the CRC right of way through Erie, PA, to be operated by CSXT. NW will have trackage rights in Erie to connect its route from Corry to its existing Buffalo-Cleveland line if such connection can be achieved without using the CRC Buffalo-Cleveland line to be operated by CSXT.

(8) Fort Wayne, IN: CSX will operate the line between Fort Wayne and Chicago, currently owned by NSR.

(9) Indianapolis, IN: NSR will have overhead trackage rights from Lafayette and Muncie to Hawthorne Yard to serve, via CSXT switch, shippers that presently receive service from two railroads.

(10) Toledo, OH: CRC's Stanley Yard will be operated by CSXT, and its Airline Junction Yard will be operated by NSR.

(11) Washington, D.C.: CRC's Landover Line from Washington, D.C., to Landover, MD, will be allocated to NYC, and NSR will be given overhead trackage rights.

(12) Allocation of Rights with Respect to Freight Operations Over Amtrak's NEC: CRC's NEC overhead trackage rights north of New York (Penn Station) will be assigned to NYC. Both NYC and PRR will have overhead rights to operate trains between Washington, D.C., and New York (Penn Station), subject to certain limitations. From Zoo Tower, Philadelphia, to Penn Station, NY, CRC's NEC rights to serve local customers will be part of the Retained Assets and CRC will assign those rights to NYC and PRR, with NYC and PRR having equal access to all local customers and facilities. Between Washington, D.C., and Zoo Tower, Philadelphia, CRC's NEC rights to serve local customers will be assigned to PRR. The right to serve local customers on the NEC north of New York (Penn Station) will be assigned to NYC.

SUCCESSION TO CONRAIL ACTIVITIES. Applicants intend that the Allocated Assets conveyed to NYC and PRR will be operated for them by CSXT and NSR, respectively, and that both the Allocated Assets conveyed to NYC and PRR as well as the Retained Assets made available by CRC to CSXT or NSR or both will be enjoyed and used by CSXT and NSR (subject to the terms of the governing agreements) as if the carrier in question were itself CRC. Applicants similarly intend that the Shared Assets Areas will be used, enjoyed, and operated as fully by CSXT and NSR as if each of them were CRC.

THE CONTINUING CONRAIL ACTIVITIES. From the Closing Date forward, CSXT and NSR will be responsible for all of the operating expenses and new liabilities attributable to the assets which they are operating. It is expected, however, that most of the pre-Closing Date liabilities of CRC, CRR, and their subsidiaries will remain in place. It is contemplated that CRC will pay its pre-Closing Date liabilities, including its debt obligations, out of payments received, either directly or through NYC and PRR, from CSXT and NSR in connection with the Allocated Assets and the Shared Assets Areas. Applicants expect that such payments will be sufficient to permit CRC and its subsidiaries (1) to cover their operating, maintenance, and other expenses, (2) to pay all of their obligations as they mature, (3) to provide dividends to CRR sufficient to permit it to discharge its debts and obligations as they mature, and (4) to receive a fair return for the operation, use, and enjoyment by CSXT and NSR of the Allocated Assets and Shared Assets Areas. Applicants add, however, that if for any reason these sources of funds to CRC and CRR prove insufficient to permit them to pay and discharge their obligations, CSX and NS have agreed that CRR Holdings shall provide the necessary funds, which it will obtain from CSXC and NSC.

7 For a more complete description of the areas addressed here under the heading "Other Areas with Special Treatments," see CSX/NS-18 at 49-54 (and references there cited).
Applicants anticipate that, following the Division of Conrail, approximately 350 employees will be employed by Conrail in the Philadelphia area (where the headquarters of CRR and CRC are now located). These employees will include Conrail employees managing and operating trains for CSX and NS, the employees in the local Shared Assets Area, and the management personnel for the continuing Conrail functions. In addition, each of CSX and NS anticipates establishing a regional headquarters-type function in Philadelphia at which an undetermined number of additional personnel will be employed.

It is intended that, following the Division: CRC will not hold itself out to the public as performing transportation services directly and for its own account; CRC will not enter into any contract (other than with CSX or NS) for the performance of transportation services; and all transportation services performed by CRC will be performed as agent or subcontractor of CSX or NS.

