STB FINANCE DOCKET NO. 33388 (SUB-NO. 76)

INDIANA SOUTHERN RAILROAD, INC.
--TRackage RIGHTS--
CONSOLIDATED RAIL CORPORATION AND INDIANA RAIL ROAD COMPANY

ENVIRONMENTAL VERIFIED STATEMENT

Indiana Southern Railroad, Inc. ("ISRR"), pursuant to Decision No. 6 (served May 30, 1997) and Decision No. 38 (served September 18, 1997), hereby submits its Environmental Verified Statement.

In its Description of Anticipated Responsive Application (ISRR-2), ISRR stated that it anticipated seeking trackage rights in Indianapolis, IN and between Indianapolis and certain nearby cities in Indiana. The grant of these trackage rights to ISRR will have no significant environmental impact.

The proposed trackage rights will not result in significant changes in carrier operation. There will not be a diversion of: (1) more than 1,000 rail carloads a year to motor carriage; or (2) an average of 50 carloads per mile per year for any part of this line to motor carriage. The granting of the trackage rights will also not result in: (1) an increase in rail traffic of at least 100 percent or an increase of at least eight trains a day on any segment of the line; (2) an increase in rail yard activity of at least 100 percent; or (3) an average increase in truck traffic of more than 10 percent of the average daily traffic or 50 vehicles a day. To the extent that the trackage rights

affect a class I or nonattainment area under the Clean Air Act, they will not result in: (1) an increase in rail traffic of at least 50 percent or an increase of at least three trains a day on any segment of the line; (2) an increase in rail yard activity of at least 20 percent; or (3) an average increase in truck traffic of more than 10 percent of the average daily traffic or 50 vehicles a day. Accordingly, no environmental documentation is required for ISRR's filing in this proceeding pursuant to the provisions of 49 C.F.R. 1105.6(c)(2).

Respectfully submitted,

KARL MORELL