2-to-1 SITUATIONS. Applicants claim that the division of Conrail proposed in the primary application has enabled applicants to avoid, "wherever possible," situations where shippers will see their rail options decline from two carriers to one; and that it, "virtually all of the few" 2-to-1 situations that the division proposed in the primary application would otherwise have entailed, CSX and NS have agreed to provide one another with trackage and haulage rights that will permit the continuation of two rail carrier service. See CSX/NS-18, 74-75 (CSX will provide trackage or haulage rights that will allow for alternative rail service to facilities that otherwise would be, as a result of the transaction proposed in the primary application, rail-served solely by CSX; and NS will provide trackage or haulage rights that will allow for alternative rail service to facilities that otherwise would be, as a result of the transaction proposed in the primary application, rail-served solely by NS).

LABOR IMPACT. Applicants have provided three Labor Impact Exhibits, each using a different base line in calculating the impacts that the transactions proposed in the primary application and the related filings will have on rail carrier employees. See CSX/NS-26 (filed July 7, 1997), which: (a) corrects the single Labor Impact Exhibit filed with the primary application itself on June 23, 1997. see CSX/NS-18 at 24-25; CSX/NS-20, Volume 3A at 485-546; and CSX/NS-20, Volume 3B at 493-526: and (b) adds two additional Labor Impact Exhibits. See also Decision No. 7, served May 30, 1997, slip op. at 8-9 (we required applicants to use the year 1995 as the base line for setting forth the impacts the proposed transactions will have on rail carrier employees, but we added that applicants, if they were so inclined, would be allowed to supplement 1995 data with data demonstrating employment reductions in 1996 and/or 1997).

Applicants' 1996/97 Labor Impact Exhibit projects, with respect to both the CSX and NS expanded systems, that the proposed transactions will result in the abolition of 3,090 jobs and the creation of 1,109 jobs (for a net loss of 1,981 jobs), and will also result in the transfer of an additional 2,323 jobs. See CSX/NS-26, 1996/97 Exhibit at 13. The 1996/97 Exhibit is based on an April 1, 1997 nonagreement employee count and a November 1996 agreement employee count.

Applicants' 1996 Labor Impact Exhibit projects, with respect to both the CSX and NS expanded systems, that the proposed transactions will result in the abolition of 3,822 jobs and the creation of 1,152 jobs (for a net loss of 2,670 jobs), and will also result in the transfer of an additional 2,323 jobs. See CSX/NS-26, 1996 Exhibit at 16. The 1996 Exhibit is based on calendar year 1996 average monthly employment levels.

Applicants' 1995 Labor Impact Exhibit projects, with respect to both the CSX and NS expanded systems, that the proposed transactions will result in the abolition of 6,654 jobs and the creation of 1,699 jobs (for a net loss of 4,955 jobs), and will also result in the transfer of an additional 2,288 jobs. See CSX/NS-26, 1995 Exhibit at 33. The 1995 Exhibit is based on calendar year 1995 average monthly employment levels. But see CSX/NS-26, Perier/Spenski V.S. at 1 n.l (1995 data is incomplete).

Applicants emphasize that the projections contained in their Labor Impact Exhibits are short term projections; applicants maintain that, in the long term, the transactions proposed in the

primary application and the related filings will provide opportunities for rail transportation growth and, therefore, new jobs. Applicants anticipate that, if we approve the transactions proposed in the primary application and the related filings, we will impose on such transactions the standard labor protective conditions customarily imposed on similar such transactions. See CSX/NS-18 at 25.

RELIEF REQUESTED IN THE PRIMARY APPLICATION. In the STB Finance Docket No. 33388 lead docket, applicants seek: approval of the transaction proposed in the primary application (in paragraph 1 below); approval of certain "elements" of that transaction, referred to as Transaction Elements (in paragraphs 2, 3, 4, 5, 6, 7, 8, 9, 10, and 11 below); and a "fairness determination" respecting the terms under which CSX and NS have acquired all of the common stock of CRR (in paragraph 12 below).

(1) Applicants seek approval and authorization, pursuant to 49 U.S.C. 11323 and 11324, of the acquisition by CSXC and NSC (each a non-carrier corporation controlling one or more rail carriers) of joint control of, and the power to exercise joint control over, CRR (also a non-carrier corporation controlling one or more rail carriers). See 49 U.S.C. 11323(a)(5).

(2) Applicants seek approval and authorization, pursuant to 49 U.S.C. 11323 and 11324, of the acquisition by NYC and PRR of, and of the operation by CSXT and NSR over, the CRC lines and other assets, including without limitation trackage and other rights, that will be allocated to NYC and PRR, respectively. Applicants also ask that we expressly provide that, pursuant to the sought approval and authorization under 49 U.S.C. 11323 and 11324, and notwithstanding any purported limitations on assignability, NYC and PRR each will have the same right, title, and interest in the CRC lines and other assets forming part of the Allocated Assets as CRC itself now has, including the power to pass the use and enjoyment of those lines and other assets to CSXT and NSR.

(3) Applicants request a declaratory order that 49 U.S.C. 10901 does not apply to the transfer of the Allocated Assets to NYC and PRR. Applicants concede that, because NYC and PRR are not now carriers, an argument can be made that authority under 49 U.S.C. 10901 is required for the transfer; applicants maintain, however, that the transfer should be viewed in context as simply a part of a larger transaction involving the operation by CSX and NS of the assets to be transferred to NYC and PRR, respectively; and applicants claim that the transfer, when viewed in context, requires authorization not under 49 U.S.C. 10901 but rather under 49 U.S.C. 11323 and 11324. In the event we do not issue the sought declaratory order, applicants seek authorization for the transfer of the CRC assets to NYC and PRR: under 49 U.S.C. 10901; and, in order to bring the transfer within the scope of the immunizing power of 49 U.S.C. 11321(a), also under 49 U.S.C. 11323 and 11324.

(4) Applicants seek approval and authorization, pursuant to 49 U.S.C. 11323 and 11324: (i) for CSXT and NSR to enter into the Allocated Assets Operating Agreements and to operate the assets held by NYC and PRR, respectively; (ii) for CSXT, NSR, and CRC to enter into the three Shared Assets Areas Operating Agreements and to operate the assets in such areas; and (iii) for CSX and NS to use, operate, perform, and enjoy the Allocated Assets and the assets in the Shared Assets Areas consisting of assets other than routes (including, without limitation, the Existing Transportation Contracts). See 49 U.S.C. 11323(a)(2). See also 49 U.S.C. 11323(a)(6).

9 As applicants note, although joint control by CSXC and NSC of Conrail as a separately functioning rail system will last only until the Division is effected, such joint control, even though transitory, requires approval and authorization under 49 U.S.C. 11123(a)(5). See CSX/NS-18 at 90 & n.14.

10 The CRC lines and other assets to be allocated to NYC and PRR include both: (i) those owned by CRC; and also (ii) those not owned by CRC but operated by CRC under leases, trackage rights, and similar arrangements (such arrangements are hereinafter referred to as "Trackage Agreements"). Because applicants are concerned that CRC's interests under some of these Trackage Agreements may be subject to limitations on assignability, approval and authorization under 49 U.S.C. 11323 and 11324 has been sought in order to bring these Trackage Agreements within the scope of the immunizing power of 49 U.S.C. 11321(a). See Norfolk & Western Ry. Co. v. American Train Dispatchers' Ass'n, 499 U.S. 117 (1991).

11 As applicants note, the immunizing power of 49 U.S.C. 11321(a) does not extend to an authorization under 49 U.S.C. 10901.
Applicants also request a declaratory order, or a declaration to the same effect as a declaratory order: (a) that, by virtue of the immunizing power of 49 U.S.C. 11321(a), CSX and NS will have the authority to conduct operations over the routes of CRC covered by the Trackage Agreements as fully and to the same extent as CRC itself could, whether or not such routes are listed in CSX/NS-18, Appendix L (CSX/NS-18 at 216-24), and notwithstanding any clause in any such agreement purporting to limit or prohibit unilateral assignment by CRC of its rights thereunder; and (b) that, also by virtue of the immunizing power of 49 U.S.C. 11321(a), CSX and NS may use, operate, perform, and enjoy the Allocated Assets and the assets in the Shared Assets Areas consisting of assets other than routes (including, without limitation, the Existing Transportation Contracts) as fully and to the same extent as CRC itself could.

(5) For the period following the transfer of CRC assets to NYC and PRR, applicants seek approval and authorization, pursuant to 49 U.S.C. 11323 and 11324: (a) for CSXC, NSC, and CRR to continue to control NYC and PRR; and (b) for the common control, by CSXC, CSXT, NSC, NSR, CRR, and CRC of (i) NYC and PRR, and (ii) the carriers currently controlled by CSXC, CSXT, NSC, NSR, CRR, and CRC. Such authorization and approval will be necessary because, as applicants note: CRC, NYC, and PRR will not be part of a "single system" of rail carriers, and therefore authorization to control CRC will not in and of itself imply authorization to control NYC and PRR; and, although CSX will exercise day-to-day control of NYC and NS will exercise day-to-day control of PRR, the fact that certain major actions concerning NYC and PRR will remain under the control of CRC will result in an ongoing common control relationship involving CSXC, NSC, and CRR, and the subsidiaries of each.

(6) Applicants seek approval and authorization, pursuant to 49 U.S.C. 11323 and 11324: for the acquisition by CSXT of certain trackage rights over PRR; and for the acquisition by NSR of certain trackage rights over NYC. See 49 U.S.C. 11323(a)(6). The lines over which these trackage rights will run are listed in items 1.B and 1.A, respectively, of Schedule 4 to the Transaction Agreement. See CSX/NS-25, Volume 8B at 110-21.12

(7) Applicants seek approval and authorization, pursuant to 49 U.S.C. 11323 and 11324, of the trackage rights provided to CSXT, see CSX/NS-25, Volume 8C at 715-57, to access all current and future facilities located on or accessed from the former Monongahela Railway, including the Waynesburg Southern. See 49 U.S.C. 11323(a)(6).13

(8) The trackage rights covered by paragraph 6 include, among many other such trackage rights, certain trackage rights to be acquired by NSR over the NYC Bound Brook, NJ-Woodbourne, PA line. See CSX/NS-25, Volume 8B at 112 (item 20). These particular trackage rights, however, are intended to be temporary in duration, and will expire, by their terms, at the end of 3 years. Applicants therefore seek authorization, pursuant to 49 U.S.C. 10903, for NSR to discontinue the Bound Brook-Woodbourne trackage rights in accordance with the terms thereof.14

(9) Applicants seek approval and authorization, pursuant to 49 U.S.C. 11323 and 11324, of certain incidental trackage rights granted in connection with operations within the Shared

---

12 The trackage rights identified in Schedule 4 to the Transaction Agreement, see CSX/NS-25, Volume 8B at 110-21, fall into three categories: existing trackage rights held by CRC over other carriers, which are covered in paragraph 4 above; new trackage rights to be held by CSXT over PRR and by NSR over NYC, which are covered in this paragraph 6; and certain additional new trackage rights provided for in the related filings in STB Finance Docket No. 33388 (Sub-Nos. 25, 27, 28, 29, 30, 32, 33, & 34), which are covered in the "Related Filings" discussion below. See CSX/NS-18 at 96 n.17.

13 Applicants indicate, see CSX/NS-18 at 96 (lines 9-10), that the rights referenced in paragraphs 6 and 7 fall under 49 U.S.C. 11323(a)(2) (approval and authorization required for a "purchase, lease, or contract to operate property of another rail carrier by any number of rail carriers"). The rights referenced in paragraphs 6 and 7, however, appear to be trackage rights, and we therefore believe that these rights fall under 49 U.S.C. 11323(a)(6) (approval and authorization required for the acquisition "by a rail carrier of trackage rights over, ... or joint use of, a railroad line ... owned or operated by another rail carrier").

14 Applicants indicate that, in due course, NSR will "abandon" its Bound Brook-Woodbourne trackage rights. See CSX/NS-18 at 96-97 (item e) and 103 (item e). We think it would be more accurate to say that NSR will "discontinue" these trackage rights.
Assets Areas. These trackage rights include: (i) trackage rights granted by CSXT to N.R and CRC, and (ii) trackage rights granted by NSR to CSXT and CRC. See CSX/NS-18 at 97-98. See also CSX/NS-25, Volume 8C at 76, 115-16, and 156.

(10) To the extent that any matter concerning either (i) the joint ownership by CSX and NS of CRR, CRC, NYC, and/or PRR, or (ii) the Transaction Agreement and the Ancillary Agreements referred to therein,14 including the provision for handling Existing Transportation Contracts, might be deemed to be a pooling or division by CSX and NS of traffic or services or of any part of their earnings, applicants request approval for such pooling or division under 49 U.S.C. 11322.15

(11) Applicants seek approval and authorization, pursuant to 49 U.S.C. 11323 and 11324, for the transfer of CRC's Streator Line from CRC to NSR/NW.18

(12) Applicants seek a determination that the terms under which CSX and NS, both individually and jointly, have acquired all of the common stock of CRR are fair and reasonable to the stockholders of CSXC, the stockholders of NSC, and the stockholders of CRR. See Schwabacher v. United States, 334 U.S. 192 (1948).

RELATED FILINGS. In STB Finance Docket No. 33388 (Sub-No. 1), CSXT has filed a notice of exemption under 49 CFR 1150.36 to construct and operate, at Crestline, OH, a connection track in the northwest quadrant of the intersection of CRC's North-South line between Greenwich, OH, and Indianapolis, IN, and CRC's East-West line between Pittsburgh, PA, and Ft. Wayne, IN. The connection will extend approximately 1,507 feet between approximately MP 75.4 on the North-South line and approximately MP 188.8 on the East-West line.

In STB Finance Docket No. 33388 (Sub-No. 2), CSXT has filed a petition under 49 U.S.C. 10502 for exemption from the provisions of 49 U.S.C. 10901 to construct and operate, in Willow Creek, IN, a connection track in the southeast quadrant of the intersection between

13 Applicants indicate, see CSX/NS-18 at 98 (lines 1-2), that the rights referenced in paragraph 9 fall under 49 U.S.C. 11323(a)(2). The rights referenced in paragraph 9, however, appear to be trackage rights, and we therefore believe that these rights fall under 49 U.S.C. 11323(a)(6).

14 As used in the Transaction Agreement, the term "Ancillary Agreements" means the Equipment Agreements, the CSXT Operating Agreement, the NSR Operating Agreement, the NYC LLC Agreement, the PRR LLC Agreement, the CRR Holdings LLC Agreement, the Trackage Rights Agreements, the CSXT/NSR Haulage Agreements, the Tax Allocation Agreement, the Shared Assets Agreements, and the Other Operating Agreements. See CSX/NS-25, Volume 8B at 10.

15 Such approval under 49 U.S.C. 11322 is sought because, as applicants note, payments with respect to the rights granted in connection with both the Allocated Assets and the Shared Assets Areas, as well as payments for the services performed by CRC in connection with the Shared Assets Areas, are to be made by CSXT and NSR to entities (CRC or its subsidiaries) in which both CSX and NS will have economic interests.

16 See Decision No. 4 (served May 2, 1997), slip op. at 7 n.16: "The transfer of the Streator line from CRC to NSR will be considered in the lead docket because this transfer, like all aspects of the division of CRC assets between CSX and NS, is integral to, and an inseparable part of, the control transaction." See also CSX/NS-22 at 446, defining the Streator Line as the CRC line running: (i) between MP 6.5 at Osborn, IN, and MP 33.2 at Schneider, IN; and (ii) between MP 56.4 at Wheatfield, IN, and MP 166.0 at Morris, IL.

17 In accordance with the waiver granted in Decision No. 9, served June 12, 1997, and as indicated in the notice published in the Federal Register on July 11, 1997 (62 FR 37331), we will consider on an expedited basis, in advance of our consideration of the primary application: (i) the physical construction of the Crestline connection track, as proposed in the STB Finance Docket No. 33388 (Sub-No. 1) embraced docket; and (ii) operation thereover by CSXT. The operational implications of the transactions proposed in the primary application and in the related filings as a whole, including proposed operations over the Crestline connection track, if authorized, will be examined in the context of the environmental impact statement (EIS) that will be prepared by our Section of Environmental Analysis (SEA).
CSXT's line between Garrett, IN, and Chicago, IL, and CRC's line between Porter, IN, and Gibson Yard, IN (outside Chicago). The connection will extend approximately 2,800 feet between approximately MP BI-236.5 on the CSXT line and approximately MP BI-248.8 on the CRC line.

In STB Finance Docket No. 33388 (Sub-No. 3), CSXT has filed a petition under 49 U.S.C. 10502 for exemption from the provisions of 49 U.S.C. 10901 to construct and operate in Greenwich, OH, connection tracks in the northwest and southeast quadrants of the intersection between the CSXT line between Chicago and Pittsburgh and the CRC line between Cleveland and Cincinnati. The connection in the northwest quadrant, a portion of which will be constructed utilizing existing trackage and/or right-of-way of the Wheeling & Lake Erie Railway Company, will extend approximately 4,600 feet between approximately MP BG-193.1 on the CSXT line and approximately MP 54.1 on the CRC line. The connection in the southeast quadrant will extend approximately 1,044 feet between approximately MP BG-192.5 on the CSXT line and approximately MP 54.6 on the CRC line.

In STB Finance Docket No. 33388 (Sub-No. 4), CSXT has filed a petition under 49 U.S.C. 10502 for exemption from the provisions of 49 U.S.C. 10901 to construct and operate at Sidney Junction, OH, a connection track in the southeast quadrant of the intersection between the CSXT line between Cincinnati, OH, and Toledo, OH, and the CPC line between Cleveland, OH, and Indianapolis, IN. The connection will extend approximately 3,263 feet between approximately MP BE-96.5 on the CSXT line and approximately MP 163.5 on the CRC line.

In STB Finance Docket No. 33388 (Sub-No. 5), NW has filed a petition under 49 U.S.C. 10502 for exemption from the provisions of 49 U.S.C. 10901 to construct and operate at Sidney, IL, a connection track between the UPRR north-south line between Chicago, IL, and St. Louis, MO, and the NW east-west line between Decatur, IL, and Tilton, IL. The connection, which will

20 We question the MP 248.8 designation, see CSX/NS-22 at 106 (line 1); our review of CRC's timetable for its Porter Branch suggests that the correct designation may be MP 246.8. We also question CSXT's assertion that the Sub-No. 2 connection track will provide a direct link between CRC and CSXT tracks "and the parallel IH8 line at Willow Creek," see CSX/NS-22 at 106 (lines 16-17); our review of CRC's timetable for its Porter Branch suggests that the link with IH8 may be at Ivanhoe, not at Willow Creek.

21 In accordance with the waiver granted in Decision No. 9, and as indicated in the notice published in the Federal Register concurrently herewith, we will consider on an expedited basis, in advance of our consideration of the primary application: (i) the physical construction of the Willow Creek connection track, as proposed in the STB Finance Docket No. 33388 (Sub-No. 2) embraced docket; and (ii) operation thereover by CSXT. The operational implications of the transactions proposed in the primary application and in the related filings as a whole, including proposed operations over the Willow Creek connection track, if authorized, will be examined in the context of the EIS that will be prepared by SEA.

We reserve the right to require the filing of supplemental information from applicants or any other party or individual, if necessary to complete the record in this matter.
PUBLIC INSPECTION. The primary application and all related filings, including the various accompanying exhibits, are available for inspection in the Docket File Reading Room (Room 755) at the offices of the Surface Transportation Board, 1925 K Street, N.W., in Washington, DC.

PROCEDURAL SCHEDULE. In Decision No. 6, served May 30, 1997, and published that day in the Federal Register at 62 FR 29387, we adopted a procedural schedule. To provide further notice to interested persons, we have attached that schedule to this decision as Appendix B and have filled in all of the dates.

NOTICE OF INTENT TO PARTICIPATE. Any person who wishes to participate in this proceeding as a party of record (POR) must file with the Secretary of the Board, no later than August 7, 1997, an original plus 25 copies of a notice of intent to participate, accompanied by a certificate of service indicating that the notice has been properly served on Judge Leventhal and on applicants’ representatives.

We will serve, as soon as practicable after August 7, 1997, a notice containing the official service list (the service list notice). Each party of record will be required to serve upon all other parties of record, within 10 days of the service date of the service list notice, copies of all filings previously submitted by that party (to the extent such filings have not previously been served upon such other parties). Each party of record will also be required to file with the Secretary of the Board, within 10 days of the service date of the service list notice, an original plus five copies of a certificate of service indicating that the service required by the preceding sentence has been accomplished. Every filing made by a party of record after the service date of the service list notice must have its own certificate of service indicating that both Judge Leventhal and all PORs on the service list have been served with a copy of the filing. Members of the United States Congress (MOCs) and Governors (GOVs) are not parties of record (PORs) and therefore need not be served with copies of filings, unless any such Member or Governor is designated as a POR.

As noted in Decision No. 6, slip op. at 5, 62 FR at 29389, we will serve copies of our decisions, orders, and notices only on those persons who are designated on the official service list as either POR, MOC, or GOV. All other interested persons are encouraged to make advance arrangements with the Board’s copy contractor, DC News & Data, Inc. (DC News), to receive copies of Board decisions, orders, and notices served in this proceeding. DC News will handle the collection of charges and the mailing and/or faxing of decisions, orders, and notices to persons who request this service. The telephone number for DC News is: (202) 289-4357.

In Decision No. 9, we added to the procedural schedule adopted in Decision No. 6 by requiring applicants to file, by September 5, 1997, Preliminary Draft Environmental Assessments for the construction projects referenced in the STB Finance Docket No. 33388 (Sub-Nos. 1, 2, 3, 4, 5, 6, and 7) embraced dockets. As indicated in the notice published in the Federal Register on July 11, 1997 (62 FR 37331), we will consider on an expedited basis, in advance of our consideration of the primary application: (i) the physical construction of the Crestline connection track, as proposed in the STB Finance Docket No. 33388 (Sub-No. 1) embraced docket; and (ii) operation thereover by CSXT. As indicated in the notices published in the Federal Register concurrently herewith, we will consider on an expedited basis, in advance of our consideration of the primary application: (i) the physical construction of the Willow Creek, Greenwich, Sidney Junction, Sidney, Alexandria, and Bucyrus connection tracks, as proposed in the STB Finance Docket No. 33388 (Sub-Nos. 2, 3, 4, 5, 6, and 7) embraced dockets, respectively; and (ii) operation thereover by applicants. As further indicated in the notice published on July 11, 1997, and in the notices published concurrently herewith, the operational implications of the transactions proposed in the primary application and in the related filings as a whole, including proposed operations over the Crestline, Willow Creek, Greenwich, Sidney Junction, Sidney, Alexandria, and Bucyrus connection tracks, if authorized, will be examined in the context of the EIS that will be prepared by SEA.

An interested person does not need to be on the service list to obtain a copy of the primary application or any other filing made in this proceeding. Our Railroad Consolidation Procedures provide: “Any document filed with the Board (including applications, pleadings, etc.) shall be promptly furnish to interested persons on request, unless subject to a protective order.” See 49 CFR 1180.4(a)(3), as recently amended in Railroad Consolidation Procedures—Modification of Fee Policy. DESCRIPTIONS OF, AND PETITIONS RESPECTING, RESPONSIVE (INCLUDING INCONSISTENT) APPLICATIONS. Because the transaction proposed by applicants constitutes a major transaction within the meaning of our rail consolidation rules (49 CFR part 1180), railroads intending to file responsive (including inconsistent) applications must submit descriptions of those applications by August 22, 1997. The description must state that the commenting railroad intends to file an application seeking affirmative relief that requires an application to be filed with the Board (e.g., divestiture, purchase, trackage rights, inclusion, construction, or abandonment) and must include a general statement of what that application is expected to include. This will be considered a prefilling notice without which the Board will not entertain applications for this type of relief.

Petitions for waiver or clarification by responsive (including inconsistent) applicants must be filed by August 22, 1997. Each responsive (including inconsistent) application filed and accepted will be consolidated with the primary application in this proceeding. Parties should contact the Office of the Secretary, Case Control Unit, at 202-565-1681 to obtain docket numbers for their responsive (including inconsistent) applications.

Any responsive (including inconsistent) applicant must file, by October 1, 1997, either: (1) a verified statement that the responsive (including inconsistent) application will have no significant environmental impact; or (2) a responsive environmental report (RER) that contains detailed environmental information regarding the responsive (including inconsistent) application. See Decision No. 6, slip op. at 3–4, 62 FR at 29388–89.

RESPONSIVE (INCLUDING INCONSISTENT) APPLICATIONS, COMMENTS, PROTESTS, REQUESTS FOR CONDITIONS, AND OTHER OPPOSITION EVIDENCE AND ARGUMENT. Any interested persons, including the U.S. Secretary of Transportation and the U.S. Attorney General, may file written comments, protests, requests for conditions, and any other opposition evidence and argument, and/or responsive (including inconsistent) applications, no later than October 21, 1997. This deadline applies to comments, etc., addressing either the primary application or any of the related filings submitted with the primary application. An original and 25 copies of such comments, etc., must be filed with the Surface Transportation Board, Office of the Secretary, Case Control Unit, ATTN: STB Finance Docket No. 33388, 1925 K Street N.W., Washington, DC 20423–0001. In addition, as previously noted, parties are also requested to submit one electronic copy of each document filed with the Board. Further details respecting such electronic submissions are provided below.

Written comments, etc., must be concurrently served by first class mail on the U.S. Secretary of Transportation, the U.S. Attorney General, Judge Leventhal, applicants’ representatives, and all other parties of record.

Written comments, etc., shall include: (1) the docket number and title of the proceeding; (2) the name, address, and telephone number of the commenting party and its representative upon whom service shall be made; (3) the commenting party's position, i.e., whether it supports or opposes the proposed transaction; (4) a list of any specific protective conditions sought; and (5) an analysis of the issues with particular attention to our general policy statement for the merger or control of at least two Class I railroads (49 CFR 1180.1), the statutory criteria (49 U.S.C. 11324), and antitrust policy.

Protesting parties are advised that, if they seek either the denial of the primary application or the imposition of conditions upon any approval thereof, on the theory that approval without imposition of conditions will harm either their ability to provide essential services and/or competition, they must present substantial evidence in support of their positions. See Lamoille Valley R.R. Co. v. ICC, 711 F.2d 295 (D.C. Cir. 1983).

-OTHER DATES. The procedural schedule adopted in Decision No. 6 further provides: (1) that rebuttal in support of the primary application, or in support of any of the related filings.

DATES RESPECTING ABANDONMENTS. We will process the abandonments proposed by applicants in accordance with the overall procedural schedule, rather than applying the procedural schedules required by 49 U.S.C. 10904 and our 49 CFR part 1152 abandonment regulations. Therefore, with respect to each related abandonment proposal: (1) in order to be designated a party of record (POR), a person must file with the Secretary of the Board, no later than August 7, 1997, an original plus 25 copies of a notice of intent to participate along with a certificate of service indicating that the notice has been properly served on Judge Leventhal and on applicants' representatives; (2) opposition submissions, requests for public use conditions, and/or Trails Act requests must be filed by October 21, 1997; (3) rebuttal in support of the abandonment proposals, and/or responses to any requests for public use conditions and Trails Act requests, must be filed by December 15, 1997; (4) as with the primary application and all related matters, briefs may be filed by February 23, 1998; oral argument will be held on April 9, 1998, and a voting conference will be held, at the Board's discretion, on April 14, 1998; and (5) if, in the final decision served on June 8, 1998, we approve the primary application, we shall also address, in that final decision, each of the abandonment proposals, and all matters (including requests for public use conditions and Trails Act requests) relative thereto; and if we exempt any of the abandonment proposals, we shall require interested persons to file, no later than 10 days after the date of service of the final decision, offers of financial assistance with respect to any of the exempted abandonments.

DISCOVERY. In Decision No. 1, served April 16, 1997, this proceeding was assigned to Judge Leventhal for the handling of all discovery matters and the initial resolution of all discovery disputes. In Decision No. 10, served June 27, 1997, Judge Leventhal adopted discovery guidelines to govern the conduct of discovery in this proceeding.

DEADLINES APPLICABLE TO APPEALS AND REPLIES. As noted in Decision No. 6, slip op. at 7, 62 FR at 29390: any appeal to a decision issued by Judge Leventhal must be filed within 3 working days of the date of his decision; any response to any such appeal must be filed within 3 working days of the date of filing of the appeal; and any reply to any motion filed with the Board itself in the first instance must be filed within 3 working days of the date of filing of the motion.

ENVIRONMENTAL REVIEW PROCESS: SCOPE. By notice served July 3, 1997, and published in the Federal Register on July 7, 1997, at 62 FR 36332, the Board's Section of Environmental Analysis (SEA) has: (a) provided notice to interested persons that, to evaluate and consider the potential environmental impacts that may result from the transactions proposed in the primary application and in the related filings, SEA intends to prepare an environmental impact statement (EIS); (b) set out the draft scope of the EIS that SEA intends to prepare; (c) directed that written comments respecting the draft scope be filed by August 6, 1997; and (d) set forth projected time frames for conducting the EIS process.
